

Coalition Effort Begun in Bonn to Unseat Adenauer

Free Democrats Schedule
Meeting With Socialists

BONN, Germany (AP) — The conservative Free Democrats scheduled a meeting with leaders of the opposition Socialists today in a surprise bid to form a right-left coalition to unseat Chancellor Konrad Adenauer.

West Germany's serious political crisis showed no sign of solution, Adenauer and his Christian Democrats discussed coalition with Socialist leaders Tuesday but reached no decision.

A communique said that they

erated. Half the Socialist members of Parliament were reported to have joined the coalition with the Christian Democrats unless Adenauer retired.

The unresolved crisis, touched off originally by the walkout of Free Democrats from the government as a result of the Spiegel affair, has put Adenauer in one of the toughest spots of his political career.

A union of Free Democrats and Socialists would mean an end to the 86-year-old Adenauer's rule. The Free Democrats, with 67 seats, hold the balance of power in the present Bundestag (lower house). Adenauer's Christian Democrats hold 241 seats and the Socialists 190.

A new arrest in the Spiegel case was announced while political leaders struggled to heal the breach caused by the crackdown on the weekly news magazine.

Lawyer Josef Augstein, a brother of Der Spiegel's publisher, was taken into custody Tuesday on suspicion of complicity in high treason.

The previous arrests of publisher Rudolf Augstein and members of his staff touched off the turmoil that caused the exit of the Free Democrats from the government and brought on the resignation of Defense Minister Franz Josef Strauss.

The first arrests followed an article in the magazine charging that the 400,000-man armed force Strauss built up during his six years in office was incapable of stopping any Soviet aggression. Critics charged that Strauss had sought revenge against the magazine, which had constantly opposed him. Strauss subsequently resigned, but efforts to patch up the coalition have so far been unsuccessful.

Economic Chief In Argentina Resigns Office

20 Senior Officials
Join Alsogaray in
Leaving Positions

BY ISAAC A. LEVI

BUENOS AIRES, Argentina (AP)—Economic Minister Alvarez Alsogaray gave in to week-long pressure Tuesday night and tendered his resignation, charging that divisions in the government balked his campaign to hold the line against inflation.

The threatened departure from the government of the controversial 49-year-old economist—along with his entire economic team of 20 senior officials—promised yet another political crisis.

Unconfirmed reports said Rear Adm. Carlos A. Kolungia also had resigned as Navy secretary.

President Jose Maria Guido neither accepted nor rejected the mass resignations immediately. He told Alsogaray he would start a round of consultations—beginning with the military leaders of the government—today.

The war secretary, Lt. Gen. Benjamin Rattenbach, apparently precipitated Alsogaray's decision to quit by stating at a news conference that the economic minister's policies were not adequate to pull Argentina out of its slump.

Alsogaray said the head of the army told him on Monday "other Cabinet ministers are feeling the same way." Alsogaray's austerity policy was always opposed by discussed "future political cooperation."

Alsogaray

Navy Dependents Will Return to Cuban Bastion

WASHINGTON (AP)—Secretary of the Navy Fred C. Drexler announced today that a majority of Navy and Marine Corps wives and children evacuated from the U.S. naval base at Guantanamo, Cuba, at the outset of the missiles-and-bombers crisis will be allowed to return before Christmas.

About 1,400 of the more than 2,800 military dependents and families of civilian workers who were pulled out on short notice Oct. 22 are expected to return by first available transportation, the Navy said.

Some are expected to leave by air from Norfolk, Va. on Friday. Most will move by military air transport or surface ship starting Dec. 11.

Air flights will leave from Norfolk and sea transportation from New York. The military dependents being allowed to return are those of Navy and Marine personnel whose tours of duty at Guantanamo extend beyond next April. Those who have completed their tours will be allowed to return by the end of the year.

Governors Defer Their Comment

WASHINGTON (AP) — Governors held their fire for the most part as the Pentagon unveiled its program designed to get more ready-to-go combat punch into Reserve units.

An outcry had been predicted by some. It still may come. But Tuesday's announcement by the Defense Department drew only a request by Gov. Albert D. Rosellini of Washington that his colleagues withhold approval of the National Guard proposals until after a Pentagon meeting with state adjutants general next Monday.

Rosellini, chairman of the National Governor's Conference, said he personally opposes abolition of National Guard units in his state. He urged other governors to wait until after a special committee of the conference looks into the matter after Monday's meeting.

The shakeup, in the works for eight months or more, will build reserve strength "far greater than anything we have known in the past," Secretary of Defense Robert S. McNamara said in announcing it.

The order goes into effect automatically for Army Reserve units. Approval by governors is needed for any changes in the National Guard during peacetime.

Dispute Delays Nuclear Ship Engineers' Pay Prevents Start Of Training Cruise

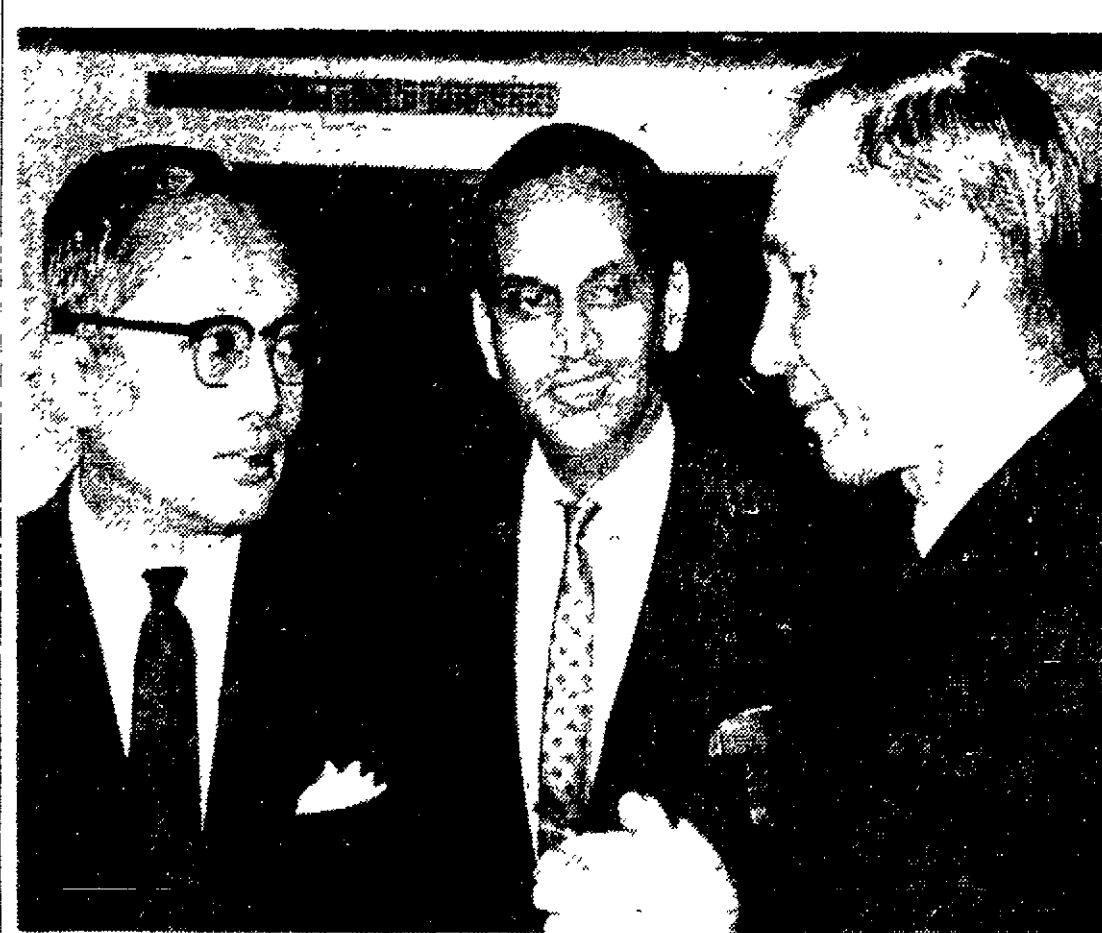

LONG BEACH, Calif. (AP)—The nuclear ship Savannah, whose reactors can carry it whole circuits of the globe without refueling, is tied up here today by a labor dispute.

The gleaming white freighter has been idled by a controversy over wages paid its engineers. They are specially trained nuclear experts, and can't be replaced in a union hiring hall like most crewmen.

The \$53.5-million ship was to have started Tuesday on an 8-day training cruise—to train new engineers.

According to one story—by the Baltimore Sun's maritime editor, Helen Deitch—29 nuclear reactor engineers aboard the Savannah have quit, but are staying aboard for safety reasons until other engineers can be found to mind the potent reactor deep in the Savannah's engine room.

The engineers are members of the AFL-CIO affiliated Marine Engineers Beneficial Association, and sources here said the issue is being negotiated in New York headquarters.

U. N. Secretary-General U Thant, left, is pictured with his host, Soviet Deputy Foreign Minister Vasily Kuznetsov, during luncheon date today at New York headquarters of the Soviet mission to the U. N. Center is U. N. Undersecretary-General C. V. Narasimhan. (AP Wirephoto)

Kennedy Expected To Support Adlai

Ambassador's Effectiveness
Threatened by Uncertainty

BY JOHN M. HIGHTOWER

WASHINGTON (AP) — The future of Adlai E. Stevenson as President Kennedy's ambassador to the United Nations rested under a cloud of uncertainty today—a cloud which only Kennedy himself can dispel.

Unless the uncertainty is cleared up soon Stevenson's effectiveness in dealing with other diplomats in New York may be impaired.

His prestige and persuasiveness depend upon the faith foreign envoys place in the President's confidence in Stevenson. That seems, for the moment, to be the central issue the President must now deal with.

Some well-placed officials expect that Kennedy will speak out publicly in support of Stevenson. Associates of the ambassador say privately that the President already has assured him of his full support and that Stevenson is planning to carry on as usual.

Unless Stevenson was convinced of Kennedy's complete backing, one informant said, "he would have resigned already."

In official quarters two other questions are coming into focus: How much tolerance is there at the White House for disagreement in policy making?

Magazine Article

Should anonymous but apparently authoritative criticism of a high official be interpreted as evidence that his resignation would be welcomed by the president?

Stevenson's troubles began Sunday with the disclosure in New York of an article in this week's edition of the Saturday Evening Post. The article was written by Charles Bartlett, a reporter for the Chattanooga Times and a very close friend of Kennedy, and by Stewart Alsop, the Washington editor of the magazine who is reputed to have excellent contacts within the administration.

The point of the article which attracted immediate attention was a report that Stevenson had dismised within the executive committee of the National Security Council last October that a naval blockade should be imposed around Cuba to block the flow of Soviet nuclear weapons into Cuba.

In a statement Monday the White House denied the report and declared that Stevenson had in fact "strongly supported" Kennedy's decision for the blockade.

Press Secretary Pierre Salinger also said there was "absolutely no question" but that Stevenson would remain as U.N. ambassador.

Stevenson himself assailed the article as "inaccurate and grossly misrepresenting my views."

NEW YORK (AP)—U.N. Ambassador Adlai E. Stevenson said today that he had approved of the naval blockade of Cuba at least three days before the government decided to impose it.

Reiterating his denial that he had opposed the blockade, Stevenson said on the NBC television "Today" show: "I was emphatically in favor of it."

Stevenson previously had denounced as inaccurate a Saturday Evening Post article, co-authored by a close friend of President Kennedy, that portrayed Stevenson as having urged a soft line in the Cuban crisis.

Drowns After Backing Bulldozer Into River

PRESCOTT, Wis. (AP)—Parrell Karlstad, 27, of Prescott, drowned in the Mississippi River Tuesday when he backed a bulldozer into 16 feet of water while employed on a dike building project at this Pierce County village.

Karlstad, whose body was recovered, was unable to swim and could not reach a board tossed toward him by a fellow worker.

Petrillo Gains Lead in Poll By Musicians

CHICAGO (AP)—James Caesar Petrillo pulled into the lead today in his bid to continue as president of the Chicago Federation of Musicians.

A union estimate of the vote results early today indicated that Petrillo had been defeated by an insurgent candidate, by 188 votes, but the official tally by mid-morning had Petrillo leading by more than 100 votes.

John Kryszynski, chief judge of the election, said that with 1,987 votes counted, Petrillo had 1,049 to 939 for Barney Richards, a dance band leader. Kryszynski said more than 3,000 votes were cast.

Petrillo, 70, who served 18 years as president of the American Federation of Musicians, has led the Chicago Federation of Musicians for 40 years.

The election, with only about one-third of the union's reported eligible members voting, marked the first time since 1933 that Petrillo was opposed for the presidency.

Petrillo's son, James Jr., seeking re-election as financial secretary-treasurer of the Chicago union, trailed Ervin H. Trisko 787 to 1,196 on the basis of an incomplete vote count for that position. Richards, 57, headed a group called the "Chicago Musicians for Union Democracy." Richards and his group had claimed Petrillo and his slate had failed to give the local the right kind of representation.

32nd Division Not Greatly Affected by Changes but Others Face Sharp Changes

MADISON (AP)—Army National Guard reorganization plan are expected soon. Olson said any losses by the result in a reduction of such forces in Wisconsin by 3,849 men, this time, because the division Under the plans of Defense Secretary Robert S. McNamara, the 32nd Division of the Army Reserve are to be inactivated, reducing the unit's strength in Wisconsin by 1,063 men to 8,873.

The state's 32nd National Guard Division, which returned in August from 10 months of active duty, apparently will be little affected by the reductions.

No Fox Cities reserve or National Guard units will be directly affected by the moves. Nearby units to be deactivated are the 34th Artillery, Green Bay, part of the 103rd Division, and the 1080th transportation battalion, Green Bay.

Army Reserve changes can be ordered by McNamara's office, but any alterations in National Guard ranks must be approved by state governors.

Questions Timing

Gov. Gaylord Nelson, commander-in-chief of the 32nd Division, was not available for comment. Maj. Gen. Ralph Olson, state adjutant general, questioned the timing of the changes. "We believe," he said, "if any units are to be eliminated it should be done at the time we are reorganizing under a new Reorganized Objective Army Division (ROAD) concept."

Olson said the 32nd Division would not be too seriously affected by the changes. The proposed reorganization would probably reduce that figure to about 8,000 men. Olson would not comment on other National Guard units in the state.

13 Castro Foes Jailed by U. S.

KEY WEST, Fla. (AP) — Thirteen anti-Castro sympathizers sat in jail today 90 miles from Cuba, charged with violating the Neutrality Act.

The 13, including two Cubans and a Canadian—were picked up early Tuesday on a tiny island in the Florida Keys and accused of preparing an expedition against Cuba.

U.S. Commissioner William V. Albury called the 13, 10 of whom are American citizens, "just an adventure group that could get our country into trouble."

Albury ordered the 13 turned over to U.S. District Court in Miami, Fla., and held them on \$1,000 bond each.

In reply to the charges, one of the group, James A. Lewis, 29, of San Francisco, Calif., asked, "Does it matter who violates neutrality, the government or us?"

"We have no name and belong to no other anti-Castro faction," said the apparent leader of the group, Gerald Patrick Henning, 25, of Los Angeles, Calif. Henning indicated, however, he knew of other anti-Castro groups training in the Keys.

The Cubans identified themselves as Eleno O. Alvarez, 26, and Remigio Arce, 43, both of Miami. The Canadian was William J. Dempsey, 21, Stratford, Ont.

The others, all identified as U.S. citizens, were Ronald P. Ponce De Leon, 22, Lawrence J. Howard Jr., 27, Pico Rivera, Calif., Edwin A. Collins, 27, Justin J. Wilson, 26, William Seymour, 25, Edmund Colby, 31, and Joseph C. Garman, 32, all of a single Miami address, and Roy E. Hargraves, 22, also of Miami.

Reds in Italy Lash at Peking

ROME (AP)—Italy's Communist party, the biggest in Western Europe, bluntly condemned Peking today and pledged solidarity with Moscow.

Giancarlo Pajetta, one of Italy's top Reds, turned to a Chinese delegation at the Italian Communist congress here and said his party unanimously "condemns your unjust position."

The 900 delegates rose to their feet in a cheering ovation that left no doubt where Italy's Communist party stands in the Moscow-Peking ideological dispute. The men from Peking remained seated, silently scribbling on a pad.

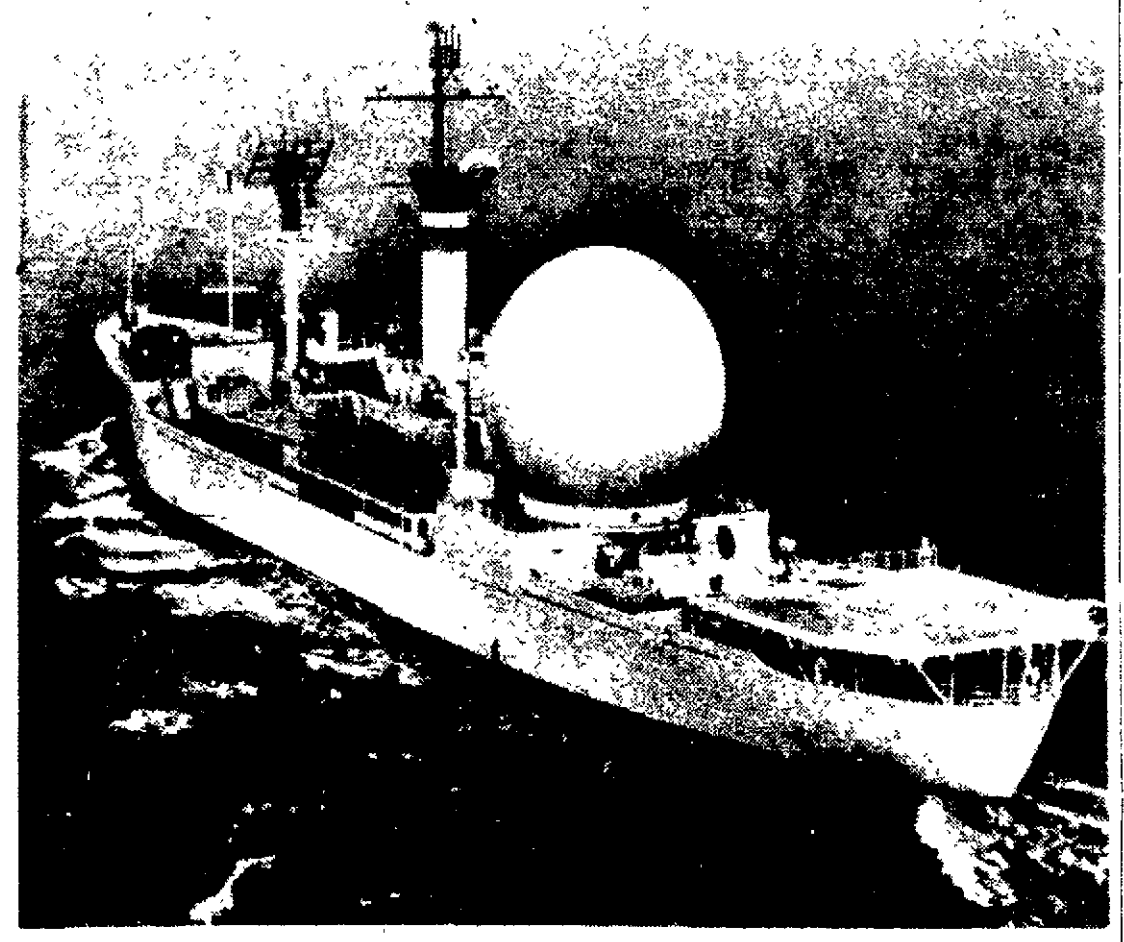

Pajetta's speech was the sharpest and most open denunciation of the Chinese since the congress opened Sunday.

Clouds, Cold, Snow Set for Thursday

Wisconsin — Cloudy and colder with snow flurries this afternoon and tonight. Partial clearing Thursday with some snow flurries in the morning. Low tonight, 20. High Thursday, 36.

Appleton—Temperatures over the 24-hour period ending at 9 a.m. today: High, 45; low, 29. Wind is from the west-northwest at 12 miles an hour. Barometer reading: 29.43 and rising. Temperature at 9 a.m.: 28. A trace of snow and .35 inch of rain have been recorded since 9 a.m. Tuesday.

Sun sets at 4:15 p.m., rises Thursday at 7:14 a.m. Moon sets tomorrow at 1:10 a.m.

The USNS Kingsport, the Navy's first seaborne terminal for satellite communication heads for Philadelphia Naval Base where it will be turned over to the Military Sea Transportation Service by the Bureau of Ships. Agencies Seek \$3.7 Million for 1963-65

Industrial Commission Request Of \$2.1 Million Highest Sum Asked by Four State Units

MADISON (AP) — Four state agencies made 1963-65 biennium budget requests Tuesday, asking for a combined total of \$3.7 million, or \$788,388 more than they received for the present two-year period.

The requests by the State Industrial Commission, the Public Service Commission, the Employment Relations Board and the Human Rights Commission were made at a hearing conducted by Governor-Elect John W. Reynolds.

The Industrial Commission made the largest request, asking \$2.1 million for the period beginning July 1. The amount is \$514,739 more than the commission's last appropriation.

During the commission's presentation Reynolds suggested the agency automatically grant workmen's compensation claims if unable to take action on them within six months.

Help Employee

"It seems to me that the Workmen's Compensation Act was designed to help the employee," Reynolds said. "Why don't you do as the federal government does and adopt a rule that anytime the commission fails to act on a claim within six months the claim is automatically granted."

Matt Schimenz, the commission chairman, said his budget provided for an additional examiner and other new staff help to speed processing of compensation cases. He said it now takes up to three years to resolve some complicated claims.

The Public Service Commission seeks \$1.2 million, an increase of \$227,630. Commission Chairman Leonard Bessman said that variational department income would cut the net cost from tax funds from \$1.2 million to \$260,813.

\$2.9 Million

Reynolds noted that the commission's total operating budget for the two-year period is \$2.9 million.

He said revolving funds and transfers from other state departments would have to be considered in drafting the budget although the funds don't always appear in the executive budget.

The Employment Relations Board asked an increase of \$50,932, raising its total to \$323,814. The additional money would be used to meet increased costs and workloads.

The Human Rights Commission asked \$67,838, an increase of \$6,019.

Marshal Tito May Not Back Khrushchev

Yugoslav Leader Wants Reds to Relax on Berlin

BY GEORGE WELLER
Chicago Daily News Service

ROME — Yugoslavia's Marshal Tito has had news for Soviet Premier Nikita S. Khrushchev in their seventh meeting and his first visit to Moscow since Joseph Stalin's fall. Unless Khrushchev relaxes his pressure on Berlin as he did in Cuba, he will have to lose part of Tito's support.

The reason, according to the Italian press, is an unpublicized crackdown by President Kennedy on Yugoslav aid from the United States.

Tito broke American patience by his two years of support for Khrushchev's aspirations in Berlin. The straw that finally snapped American tolerance was the visit in October to Yugoslavia by Soviet President Leonid I. Brezhnev, who, without rebuke from Tito, used Yugoslav platforms to assail the United States on the Berlin issue.

Brezhnev felt safe since the Soviets have tripled their credits to Yugoslavia and are now supplying arms too.

Tito was then warned, according to the Roman Daily Tempo, by American Ambassador George Kennan that, while he was getting U. S. aid, he could not give all his support to Moscow on the Berlin issue.

Compromise Plan

Tito has come up with a compromise plan that he has already communicated to Moscow and is now trying to sell personally. This plan is that Khrushchev renounce his oft-threatened pledge to sign a separate peace with East Germany.

Instead Tito wants Khrushchev to make a general agreement among all the Warsaw Pact satellites (Yugoslavia is not a Warsaw Pact member), West Germany and East Germany.

Tito has warned Khrushchev, so the Italian reports say, that by persisting on unilateral recognition for East Germany he is risking an even greater split among the neutrals than has already been caused by Red China's attack on India.

Famous British Bird Dead at Age of 8

LONDON (AP)—Sparkie Williams, Britain's richest and most talkative bird, is dead at the age of 8.

He could recite eight nursery rhymes of the "Jack and Jill" caliber without a break and he once had a bank account of 1,000 pounds—\$2,800.

Sparkie was launched on the road to fame after out-talking 3,000 other birds in a national contest staged four years ago by the British Broadcasting Corporation. He became a recording star and a maker of television commercials advertising bird seed.

Sparkie died Tuesday in the hands of his owner, Mattie Williams. The BBC broadcast two 10-minute programs in his memory.

Committee Urges Stiffer Penalties for Minors Buying Liquor

MADISON (AP)—More severe penalties for minors who buy liquor illegally and for traffic violations by persons under 18 have been recommended by a Legislative council committee.

One measure approved by the committee on youthful drinking and driving Tuesday would raise from \$10 to \$50 the minimum fine for a minor who misrepresents his age in an attempt to procure liquor.

The measure would empower a court to assess the \$50 fine or impose a 10-day jail sentence. It also would provide mandatory suspension of the minor's driving license.

The second proposal approved by the committee would permit a juvenile court to revoke or suspend the driver's license of a person under 18 for 30 days to a year on conviction of a moving traffic violation.

The measures and a proposal setting a minimum beer drinking age of 19 throughout the state now go to the Legislative Council for action. The beer age proposal would eliminate local option laws.

Judge Talks to Meeting Of Wisconsin Sheriffs

WAUKESHA (AP) — Circuit Judge William Gramling told a meeting of Wisconsin sheriffs Tuesday that "Unless you give the kind of law enforcement you people want, your power will be whittled away until you are little more than a figurehead."

Addressing the opening session of the three-day winter conference of the Sheriffs and Deputy Sheriffs Association, Gramling, of Waukesha, said that if police powers of the State Traffic Patrol are expanded it will be because sheriffs' departments haven't fulfilled their responsibilities.

Princess in Hospital For Tooth Operation

LONDON (AP)—Princess Alexandra of Kent was admitted to a hospital Tuesday night and court informants said she will have an operation for the removal of impacted wisdom teeth.

The princess, who will be 26 on Christmas Day, announced her engagement last Thursday to wealthy Angus Ogilvy.

Goldwater Put On Hot Spot By Republicans

Must Decide if Presidential Nod Worth Senate Term

BY JACK BELL

WASHINGTON (AP) — Republicans who want Barry Goldwater to head their 1964 presidential ticket may have shoved the Arizona senator on to a hot political spot.

While he has about a year to weigh the idea of making a bid for the presidential nomination, Goldwater eventually is going to have to decide whether the effort would be worth giving up the chance for six years more in the Senate.

Johnson Parley

It has been Goldwater's position that Arizona voters will not go along with the kind of parlay Vice President Lyndon B. Johnson managed in getting elected in 1960 both to the Senate in Texas and to the vice presidency.

Goldwater has said over and over again that he wants another team in the Senate and isn't interested in seeking the presidential nomination.

Goldwater obviously is having some second thoughts about his future course as the result of a secret meeting of party conservatives in Chicago last Sunday. If this group expands into a national organization that demonstrates it can assemble a campaign war chest and throw its weight around, he probably would be happy to go along with it for a while to see what happens.

He indicated as much by his comment that while he still plans to run for the Senate, "things change and it's too early to be certain."

Road Open

This left the road open to make some mileage for the conservative viewpoint within the party, without committing him to go all-out after the nomination. The senator has said repeatedly his objective is to give the conservatives a stronger voice in the drafting of a platform and in the choice of a nominee.

Goldwater knows as well as anyone that Gov. Nelson A. Rockefeller of New York is going after the presidential nomination with the kind of vigor that won't permit much dallying by potential opponents.

Loss Training Monies If States Are Slow To Put Them to Use

MILWAUKEE (AP)—Ivan Nestingen, undersecretary of health, education and welfare, said Tuesday that states which have been slow to use federal funds for training and retraining workers will lose their allotments.

The funds will be transferred to states that have put the money to use and are nearing the end of the appropriations. Nestingen, former mayor of Madison, told a meeting of the American Vocational Association.

Nesting said the federal money for vocational education was intended only as "a pump primer" to encourage state and local communities to provide more money for such programs.

Nesting also said that vocational programs are still not turning out enough people "equipped to earn a living."

Smog Gripping London Poses Threat to Health

LONDON (AP)—A dense blanket of sulphurous yellow smog with weak hearts or chests. London's last great exposure to second day today, raising a threat to health and making thousands late for work.

As commuter trains crawled toward the heart of the city, health authorities warned that babies and old people should be kept at home.

"The situation is potentially serious," said a spokesman for the Medical Research Council. "Smog particularly affects the very old and people with heart or chest ailments during a three-day siege."

Ten years ago the toll from an eight-day smog was at least 4,000, and by some estimates 12,000.

Airport Idle

The capital's great airport was still idle after some 30 hours of inactivity. Shipping was tied up on the River Thames and cars were abandoned across the whole metropolitan area. Rail schedules had been discarded.

Fog blanketed much of the rest of England and spread into the south of Scotland.

In London, the sulphur dioxide content in the atmosphere was six times normal and the smoke concentration nine times its usual level.

Kennedy's Domestic Program Hinges on Altering Committees Moves to Change House Units May Spell Fight in Congress

WASHINGTON (AP)—Moves to "liberalize" two major House committees—Rules and Ways and Means—may get the new Congress off to a battling start next month.

On their success or failure depends the fate of much of President Kennedy's domestic legislative program.

Administration spokesmen disclosed privately today that they would fight to keep the membership of the powerful Rules Committee at 15. The committee will revert to its original 12-man size in the new House unless the House votes for the larger number.

Membership was increased to 15 two years ago in a bid to add liberal votes and thus break the grip a conservative coalition had held for years.

10 Democrats

The committee now is composed of 10 Democrats and five Republicans, with eight liberal Democrats normally—but not always—in control. Under the 12-man arrangement, a conservative coalition of two Southern Democrats, Chairman Howard W. Smith of Virginia and William M. Colmer of Mississippi, often teamed with the four Republican members to block administration bills.

The Rules Committee is a clearing house for bills approved by other committees. Without its approval, it is extremely difficult for a bill to reach the House floor. Even the enlarged committee blocked some Kennedy-backed bills.

The enlargement was a prestige metropolitan area. Rail schedules had been discarded.

Fog blanketed much of the rest of England and spread into the south of Scotland.

In London, the sulphur dioxide content in the atmosphere was six times normal and the smoke concentration nine times its usual level.

Leaders of both warring groups privately claim they have votes. Both concede that the result may hinge on new members elected last month. There will be 33 new Democrats and 31 new Republicans in the new House.

Conservative leaders claim the election added to their strength. Liberal spokesmen insist the opposite is true.

A key factor in the fight may be the position of the Texas members, 14 of whom supported fellow Texan Rayburn in his winning fight. Whether the new speaker, John W. McCormack of Massachusetts, can hold the Texans in line again is debatable. He also may not be able to keep in line 22 other Southern Democrats who sided with Rayburn.

Lieutenant Governors Examine Problems

Rites for Famed Newspaperman Set for Tomorrow

CHICAGO (AP)—Funeral services will be held tomorrow for Robert J. Casey, famed Chicago newspaperman, author and war correspondent.

Casey, a star reporter for 26 years, died yesterday at age 72. He had been in failing health for several months.

He was author of a World War I diary, "The Cannoneers Have Hairy Ears," highly rated by critics. It was one of 35 books, including "Easter Island," the story of that desolate island cluttered with huge heads carved from stone, and "I Can't Forget," a summary of 22 months' World War II battle reporting.

His best known works—among newspapermen, at least—were "Such Interesting People" and "More Interesting People," two anecdotal accounts of Chicago newspaper folk from 1910 to the present.

Casey, who was born in Beresford, S.D., started his newspaper career in Des Moines and later worked in Houston, Tex. He had worked for Chicago newspapers for 30 years, mostly with the Daily News.

Survivors include his widow, Hazel MacDonald Casey, a former Chicago newspaperwoman. Mass will be said in St. Francis Xavier Church in suburban Wilmette.

Alabama Man Arrested For Kennedy Threat

BIRMINGHAM, Ala. (AP) — James B. Hubka, 20, Birmingham, has been arrested on a charge that he threatened the life of President Kennedy in a letter.

In a hearing Tuesday before U.S. Commissioner Louise O. Charlton, Hubka admitted writing the letter and said he knew he shouldn't have done it.

Secret Service agents who arrested Hubka said the letter was sent to J. Walter Yagley of the Internal Security Division of the Department of Justice.

Hubka said at this dinner honoring the President's older brother who died in World War II.

A Public Service Message From Your Local Fuel Oil Dealers

Let's clear the air about which modern fuel causes household dirt and grime

Science Proves:

90% of Household Grime COMES FROM COOKING FATS AND OILS!

The truth is simple. The culprit is in the kitchen. Cooking fats and oils create the problem. They, and not the modern fuel you burn, tend to cover drapes, walls and furniture with greasy film. Modern science proves it.

Fortunately the solution is simple too. Put a hood and exhaust fan over the stove. Turn on the fan when you cook. Result—no more grit, grime or grease! Heat safely. Choose the clean, modern economical fuel—OIL! Today's highly-refined, clear, golden heating oils burn spotlessly clean in a completely sealed combustion chamber—never any soot or fumes to escape and soil furnishings, tarnish metals. Enjoy OIL, Nature's finest fuel.

Votes Should be Correctly Counted

Assemblyman Earl McEssy, R-Fond du Lac, says he will try again at the next session of the legislature to make voting machines mandatory on a statewide basis except, perhaps, in very small communities. McEssy's bill failed at the last session of the legislature but it is expected difficulties experienced in Wisconsin and in many other states during the count of the Nov. 6 ballots will give him strong support the next time the bill is offered.

Wisconsin fortunately did not have much difficulty in determining who was elected governor. But four other states were unable to say who had been elected more than three weeks after the election. In some of the states, where the election has been determined by court order or by the canvass of votes, there still is enough uncertainty to warrant recounts which means that the business of those states will be delayed and faltering if not halted completely. This is an expensive condition and easily can cost the state thousands of dollars more in delay of necessary activity than the obvious cost of the recounts.

The obvious answer to the serious problem of ballot counting is the voting machine. It is universally agreed that the machines provide an accurate tally of all votes cast within a few moments after the close of the polls. The objections to them, which constitute the reason for McEssy's bill failing in the past session of the legislature, are that machines are costly

and there is a dispute in the legislature over who should pay for them. There have been some objections also from voters who fear they may not be capable of operating the machines. It is probable that the same objections will be raised when the bill comes up again.

McEssy now is gathering information to determine how big a municipality should be before being required to use voting machines. Obviously the small communities with 50 to 100 votes could not get much advantage out of the use of machines. On the other hand, if the larger cities are to be required to have voting machines part of their advantage will be lost if the smaller communities, with enough votes to delay the report, are not required to have the voting machines. Several Fox Cities communities have equipped themselves with machines but those machines would be more valuable if all communities in the state had them so that the entire election report would be available shortly after the close of the polls.

Therefore, if the state is to require voting machines, it is important that the rule apply to all communities where the vote is large enough to require more than an hour or two for the tally. We wish Assemblyman McEssy well and sincerely hope that the other members of the legislature will see the importance of this modernization of the election machinery.

Why Neutrals Are Neutral

India is coming under pressure from various non-aligned nations to accept the terms offered for an end to the war with Red China. The terms, while offering some concessions to the Indians, seem to be clearly drawn to provoke violations with the Chinese having the future advantage of higher ground. However, since India is in such an appalling state of unpreparedness, the decision to accept or reject is a weighty one.

But the other countries in the area are obviously terrified for fear the fracas will spread and they will be consumed. This is the same type of worry that appeared to prompt Nehru's efforts to get the United States to back down in Berlin in order not to encourage the Russians into a nuclear war. Burma has an even more personal reason for urging the Indians to negotiate. Some time ago Red China and Burma were

at odds over the site of a mutual border and Burma turned to India for backing. Instead Nehru coldly told Burma to negotiate. The result actually was rather favorable to Burma, a decision which may have been set up by Red China with the current dispute with India in mind.

Such an ardent peacemaker as Ghana's Nkrumah actually decried the United States military aid to India and thoroughly disillusioned Nehru. But Yugoslavia and the United Arab Republic, both on the outs with Red China, have approved of India's stand at least in words.

It now is clear to the world, and perhaps even to Nehru, that the neutral nations assume neutrality for their own benefit and not to further justice or liberty. Maybe the hard-headed realization will shake up even the United Nations foggiest on some international issues.

Republican Discussions

The meeting of some Republicans with Wilbur Renk and Congressman Melvin Laird has indicated a degree of difference within the party at least in methods of trying to appeal to voters in future elections. This intra-party disagreement is nothing new in politics. But since the Republicans are out of control nationally there will be more emphasis by Republicans upon ways of uniting.

A group of young men at Harvard, who called themselves "progressive" Republicans, last year began publication of a magazine *Advance* which they have continued since graduation. A current issue warns against "hitching the party wagon to the falling star of segregation" and deplores the efforts of Republicans to win in some southern states by damning Lincoln louder than did the Democrats. "A demonstration in Alabama that Republicans can almost win by betraying their heritage" is cited as an example of this desperate move as is a similar type campaign waged by a Republican in South Carolina.

There is a good lesson for Republicans in the criticism. In practical politics such efforts to win in the South will lose Negro votes for Republicans all over the country as well as those of independent voters who

oppose segregation. But more seriously, the attempts to win by espousing segregation or "to exploit Kennedy's action in Mississippi" is a denial of principle. In a smaller way, at least in Wisconsin, the same sort of thing can be charged against some Republicans who feared to denounce ultra right wing groups. By so doing they may have lost some independent voters. Certainly they lost self-respect. Mr. Jasper, by his apparent effort to appeal to the ultra right wing in Wisconsin in a speech last summer, was seeming to be playing the same sort of game in appealing to prejudice. It isn't enough for the Republicans to point out that John Reynolds also appealed to thoughtless prejudices in his anti-sales tax pitch. They must keep their own skirts clean.

"Progressive" Republicans do not necessarily mean liberal Republicans. The ideas of real conservatism, particularly in the fields of government control and economics, can be honestly and reasonably expounded and backed. But gaining votes through active or passive acceptance of segregation in the South and the more radical ultra right views in the rest of the country is reprehensible, and, happily some Republicans are pointing it out.

Looking Backward

Some Brave Boys Sent Home

100 YEARS AGO

Quoted from the Appleton Crescent for Dec. 6, 1862

Sgt. H. B. Williams of Company D, 21st Wisconsin, has returned home. His wound is a very bad one that would have killed a person with an ordinary constitution. The ball entered the breast, passed through the body, just grazing the heart, crushing one of his ribs. The preservation of his life is miraculous. We hope to see him out among us soon.

Sgt. J. F. Parkhurst, wounded just below the knee at Antietam, has also returned home. His wound is in a bad place, the joint of the knee, and doubtless will lay him up for a long time. D. G. Fenn, of the Wisconsin 1st Cavalry, arrived home, also. He had been out from Cape Girardeau with a telegraph operator fixing up the wires when they were surprised by guerrillas and captured.

Maj. Pomeroy, First Cavalry, is convalescing. He will resume his place in the Cavalry as soon as his health is fully restored.

John J. Dillon, Co. E, Wisconsin 6th, came on the cars Nov. 28. He was taken sick from exhaustion in the Maryland campaign and has been honorably discharged.

E. F. Smith, First Wisconsin

Cavalry, also returned. He is on furlough.

A. T. Sherwood of the Wisconsin 21st, returned Dec. 3, looking like a shadow of his former self. May he soon recover John F. Johnston returned at the same time.

25 YEARS AGO

Wednesday, Dec. 1, 1937.

Mr. and Mrs. W. C. Rehbein were co-chairmen of the costume dance being planned by the Homebuilders Club of Memorial Presbyterian Church, Appleton. Other members of the arrangements committee included Mr. and Mrs. Harold Heller, Mr. and Mrs. Ward Schwartz, Mr. and Mrs. Burt Ashman, Mr. and Mrs. C. E. MacKay, Mr. and Mrs. W. E. Rollinson, Mr. and Mrs. Ed McCreary, Mr. and Mrs. C. J. Hanlon, Mr. and Mrs. L. F. Hartwig and Mr. and Mrs. Henry Marty.

The committee in charge of the Holiday Sale sponsored by the Woman's Association of First Congregational Church, Appleton, included Mrs. E. E. Dunn, Mrs. Werner Witte, Mrs. Lacey Horton, Mrs. Roy H. Marston, and Miss Jean Bomier.

Girl Scouts of Cloverleaf Troop, Columbus School, Appleton, entertained their mothers and teachers at a tea. The committee of scouts in charge of the

program included Eunice Nuef, Carol Kanouse, Elaine Smyrnoes, Pearl Hoffman, Shirley Leisen and Eunice Parker. Miss Marion Neumann was troop leader.

10 YEARS AGO

Wednesday, Dec. 3, 1952.

William Haupt was named acting head of the Kaukauna Fire Department to succeed retiring Chief Carl Engerson. Haupt, assistant chief, totalled 11 years of service with the department. Theodore Smits was promoted to the post of acting assistant chief.

An initiation party honored new members of Orchestra, modern dance group at Appleton High School. Those inducted into the organization were Mary Hammer, Marna Krueger, Ann Lally, Audrey Luebke, Joy Ann Griesch, Mary Kassner, Jenny Park, Joan Boettcher, Barbara Eggert, Helen LaViolette, Mona Olson and Mary Root.

Company D, 127th Infantry, Wisconsin National Guard, was to send a 10-man rifle team to compete with other regimental units in Oshkosh. The team included Arthur Koehne, Kaukauna, and George Deeg, Walde-mar Klein, Edward Barber, Glenn Swick, Ervin Steege, Peter Van Heertum, Vernon Wichman, Jerome Schmidt and Lawrence Schmidt, all of Appleton.

'Now, Where Were We?'

People's Forum

Taxpayer Wants Facts Printed On Meetings of School Board

Editor, Post-Crescent:

First, let me congratulate you on the notice you published in a recent edition clarifying your position on having reporters attending the school board meetings of the New London School District.

I was under the impression that the school board meetings

could be attended by any interested party, and even though they are not allowed to express or voice opinions at the time, they could still listen.

It appears from the criticism you have stirred up that possibly more of us should start attending these meetings, and find out what all the secrets are about. Are our educators trying to violate some of the basic principles they should be teaching our youngsters — "The Freedom of the Press and Freedom of Speech?"

Is the heritage our forefathers advocated, and so many of our young people died for, being denied us in a generation when it should be practiced diligently

especially by those connected with our educational systems?

Why would one newspaper be so vehement in its accusations against another newspaper publishing facts as they are presented, unless something underhanded is being done? Is it a misdemeanor to publish the truth?

A great many taxpayers are unable to attend these meetings for personal reasons, and the only way they can get an unbiased report is through facts published in the newspaper of their choice.

For the benefit of all, keep the facts coming and give us the truth.

A New London School District Taxpayer

Trading With Reds Brings More, Stronger Enemies

Editor, Post-Crescent:

On Nov. 23 you devoted an editorial to the efforts some Americans are making to persuade others not to purchase goods made in Communist dominated countries.

You seem to base your opposition to their efforts on statements made by State Department spokesmen to the effect that they are opposing U. S. policy.

Vocal opposition to official policy has been proved correct before: these people, of whom you are critical are in many cases the same ones who, six months ago, were accurately predicting the events which led to the Cuban crisis, while those you support are those who as recently as Oct. 15 were publicly saying "Cuba is not a threat to the

United States." A week later they were saying exactly the opposite and we had a crisis.

As to the argument that if we don't buy Communist goods they can't buy ours, by your own admission, this is a small portion of our trade. It is, however, a considerably larger proportion of the Communists' trade. However, that, I believe, begs the question. When we buy Communist goods (mostly consumer items) we provide them the U. S. dollars with which they can purchase the much needed items to bolster their economy.

After seventeen years of aiding and trading with the Communists I can see no evidence that we have gained anything except more and stronger enemies.

Sumner Parker

Neenah

Recognize Social Unrest Or Drive Nations to Reds

Editor, Post-Crescent:

In letters to the Post-Crescent, one on Nov. 16 says "the United States has the right to quarantine (blockade) Cuba because the Soviet Union has to some extent colonized Cuba." Mr. Collins in his letter Nov. 24, says that "he backs Kennedy all the way, but that the Monroe Doctrine cannot be used to justify our action in Cuba because it is dead."

It is true the Monroe Doctrine is dead, because of our interference in many places around the world in an attempt to stop social change. Our action in Viet Nam is another example. Diem, whom we support but who does not have the support of his people, needs half his army just to protect himself and family from his own people.

Our blockade of Cuba is another attempt to stop social change. The Cuban revolution is the beginning of a general eruption of all Latin America that is coming soon. We had better understand the correct situation so we can follow a more intelligent course. The people of Latin America are beginning to awaken to their potential in the political and economic fields and to become aware of the forces which are holding them down in extreme poverty.

The people of Cuba and Latin America as in Asia and Africa have neither the individual capital nor the opportunity to become successful private enterprizers. Their only hope lies in collective action and a general sharing of the proceeds.

We make the mistake of calling all social unrest Communism or Communist inspired. What the people want is an improved standard of living. By our opposition to social change we are forcing them to turn to Communist nations for support as the only avenue open to them.

Mrs. John Rhode
1066 Lake Shore Dr.,
Menasha.

"... And while our society is against the unbridled use of chemical bug-killers, Senator, we resent your charge that we're 'soft' on bugs!"

Wisconsin Report

Thoughts After Visit To Northern Colony For Retarded Children

BY JOHN WYNGAARD

CHIPPewa FALLS — What can be said after an inspection of the Northern Colony for mentally retarded, such as Gov.-Elect Reynold and his touring budget review party made here a few days ago?

It is a deeply disturbing experience, and especially for those who have not previously been exposed to such proofs of the frailties with which the species is afflicted. The memory of hundreds of pitiful faces crowded into cheerless wards and dormitories, the cruelly dimmed minds, the infants with the bodies of men and women whose only escape will be death, perhaps many years hence, burns deeply and is not quickly overcome.

But the reporter or the official approaching his tasks soberly must remember also that this experience would be disquieting if these were gold-plated walls imprisoning these unfortunates, if the staff was generous enough to assign a trained nurse to each patient, and if the budget allowed for the operation of the place was doubled or tripled. Nature's errors are not pretty.

CONTRAST

What troubles the reflective visitor also, after the momentary shock of the sights and sounds and smells in these institutions, is the problem of human judgment involved in the making of a public services budget.

A few hours after leaving the hospital grounds at Chippewa Falls, the gubernatorial party visited some of the new buildings on the campus of the state college at Eau Claire. They are beautiful, comfortable, costly. A few days before the party had toured some of the splendid new facilities built by the state corrections division, including the new medium security prison at Fox Lake.

On the return trip to Madison, the chartered bus driver followed Interstate Highway 90 from Wisconsin Dells south, which is a

sample of the finest roads built in the world, in all probability, since the Roman road-builders of old.

There persists the guilty feeling that a little less plus at Fox Lake, a little less luxury in the student unions at the colleges, a slightly more modest design of the new high-speed highway, and the state could have provided the money for new building space at Chippewa Falls that is obviously and desperately needed—if this state pretends to a humane public policy.

The problem, it is evident, is that the taxpaying public sees and uses the roads and obviously wants them. There are strong public pressures for the services to accommodate college students. It may also be that welfare officials in making their own choices are inclined to lean in the direction of priorities for men and women who can be rehabilitated, such as those committed to correctional institutions, rather than for the poor creatures with so little intelligence that they cannot possibly apprehend that their plaster walls have ugly cracks, that the paint is peeling, and that the ancient wooden floors creak under their crippled creeping. But the visitor doesn't sleep well, on the night following such an inspection.

THE GOOD THINGS

There is a danger in such dispatches as these that some persons personally involved, such as parents of these children, may be misled.

The fact is that the care of these patients is reassuringly good. They are well fed, they are warm. They have good medical care—as shown by the increasing longevity. For those who are educable or trainable to any degree, there is an impressive new school building, with a dedicated staff that is producing what can only appear to be miracles to the uninitiated eye. The welfare department has recruited supervisors and ward room attendants who are kind and who love their charges.

What more can be done, aside from providing the additional space that any civilized man would support instantly? It is a troublesome question.

Strictly Personal

Well-Turned Preface May Bring Sharp Jab

BY SYDNEY J. HARRIS

Antics with Semantics:

When I proclaim that I can

"take it or leave it," you can safely bet that most of the time I take it.

When I praise your idea as being "fine in principle," you may be sure that I haven't the slightest intention of putting your principle into practice.

When I say "I don't mean to be critical," that's exactly what I mean to be.

When I make the modest disclaimer that "Of course, I'm not an authority," it is invariably the prelude to an authoritative statement.

When I murmur "I have nothing against him, but..." you are going to hear something against him.

When I interpolate "I don't mean to change the subject, but..." I mean to change the subject as rapidly as possible in the direction of my own interests.

When I advise you that "I don't want this to get around," I am getting it around as eagerly as my little tongue can spread it.

When I observe that "I'm not

entirely sure that I agree with you," it means that I am completely sure that I utterly disagree with you.

When I begin with "I'm a tolerant sort of person," it's a certainty that I am going to end with some violently intolerant judgment.

When I shake my head that "I don't understand children nowadays," I use that statement as a launching-pad for a half-hour flight into verbal space trying to prove that I understand children very well, past, present, and future.

When I protest that "I don't want you to change your plans on my account," I am looking forward to a general revision of plans on my account.

When I tell my audience that "I can't begin to describe..." I am off and running with a full-length description in gruesome detail.

When I leave you with the general reminder that "I'm in the book," I don't expect you to call me for lunch any sooner than I'll call you—which will be a freezing August afternoon.

When I insist that "I'm an independent voter," what I mean is that if my party were running a convicted kidnaper for office and the other party were running Dr. Albert Schweitzer, I would probably vote for Dr. Schweitzer.

A Coast Guard Helicopter pulls a stranded cabin cruiser off the beach near San Diego, Calif., Tuesday after the 25-foot pleasure craft ran out of fuel and washed ashore. None of the four aboard was injured. (AP Wirephoto)

Economic Chief Reserve, Guard Cuts In Argentina Probable in Wisconsin Resigns Office

CONTINUED FROM PAGE 1

large business, labor and armed forces groups, but he and his team also have strong connections with certain business, political and military factions.

Prices Increased

Opposition mounted last week when Alsogaray, in an effort to balance the budget, boosted the price of gasoline 43 per cent and that of kerosene, widely used for cooking, by 66 per cent. The increases triggered another spiral in essential consumer goods prices.

Alsogaray started his present term as economic minister on April 12. He had held it for a time under President Arturo Frondizi. He found the economy in chaos. Since then things have worsened. The peso, kept stable for three years under Frondizi at 83 to the dollar, was quoted by some brokers at 154 Tuesday. The cost of living has climbed about 35 per cent.

More Bankruptcies, Jobless

Bankruptcies are on the increase and unemployment on the rise.

Government workers' salaries are in arrears up to two months. State government employees are being paid in government bonds and other forms of IOUs.

Alsogaray made progress in negotiating foreign debts and obtaining promises of foreign aid. In an effort to wipe out a \$500-million trade deficit of last year he restricted credit for imports. To strengthen the peso he required exporters to deposit earned pesos above a certain level with the treasury.

He complained that his efforts were frustrated by recurring political and military crises and intrigue within the government and by certain vested interests.

Roosevelt's Son Cited For Traffic Violations Following Collision

WASHINGTON (AP)—Franklin D. Roosevelt Jr., 48, son of the late president, was cited for two traffic violations after a collision at 1:15 a.m. Monday, police reported today.

Capt. Albert Clark said Roosevelt, who operates the Roosevelt Automobile Co. here, was cited for colliding, and operating an automobile with a suspended license.

The Roosevelt car struck an auto driven by Louis Solzsky, 50, at a Washington intersection. No citation was issued for Solzsky.

Clark said he could not say what the citation for driving with a suspended license was based on.

A hearing on the case was scheduled for Dec. 21. Roosevelt's office said he was out of town and not immediately available for comment.

Grandmother Gives Birth to Triplets

HALIFAX, England (AP)—A grandmother with eight children and two grandchildren gave birth Tuesday to boy triplets.

She is Rose Coulter, 40, whose husband, a warehouseman, makes 14 pounds—\$19.20—a week.

The triplets, seven weeks premature, were named Christopher (3 pounds), and Paul and Peter (2 pounds 2 ounces each).

"I had no idea that triplets were on the way," said Mrs. Coulter. "But naturally I'm delighted."

state that might face adjustment. The six other National Guard units in Wisconsin are:

The 13th Evacuation Hospital, Madison; First Missile Battalion, 126th Infantry, Milwaukee; 158th Transportation Battalion, Neenah; Two Rivers, Green Bay, Sheboygan and Manitowish; 173rd Engineer Battalion, La Crosse and Prairie du Chien, and two small Madison units — Headquarters and Headquarters Detachment and the 112th public information detachment.

The 103rd Division, with units in Wisconsin, Minnesota and Iowa, will become a 27-unit brigade and is being renamed the

Pontiff Tells Crowds He Is Getting Well

VATICAN CITY (AP)—Pope John XXIII appeared in his apartment today and told a crowd of bishops and Romans in St. Peter's Square that he is getting well.

It was the 81-year-old pontiff's second public appearance since he was confined to bed eight days ago by a stomach ailment and anemia.

The Pope stood in his open window for almost seven minutes at noon to give his benediction to the crowd below—a substitute for his regular Wednesday general audience which his illness had forced him to cancel last week and again today. He had appeared in the window briefly last Sunday also, to bless the crowd and tell them "health is returning."

Mayor Doesn't Run, Gets Job Anyway

LITTLE ROCK, Ark. (AP)—Atty. Gen. Frank Holt has ruled that Joe Cloud is still mayor of Gillett, Ark., despite the fact that Cloud refused to run for another term in the Nov. 6 general election.

Holt says state law provides that elected officials remain in office until duly replaced. That means all Gillett city officers must stay in office because nobody ran for a city job.

Cloud said the job carried too many headaches for the \$25 a month it paid.

First Lady Cheered At Broadway Theater

NEW YORK (AP)—Jacqueline Kennedy walked into a cheering demonstration when she arrived at a Broadway theater Tuesday night to see "Lord Pango."

A cheering crowd of 1,000, mostly women, was on hand as Mrs. Kennedy arrived. They broke through a police cordon and only a wedge maneuver by police and Secret Servicemen got the President's wife into the lobby.

Man Dies as Boats Collide in Venice

VENICE, Italy (AP)—A military patrol boat and a boat loaded with electrical equipment collided Tuesday on the Grand Canal next to Venice's famous St. Mark's Square. One man drowned.

250th Infantry Brigade. Its headquarters will be at Minneapolis. The units to be deactivated are:

Headquarters and Headquarters company, Madison; Combat Support Company, Madison; Companies A and B, Madison; Co. C, Lancaster; Co. E, Edgerton — all of the First Battle Group, 411th Infantry Regiment.

Headquarters and Headquarters Battery, Milwaukee; Batteries A and B, Milwaukee — all of Fifth Howitzer Battalion, 34th Artillery Regiment.

Headquarters and Headquarters Battery, Green Bay; Battery B, Green Bay — both of Third Rocket Howitzer Battalion, 34th Artillery Regiment.

Non-divisional units being deactivated:

Headquarters and Headquarters Detachment of 463rd Quartermaster Battalion, Camp McCoy; 323rd Logistics Command Headquarters, Milwaukee; 448th Medical Detachment, Madison; 404th Quartermaster Platoon, Richland Center; 687th Signal Co., Milwaukee; and 1,081st Transportation Co. of Marinette.

New Brigade

Under the order, a total of 18 units are being inactivated in Wisconsin. The 103rd Division is becoming a 27 unit brigade and is being renamed the 250th Infantry Brigade with headquarters in Minneapolis.

Operational headquarters of the old 103rd will be at Des Moines, Iowa.

Also announced were relocations of headquarters for two units:

The 826th Ordnance Co. of Lake Geneva to Madison and Co. B, 757th Transportation Battalion, from Fort Snelling, Minn., to Milwaukee.

New units being given to Madison are the 785th Medical Detachment and the 220th Medical Detachment.

Brooklyn Girl Killed Following Attack on Roof of Apartment

NEW YORK (AP)—A 9-year-old girl was raped and flung to her death Tuesday from the roof of a tall apartment house in Brooklyn as police were en route there to check a report that another child had been molested half an hour earlier.

The dead girl, Lourdes Bass, had been home for lunch and had started back to parochial school just 10 minutes before her death plunge.

Mrs. Mattie Arnold, a tenant, happened to be looking out a window when a blurred form flashed by, followed immediately by a crash.

In the courtyard below, Mrs. Arnold and other residents found the girl's body, nude except for shoes and socks.

Almost every bone in her body was broken in the fall, an autopsy showed.

Lourdes' clothing was found in a heap in a stairwell just below the roof.

She lived in a city housing project, Farragut Houses in the Brooklyn Navy Yard section, with her father, Carlos, a porter; her mother, Margaret, and six brothers and sisters.

Red Rocket Boss Claims Soviet Missiles Best

MOSCOW (AP)—The commander of Soviet rocket forces claimed today that the Soviet Union continues to lead the United States in the field of powerful military rockets.

Marshal Sergei Biryuzov's statement in the military news-

paper Krasnaya Zvezda (Red Star) apparently was an answer to recent statements by American leaders that it is the Soviet Union, and not the United States,

which suffers from a missile gap. The British Institute for Strategic Studies, in a report published Nov. 9, estimated that the Russians had about 75 operational intercontinental ballistic missiles, compared with 450-500 in the hands of the West. The report said Soviet leaders apparently

had decided to concentrate on building a bigger strategic striking force.

The institute said, however, that the Soviet rockets can carry more destructive warheads than such U.S. equivalents as the Titan. It added that the Russians have developed a more accurate ICBM and it should be deployed by next year.

Palace Sentries Will Discard Bearskin Hats

LONDON (AP) — Sentries at Buckingham Palace and other royal homes will discard their tall bearskin hats for the regular guards cap.

The war office said it was easier to patrol in caps than the bearskins the Guards have worn since the battle of Waterloo in 1815.

For a Loving Gift, Sew

Nothing speaks the love of giving more than a gift made personally by the giver. Whether it is a new Christmas tree ornament, made by a four-year-old, or something from the treasure trove of the home sewer, the hand-made gift expresses thoughtfulness in a way that a trip to the nearest store can never match.

Women and little girls are the easiest to sew for, and imagination and taste open endless avenues for steamstress' busy needle. Suggestions run from home decor to wearing apparel to dolls cute enough to carry along to adulthood.

To help a home say 'Merry Christmas' there are holiday tablecloths, chair covers, Christmas tree skirts, doorknob covers and wall decorations, all to be made by the home sewer. Gifts for little girls, and boys too, may include shirts or blouse, and for sister and brother, perhaps a matching skirt and pair of trousers. Brocade handbags are a gift elegance, and are easily made.

cute enough to keep through teen time. On the wall is a furry Santa stocking, with a face ready to bring a chuckle to adult and child alike. Both doll and stocking may be purchased in kit form.

The 28-inch wall hanging above needs no sewing, each of the three felt bells is glued together. Clappers are white pompons and other trim is silver thread and silver bells which really ring. The bells are done in three shades of blue, plus white. The apron is of white felt trimmed with red flowers and leaves in three shades of green. Flowers are trimmed in gold. Both these holiday gifts may be purchased in kits, ready to glue together. At right is a Humpty Dumpty doll,

Today's Etiquette

BY LOUISE DAVIS

PARTY PROBLEMS

When controversial subjects at a party reach the danger point, the perfect host and hostess are on the job as social censors. Their ears are alert for the signals and they move in to break it up. Otherwise, friendships may become broken or badly frayed. Any social gathering at

which guests don't touch on some controversial subject could be deadly dull, but it is up to the hosts to scotch it if it gets too hot for comfort.

Depending on the crowd, on circumstances and on ingenuity, there can be many ways of handling such awkward situations. Wise hosts will file such possibilities in their minds beforehand, thus finding the solution or method easier to cope with if such a time comes. They dream up a subject or two of special interest to all, then spring it. This calls for quick thinking and poise so that the motive won't be noticeable.

They might have other tricks up their sleeves such as asking the argumentative George to join in a quartet of singing or asking Jim and Jane to give an exhibition of the twist. A bit of music often quiets an argument.

It should also be the obligation of each guest to co-operate by steering clear of any danger zones. He avoids subjects that are apt to loosen tongues to the point of unpleasantness. Controversial topics can be interesting and fun but when guests begin to step on the toes of others present, it's time to stop.

Hood Trick

After washing a hooded sweater, stuff the hood with tissue to hold it open. This helps it to dry in shape, and lets air circulate so that it will dry faster.

Junior Unit Presents Flags

Members of the VFW Junior Girls Unit, organized in September, have presented flags to Girl Scout Troops 338 and 322. Sacred Heart School. The presentation was made by Miss Sandra Hendricks, unit president, Miss Terry Hoffman, community service chairman, Miss Pat Gosch, patriotic instructor, and VFW Auxiliary president, Mrs. Paul Volpe. The project is part of the organization's community service work.

New Members Initiated by Women's Post

New members of the Fox Valley All-Women's American Legion Post 163 were initiated at the organization's November meeting. Mrs. Verle Foxgrover, Kaukauna, and Miss Bernadine Cosgrove, Appleton, were received into the group. A potluck supper preceded the initiation ceremony. Mrs. Lee Kuehn, Menasha, was

Cobbler's aprons for mother and daughter will serve their owners long after the holiday season has passed. Mother will wear hers over a dress in winter, and over slacks for summer cookouts. Daughter's will be an apron in winter and a sun dress in summer. Both have deep pockets across the front. At right is a glamorous brocade gift robe and matching slippers. The mandarin collar and frog closings make this the latest in fashion, and, while the sewer should be past the beginner's stage before tackling such a project, a similar gift should not be difficult to make.

St. Pius X Party Today

The Christian Mothers and Altar Society of St. Pius X Catholic Church will have its annual Christmas party this evening at the school. The Rev. Richard Kei-Blazek, pastor, the Rev. John Van

Duwen, assistant, and the school nuns will be special guests. The Xavier High School Glee Club, directed by Mrs. Kenneth Mueller, will entertain. Members of the St. Jude and St. Ruth Groups, headed by Mrs. Bungert Mr. and Mrs. Clarence James McInnes and Mrs. Wenzel Cartwright and Mr. and Mrs. Theodore Daelke are committee members.

Say 'Merry Christmas' With Frosted Windows

You can be your own Jack Frost without waiting for sub-zero weather to whiten your windows and usher in the Christmas season. All you need is a set of cellulose sponges, some household cleaning powder or liquid glass cleaner, and a bit of imagination. You can frost your windows, on the inside of course, with simple designs such as stars, bells, and trees. You can turn them into giant Christmas cards by lettering 'Merry Christmas, Season's Greetings,' or similar traditional messages. Or, if you have a real artistic bent, you can etch tumbling angels, camel-mounted Magi, or even sleigh pulling scampering reindeer on your picture window.

Cut Out Stencils
The way to do it is to cut out stencils in the designs you want. Use heavy brown wrapping paper or, even better, lightweight cardboard. Then, using only a little water, make a thick, generous paste of the cleaning powder, or pour your liquid glass cleaner without any further dilution into a pan or bowl for easy use. If you want to improve on Jack Frost's all-white artistry and tint your window designs, add food coloring or a nonpermanent dye to the paste, being sure to mix it well. Then, with your supplies in order, you are ready to decorate.

Easy to Apply
Hold your stencil against the window. Or if you are doing complicated frostwork, tape it temporarily in place. Apply liberal quantities of your frosting mix. If you are working with colors, use a separate sponge for each shade. Remove the stencil, carefully let the paste dry, and 'Voila' as a Parisian Pere Noel would exclaim, you have an original Christmas masterpiece. The beauty of it, too, is that, when the holidays are over, you can simply wash off the artwork. Squeeze out the sponges you used for applying the frost in sudsy water and rinse well under the faucet is soon as the job is done. Then they'll be ready for the simple task of washing away the designs later. So don't be hesitant even about frosting all your windows.

Trace Santa's Footsteps
Incidentally, ceramic tile and marble take equally well to such frosting and easy erasure. So if you want to leave Santa's footprints, or even a reindeer paw print or four, near your fireplace, you can follow the same method. Here you might want to sprinkle

Square Dancers Plan Supper
The Dip 'n' Divers Square Dance Club has scheduled a potluck supper and Christmas party at 6:30 p.m. Sunday at the Darboy Club. Darboy Members have been requested to bring their own table service and casserole, salad or dessert. Gifts will be exchanged at the party. Dance caller will be Lloyd Bunge. Mr. and Mrs. Clarence James McInnes and Mrs. Wenzel Cartwright and Mr. and Mrs. Theodore Daelke are committee members.

St. Joseph Group to Hear Father Kramer
A potluck supper has been scheduled by members of St. Joseph Christian Mothers at 6 p.m. Tuesday in the school cafeteria. Members have been requested to bring donations for the Holy Father's Storeroom at the Vatican. The Rev. Edmund Kramer, O.F.M., Cap spiritual director, will present an illustrated lecture on his travels in Italy and Switzerland during the time he was Provincial for St. Joseph Province. Mrs. Joseph Van Domelen will be chairman.

Let Us Know
Do you have special Christmas plans? If you're expecting guests, planning a neighborhood ceremony, a family reunion, a club party, a visit from Santa Claus or any festive event during the holiday season, please inform the Post-Crescent of your schedule. Holiday affairs will be announced in a Dec. 23 calendar. Information should be addressed to Women's Editor, Appleton Post-Crescent, and should be received before Dec. 18.

Film Coat, Actors' Antics Pale Interest in Product

BY INEZ ROBB

The morning's mail includes an invitation to attend "the invitation preview" of "Mutiny on the Bounty" in which Marlon Brando co-stars with \$27,000,000, give or take a few millions in either direction. The invitation is a very rich affair, with a picture of the Bounty under partial sail, engraved on gold paper. Very handsome, indeed, and worthy of a financially multi-megaton picture. Still, I must refuse the kind invitation. Surely I am not the only cantankerous citizen who is outraged at the very thought of a motion picture costing \$27,000,000, enough to endow a college, to build a medical center or support significant research in many important fields. It is possible that I am in the minority and that multitudes will flock to see "Mutiny on the Bounty" precisely because it cost so much, and not because of any intrinsic merit it can boast. Casual Outpouring of Money But there will be others who will resent this casual outpouring of money as if the stuff were made by round-the-clock shifts in a basement. There is nothing sacred about money, granted. But most men work too hard to pay for food, clothing and shelter to applaud its transmutation into base movie metal. Europe cried out against American tourists who, after World War I, lighted cigarettes with her paper currencies. "Mutiny" and its monetary rival, "Cleopatra," have been lighted by incredible piles of greenbacks-cum-bonfires. Stars Behavior Publicized The behavior of the stars engaged in these two pictures has been trumpeted forth, ad nauseam. But what I find even more disturbing is the judgment of men charged with running the respective studios involved in this brace of cinemas. Who was minding the store while the money was shovelled out as if Old Faithful were minting it every hour on the hour? Only recently I saw a great motion picture, "Long Day's Journey into Night." It cost \$400,000, approximately one-seventieth or approximately one-eighth of "Cleopatra," which is well over the \$30,000,000 mark at the present. "Journey" includes a distinguished cast, one notable for its acting rather than its high jinks. The picture was completed in a matter of weeks, not years, with no public displays of tantrums, temperaments or amours. And no actor held up the shooting of the O'Neill work while he plugged for his own fuzzy brand of social significance to be written into the script, as was the case with "Mutiny." Maybe there is a vast, ready-made audience for a film merely because it is the most costly ever made or because stars can never remember to close doors or pull down the shades. That remains to be seen.

CPA'S Interested

For my part, I can imagine that the films might interest a certified public accountant or an auditor, both of whom could claim a professional curiosity about where all that money went. Other wise— But then, "Mutiny" and "Cleopatra" may turn out to be the greatest movies ever filmed. However, if they do, it's a cinch that critics and audiences alike will sit back and say, "With all that money, why not?" or, "When you think of the boodle, it should have been better." Money is going to be the albatross of both. I plan to sit both pictures out at home with a good book; perhaps with two or three good books—the originals of "Cleopatra" (Shaw, anyone? Shakespeare, someone?) and "Mutiny on the Bounty."

Ban Bran Bugs From Kitchen

How do you get rid of bugs that get in flour and cereals? The first thing to do is to get rid of all the flour, cereals, nuts, dried fruits or spices that may have been attacked by the bran bugs. Thoroughly clean the utensils, shelves and storage area. Using a household spray containing either 5 per cent DDT, 2 or 3 per cent chlordane, a half per cent dieldrin or one per cent lindane, spray the storage area thoroughly and let the spray dry. Replace the clean utensils on clean shelf paper.

AAUW Program Scheduled Today

A guest night program has been announced by the Appleton Branch of AAUW. The meeting will take place at 8 p.m. today at Lawrence College Worcester Art Center. Mrs. William Dafoe will review the book, "Take Her, She's Mine". The board will not meet in December.

The Ailing House Stopping Seepage

BY ROGER C. WHITMAN

Q: My problem is a damp cellar in one corner and part way along one side. It is a stone foundation. It appears to be seepage through the wall causing the damp floor. Is there a simple and inexpensive way to take care of this?

A: Seepage may be due to cracks in the mortar between stones. Inspect the mortar carefully and repair any cracks by filling with a latex concrete. Then apply two coats of a waterproofing preparation available masonry supplies dealers to all the mortar between the stones.

Q: A young couple staying at our home dropped an unclean diaper on a varnished floor, taking off the varnish completely and leaving a dark brown spot when we tried to wash the floor. Is there something to remove the stain besides sandpaper?

A: To the bare wood surface, in the affected area, apply a solution of oxalic acid (poison) to one quart of water, allowing to remain about an hour, then rinsing off with clear water; repeat treatment, if necessary.

Scarred Walnut

Q: I have a badly scarred walnut "waterfall" veneer cedar chest and a mahogany bedstead. Is it possible to achieve a similar finish on both pieces; for example, a maple stain, or is painting them alike the only solution? How do I prepare the surface for the finish?

A: Even if the two woods were stained with the same color wood stain, the grain of the woods would be different, affecting the appearance. However, if you prefer the same color and the grain showing, remove any finish down to bare wood (shellac removal with denatured alcohol, prepared paint remover for varnish); when wood is dry, sand smooth and wipe off any dust. Then apply a prepared wood bleach, following label directions carefully. Then apply any desired wood stain, following instructions on the container. Much easier, to paint both pieces with top quality enamel; be sure surface is absolutely clean and free of any trace of wax, grease, etc., before applying finish.

Q: We have ceramic tiling in our shower stall. The city water is usually hard and we do not possess a water softener. What method or product would be remove the water spots from the tile? I have tried various soaps and detergents without a great deal of success.

A: A quick paste stain remover for floor tile is also excellent for removing water spots from ceramic tile. Or use a paste made of kerosene and powdered whiting (be very careful of fire hazard), followed by rinsing with warm water.

A Lovelier You

By Mary Sue Miller

Holiday Hairdo's

A flawlessly coiffed head does more for you than the dreamiest dress. Only remember how quickly dreams can turn to nightmares, and then imagine a terrific dress on a tousle-headed figure. It's enough to make you wake up screaming!

There is just no denying that, whatever you wear, you are presentable when your hair answers to the same description. Keeping the hair groomed is never a hit-or-miss affair, but is based on systematic attention.

If you would have a "best-dressed" head during the holiday season, now is the time to plot a grooming course. An efficient one follows:

Whether or not you are a salon devotee, block out time for the shampoos and sets that you will require before the New Year. Also schedule necessary tints, touch-ups, trims and permanents. If a perm is in order, make haste to

have it. Most waves benefit from "aging."

If you have difficulty managing your locks between do's, make a study of hair-grooming aids. New ones offer highly-specialized control. Dressings, in gel form, build body and sheen, assets on which the success of the rounder, smoother styles depend. In after-shampoo rinses and setting sprays, innovations purport to unravel tangles and strengthen a set.

For keeping a set at peak performance, two hair tools show promise. One is an electric roller for bolstering sag in moments. The other is a polyethylene brush with rounded teeth, so cleverly spaced that use accents waves. And thus dreams of loveliness become a reality.

What's your hair problem? You'll find a way to overcome it in my 16-page booklet, Rule Your Waves. Advice includes: beauty treatments for oily, dry, and normal hair; ways to manage unruly locks; how to add color and highlights; tips on cutting, permanents and styling; grooming tricks, coin.

Write Mary Sue Miller in care of

'Holly Hop' Set at BDM

"Holly Hop" will be the theme of the junior high dance Friday evening at Butte des Morts Golf Club. The party will be held from 8:30 to 11 p.m.

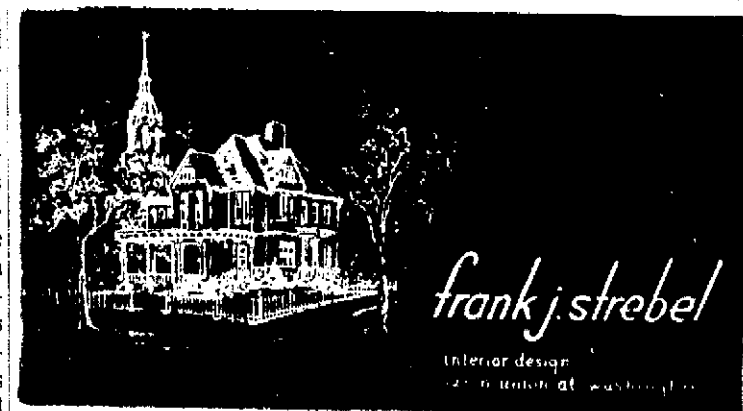

Committee members are Mr. and Mrs. R. A. Martin, Mr. and Mrs. A. J. Rudolf, Mr. and Mrs. Ray McClone, Mr. and Mrs. Homer Earl and Mr. and Mrs. John Hayes.

Stages Card Party

GREENVILLE — Prizes were won by Arland Relien, William Relien, Mrs. Eldred Tellock and Mrs. William Relien when the Cedar Grove PTA had a card party at the school. Mrs. Arlo and Mrs. Erwin Tellock were in charge of the party. Mrs. Gerald Huebner and Mrs. Carlyle Manley served.

Opening lead — ♥ Q

happen if you let an opponent
believe that his plans are work-
ing when they really aren't.

South won the first trick with
the ace of hearts, got to dummy

with a diamond, and returned a
trump for a finesse with the jack
of spades.

What damage can West do if
he wins at once with the queen
of spades? If West returns a
heart to dummy's king, declarer
discards a diamond and leads
another trump to force out the
ace.

West can then lead another
heart to make declarer ruff once.
But South still has enough
trumps to draw all of West's
spades. South then runs his win-
ning clubs, making the game and
rubber.

Refuses Trick

Now see what happens if West
refuses to win the first trump
trick. South assumes that East
has the queen of spades and that
his finesse has succeeded.

South may fall into the trap
by leading another diamond to
dummy for another spade finesse.
But when he reaches dummy he
must discard a diamond on the
king of hearts before leading the
second trump.

Now South has exposed himself
to the hearts. West takes the
queen of spades and leads a heart
to make South ruff. This leaves
South and West with two trumps
each.

If South leads another trump to
force out the ace, West returns
another heart to knock out South's
last trump. This leaves West with
the last trump, and South loses
control of the hand.

If South abandons the trumps
he fares no better. West ruffs a
high club with his low trump, and
the defenders get three trumps
and a club.

U.C.T. Holds Christmas Party

The annual Christmas party and
gift exchange was held Saturday
evening after the United Commer-
cial Travelers Council meeting at
the Masonic Temple. Refresh-
ments were served by members
of the Auxiliary.

Robert Maves reported on the
Booster Day and Roy Stroessen-
reuther reported on the fund rais-
ing drive for retarded children.

The annual spaghetti dinner will
be held at the January meeting.

Len Woodhouse, Canada, su-
preme counselor, will attend a
friendship meeting Thursday,
sponsored by the Council, at
Bernie's Supper Club.

A children's Christmas party
was sponsored by the Council and
Auxiliary at 2 p.m. Sunday at the
Masonic Temple. Mr. and Mrs.
Francis Conway and Mr. Maves
had charge of the program.

Correction

Mrs. James Bergstrom is the
president of the Infant Welfare
Circle of the King's Daughters,
sponsors of the 50th annual Char-
ity Ball held Saturday evening at
North Shore Golf Club. The
president was incorrectly named
in Monday's story of the Ball.

7 D 10 3 C 5 2. What do
you say?

Answer: Bid two hearts. You
have only 9 points in high cards,
but your fine fit for spades en-
titles you to bid your suit at the
level of two. You can raise spades
later, showing a hand too good
for a single raise but good enough
for a double raise.

Miss Julie Ann Wamsley

Summer Rite Planned by Engaged Pair

NEENAH—Mr. and Mrs. D. C.
Wamsley, 109 N. Park Ave.,
have announced the engagement
of their daughter, Julie Ann, and
mer wedding.

David Edwin Limbert, son of Dr.
and Mrs. E. M. Limbert, Council
Bluffs, Iowa.

Miss Wamsley and her fiancé
are juniors at Iowa State Uni-
versity, Ames, Iowa, where Mr.
Limbert is affiliated with Pi Tau
Sigma Fraternity.

The couple plans an early sum-
mer wedding.

Woman Hostess for Club Yule Party

GREENVILLE — Mrs. Henry
Blumer was hostess to the Green-
ville homemakers Christmas party
with a potluck supper Satur-
day evening.

Prizes went to Mrs. Howard
Abendroth and Mrs. Viola Abend-
roth.

The committee included Mrs.

Frank Dillenberg, Mrs. Mildred
Imman, Mrs. Henry Blumer and
Mrs. Jim Peters.

Mrs. William Meyers and Mrs.
William Elm will give the lesson
at the Jan. 17 meeting.

Reshape Knits

To reshape knit-wear which has
stretched, launder it as usual and
put it into a tumble-type dryer.

Pearls Top Gift List

Pearls have skyrocketed to
such fashion heights this year that
they top many Christmas hint lists
of women of all ages. The varie-
ty of styles and prices is the larg-
est in history.

Never have pearls—necklaces,
earrings, pins, rings and brace-
lets been more important in the
fashion picture, and they are be-
ing worn this year in many new
and striking designs.

There are multiple strands of
pearls, real or simulated, that are
bound to delight the heart of any
girl. And there are new pearl
collars, clasped close around the
throat, effective with any neck-
line. Multiple strands of tiny seed
pearls are used in effective neck-
laces, bracelets and earrings, al-
ways beautiful, always in good
taste.

Combinations of pearls with
other stones, such as jade, tur-
quoise, lapis or topaz, add color
and excitement to many of the
season's newest designs in neck-
laces and matching accessories.
Cultured pearl necklaces, so
flattering to every woman, are
available in all lengths, though
the trend is to the shorter lengths
of 18 to 22 inches to frame new
necklines. These may be found
at budget prices that will pleas-

Wednesday, Dec. 5, 1962 Appleton Post-Crescent B4

antly surprise every shopper—
beautiful, perfectly matched and
lustrous.
For the woman who has a fav-
orite pearl necklace, matching
earrings, an elegant ring or a
beautiful pearl pin is a perfect
Christmas gift.

'Funtastic' Fashions For Sport

Bowling emerges this season with excitement and enthusiasm, and to add to the general pleasure of the professional and non-professional player, are the smart and "funtastic" stylings specifically designed in wool textiles. This fall and winter—men, women and children will be "back-to-bowling" in clever combinations of fashions and fabrics more functional and fabulous than ever.

Created for active and spectator sports seekers, woollens and worsteds are available in numerous weights, textures, patterns and colors—all magnificently merged in a variety of fabrics that cater to the tastes of the fashion-conscious. The active bowlers will be particularly busy to find that no matter how hard they play, their wool clothes make sensational scores—they resist wrinkles, and stay fresh for the next activity in their busy schedules.

Frivolous, Fun Fashions
For the girls, there's a fashion scoop—the sportswear is frivolous and all fun. Sparkling colors, provocative plaids, big-scale all-over prints and textured tweeds form the basis for jaunty new styling twists. Suspender knickers, knee-high jumpers, wrap-around culottes, shortie kilts and stretch-slacks promise to add a gay-but-practical carefree charm to the occasion.

From classic models and free and easy casuals tailored to tempt a sportsman during business and off-duty hours to enticing and snappy sportswear that's frankly feminine—these infinitely useful fashions go everywhere with impact and confidence. The men will find an extensive collection of sportcoats, slacks and top-

Designing Woman

BY ELIZABETH HILLIER

Durable Oil Finish

Although rings may show on the be discouraged because a hot furniture surface in the early bowl left a ghostly circle on her stages of correct oil finishing, walnut table. Since she started to eventually almost nothing set on restore the old table just three months ago, another oil application is due now, and should condition the table to show proudly to holiday guests.

As you know, Mrs. K. oil finishing takes time. The first hot-boiled linseed oil poured on the wood and wiped off counts most, but doesn't complete durably. Perhaps you didn't make enough follow-up applications—more oil should have been applied two days later, and again a few days after that. In any case, the treatment should be repeated immediately, since the hardest finish results from proper first steps plus additional oil applications every three months for a year. As at first, make sure that the wood surface is wiped thoroughly dry—if it's left sticky at any time, it will always be sticky. If you were an application short earlier, try another in a week or ten days. The ring should disappear!

Dress Pattern

BY ANNE ADAMS

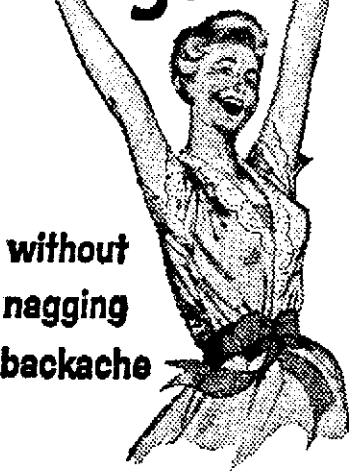

The exciting A-line flare—an easy-sew sensation to wear with every day and night. Choose stress and strain—you want relief—round or bateau neck, colors light or lively.

Printed Pattern 4604: Misses' Sizes 8, 10, 12, 14, 16, 18. Size 16 requires 2½ yards 45-inch fabric.

FIFTY CENTS in coins for this pattern—add 10 cents for each pattern for 1st-class mailing. Send to Anne Adams, care of Appleton Post-Crescent, 378 Pat-

tern Dept., 243 West 17th St., New York 11, N. Y. Print plainly NAME, ADDRESS with ZONE, SIZE and STYLE NUMBER.

Wake up rarin' to go

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain—you want relief—want it fast! Another disturbance may be mild bladder irritation following wrong food and drink—often setting up a restless uncomfortable feeling. Doan's Pills work fast in 3 separate ways: 1, by speedy pain-relieving action to ease torment of nagging backache, headache, muscular aches and pains. 2, by soothing effect on bladder irritation. 3, by mild diuretic action tending to increase output of the 15 miles of kidney tubes. Enjoy a good night's sleep and the same happy relief millions have for over 60 years. For convenience, ask for the large size. Get Doan's Pills today!

Avoid Glass Breakage! NOTICE

We want to pass along this advice to our many friends to help them avoid some mistakes made by others in the past which resulted in unnecessary glass breakage. Some of this advice applies all year 'round, however, it applies particularly during the Holiday Season. Please benefit by the mistakes of others so it doesn't happen to you.

PLEASE DON'T set lighted Christmas Decorations within eight inches of Plate Glass or Thermopane in picture windows. Even a small light bulb gives off some heat and when it is directed on a small area of cold glass it causes local expansion which can result in unnecessary breakage.

PLEASE DON'T place Christmas posters, pictures, or cardboard against the inside of Thermopane at any time of the year. These objects can prevent the sun's rays from passing through, thereby building up local heat and expansion of glass and possible breakage because of the strain on the glass.

PLEASE DON'T paint Christmas scenes (especially dark colors) on your picture windows. Any opaque material, such as paint, paper, cardboard, can obstruct the passing of the sun's heat rays and cause breakage.

PLEASE DON'T forget to raise window shades on Thermopane windows on the East side of your home before retiring for the night. When early morning sun strikes cold glass, heat is quickly built up and when drawn shades act as heat retainers the Thermopane may crack. In fact, if your shades are hung too close to the glass, it is better to set them out farther to permit more generated solar heat to escape at the ends and the top.

PLEASE DO stop in and see the fine selection of Plate Glass Mirrors for mantels, davenport, vanities and doors. Be sure to take advantage of the many fine practical Christmas gift items in our store, such as Glass Tops, Glass Shelves, Shower Doors, Tub Enclosures, Glass Block Vases, etc.

**GEO. J. HOFFER
GLASS & PAINT INC.**

RE 3-6671

and the table will have decidedly increased resistance to new ones.

Mrs. M. M.: "We are gradually replacing our Early American living room and dining room furniture with Danish modern, but it will take a while because so many other things will be more urgently needed in our new home. Carpet for the two rooms is one of them. The floors must be carpeted, and I need advice on what to choose to look right with both furniture styles. Tweeds are supposed to go with everything, I hear, but what do you think?"

Color mixtures in not too high cut piles can smooth the style transition very well, and there are other possibilities in precise dot patterns, and in tight loop weaves in plain colors that show a pattern effect with varied arrangement of the loops.

Mrs. T. W.: "I'd like to paint the walls of my daughter's bedroom before she comes home from college for Christmas. What color should they be to go with French Provincial fruitwood furniture, an olive green rug and a bedspread and curtains in a small Provincial plaid that looks more like checks in olive, light greenish gold, deep bright pink and light pink, an odd shade of brown, and white? A match to the greenish gold is on the walls now, but neither of us like it. I shouldn't think matching either pink would do because of the green rug. Is white the only choice left? The room is small and not too light."

Rather than match a pink in the plaid, use a pale tint of it, which will keep the room light and be more flattering to the fruitwood than white. For the best effect, apply two coats of paint. In some lights, the present wall color might show through and gray the pink.

Easy Cleaning

It's really no trouble to keep the household clean—if you select furniture and accessories for washability. Then follow directions. The ring should disappear!

Let's EXPLORE YOUR MIND

By Sylvanus M. Duvall, Ph.D. and Evelyn M. Duvall, Ph.D.

False. Some people have found the like. But since the dog is no lying more successful and re-warding than most people do. But most "natural-born" liars were not born that way. They have resorted to lying as a means of defense for so long, and have failed to learn other and more adequate ways of handling their problems, that they lie about two or three.

Hobby Club Contest Winners Announced
The boy who drops out of school has his pick of jobs.

True—False. A boy may drop out of high school in the hope of getting a job. But his chances of finding work would be better if he had stayed on in school to graduation. The U. S. Department of Labor finds that three-fourths of the men drop-outs and nine-tenths of the high school graduates not enrolled in college are employed. The fellow with a high school diploma has more choice of jobs and more chances of getting what he wants than does the drop-out.

The possibilities of life are: Tremendous—Limited—For the individual, they are limited. If, during the night, some dog gets in our flower bed and ruins it, we can think of a num-ber of possibilities, such as shoot-ting the dog, beating him, suing the owner, chaining the dog, and will be Saturday afternoon only.

Saturday Masses
SHERWOOD — Masses for the dog gets in our flower bed and feast of the Immaculate Concep-tion Saturday at Sacred Heart Church are set for 7:30 and 9:30 a.m. and 7:45 p.m. Confessions the owner, chaining the dog, and will be Saturday afternoon only.

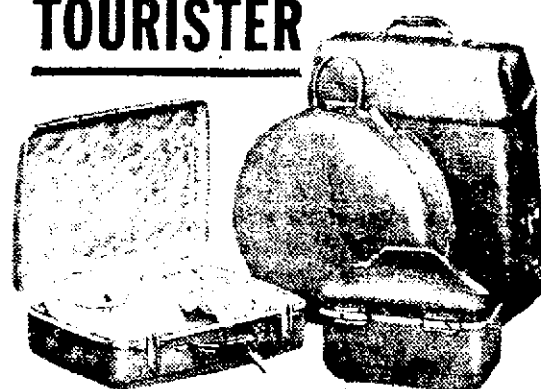

Wednesday, Dec. 5, 1962 Appleton Post-Crescent 86

Masses Scheduled At Greenville Churches

GREENVILLE — Masses for 8 a.m. at St. Mary church and 7:45 at St. Patrick church. Sunday masses will be 8 a.m. at St. Patrick church with Holy Eucharist. At St. Mary Name Men receiving communion. Church, Greenville, and 7:45 at St. Patrick Church, Stephenville. There will be a 10 a.m. mass First Friday masses will be at St. Mary church.

Carl Zutz for New Position

Carl Zutz, 39, a member of the Wisconsin State Patrol who was recently transferred from Appleton to Madison, has been put in charge of field services for the safety division of the state patrol.

The move was one of several to strengthen the state motor vehicle department's public information and highway safety promotion functions announced this week by Commissioner James Karns.

Zutz will work with local public officials in advising them how to improve safety activities. He will also make public appearances on behalf of traffic safety.

Paul Edlund, 48, of Madison, who has served as the department's supervisor of press rela-

Computer Suggests a Lamp For Kennedy's Yule Present

BY PHILIP MEYER
Chicago Daily News Service

WASHINGTON—In case you've been wondering what to send President Kennedy for Christmas, he could use a lamp for reading in bed.

This word comes not from the White House but from an IBM computer in a Washington department store.

If you can't afford a bed lamp, the machine tactfully suggests an item in the sporting goods department for under \$5. A life preserver.

Answer 14 questions about your gift recipient, and a card goes into the machine, lights flash, wheels turn, and up clicks a list of gift suggestions.

For a test, I fed it JFK's data three times using his different addresses: the White House, Hyannis Port Mass., and Middleburg, Va.

The rest of the data stayed the same. It included vocation (politician), hobbies (reading, boating), type (outdoor), relationship to giver (servant), and economic status (has everything). "Bed light-lamps, 4th floor" came out the first choice every time.

However, the Virginia country dweller JFK could also use a set of cut crystal glassware, the machine reported. And in his big house at Hyannis Port he must have a robe that is getting a bit frayed. The machine suggested I buy him a new one.

A chess set would be handy at either Middleburg or Hyannis Port, but not at the White House. A sporty sweater would be more welcome there, it clicked.

Just for laughs, and at the risk of starting a payola investigation, I asked the attendant to trip the button for gifts costing more than \$1,000. The machine's answer was short and snappy.

"Please show this to one of my Hecht Company store assistants," it printed in bright red ink, "and she will call one of the store managers to give you his personal attention."

Illinois Issues Birth Controls In Attempt to Cut Relief Rolls

Commissioner Argues Plan Would Subsidize Adultery, Prostitution

CHICAGO (AP) — The state of Illinois, plagued by money problems for the past year, has decided to supply contraceptives free to single mothers or married women on state relief rolls in an attempt to cut welfare costs. Commissioners who opposed the plan are Catholics. A spokesman for the Roman Catholic diocese of Chicago said comment would be withheld until the text of the decision was studied. The sources of the bitter battle stem from Illinois' financial problems. Slush funds Gov. Otto Kerner, a Democrat, has brought increasing pressure on the State Welfare Agency to slash its costs. Some 400,000 of the state's 10 million residents receive some form of state aid. Ten years ago the two-year welfare bill was \$275 million. More than \$631 million has been voted for the present biennium — and that's still not enough. The IPAC's former chairman, C. Virgil Martin, president of a Chicago department store, quit last July, saying Kerner was trying to blame all the state's financial woes on welfare costs. Relief Roles Kerner appointed industrialist Arnold H. Maremont as the new IPAC chairman, and Maremont almost immediately proposed the distribution of contraceptives as a means of cutting relief rolls. Noting that 50,000 mothers received aid to dependent children, Maremont argued that preventing more children from being born and getting on ADC lists would save Illinois \$30 million a year. "Assuming the birth daily in Illinois of 15 illegitimately born infants requiring public support," Maremont has said, "we are creating a liability of \$105,000 a day. If adequate birth control advice and assistance avoided 80 per cent of these births, we are saving \$80,000 a day." Opponents of the plan centered their fire on the distribution of relief workers with final approval contraceptives to single women by the welfare commission.

State Democrats Will Invite 25,000 to Reynolds Inauguration MADISON (AP) — Wisconsin Democrats plan to invite about 25,000 persons to the inauguration of Gov.-Elect John W. Reynolds on Jan. 7. Republicans, who won the remaining four state constitutions of offices, don't plan to send any invitations. The GOP state chairman, Claude Jasper of Madison, said the inauguration "is a state, not a party function." Democratic plans were announced Monday by state chairman Patrick Lucey of Madison who said the invitations will be mailed this week. He said the party members also would be invited to attend a \$25-a-plate fund raising dinner the same evening. Formal invitations to a reception at the governor's mansion also will be mailed, Lucey said. The inaugural ceremony in the rotunda of the Capitol is open to the public but sections will be reserved for officials, their families and special guests. The oaths of office will be administered by Chief Justice Timothy Brown of the State Supreme Court. Republicans who will take office include incumbents Mrs. Dena Smith, treasurer, and Robert Zimmerman, secretary of state, and Lt. Gov.-Elect Jack Olson and Atty. Gen.-Elect George Thomson.

County Trunk A Becomes Arterial Members of the Outagamie County Highway Committee decided Monday that County Trunk A, at the intersection with County Trunk 00 (old U.S. 41) will be designated an arterial highway. The committee passed a motion to place stop signs on County Trunk 00 to stop traffic at the intersection. Use of the kit was not mandatory.

Death Effects Change In Door Latches of Convair Airliners WASHINGTON (AP) — The government will recommend improvements in the door latches of twin-engine Convair airliners, it has been learned. The recommendation apparently stems from a Civil Aeronautics Board investigation of the death of an Allegheny Airlines stewardess near Hartford, Conn., last Oct. 19. Francoise deMoriere, 29, fell about 1,500 feet to her death when a Convair's door ripped off as she was about to announce a landing. A CAB spokesman declined comment on the report that the government will recommend airlines use a door latch kit which the Convair division of General Dynamics used some time ago.

Lawrence Says Details of a Compromise in Cuba Withheld

What Did America
Give? What Did It
Take, Writer Asks

BY DAVID LAWRENCE

WASHINGTON — U Thant, Secretary General of the United Nations, has just made a remarkable speech full of news that has heretofore been withheld from the world, including the American people.

The Secretary General announced that the Cuban situation was recently the subject of a "compromise," and he defined this as the type of negotiation which is characterized by "the principle of give and take." But what did America give and what did it take? What did the Soviet Union give and what did it take? The answers have not yet been officially revealed.

The American people will be surprised at U Thant's statement. They have hitherto been led to believe that President Kennedy won a big victory and that Premier Khrushchev suffered a severe defeat. What does the Secretary General know that has not been disclosed by the White House or the Department of State? In these days of "manipulated" news — when the idea of deliberately misleading the people is defended as part of the "arsenal of weaponry" — it will take a Congressional investigation to find out what really happened.

Muzzle Itself

It may be that Congress will muzzle itself too. Already there are rumors that the Democrats who were so quick to start an inquiry by the Senate Foreign Relations Committee to find out about the U-2 incident in 1960 during the Eisenhower Administration, now are unwilling to find out why it is necessary for the U-2's to continue flying over Cuba and what the Administration may have given away.

The present status of the Cuban missile bases is not clear. President Kennedy in his statement to the American people on Nov. 20 said that the missile bases were being dismantled and that the Soviet government had stated that "no offensive weapons will be re-introduced." The President added, "Nevertheless, important parts of the missiles and the decision of the understanding of Oct. 27

and 28 remain to be carried out. The Cuban government has not yet permitted the United Nations to verify whether all offensive weapons have been removed, and no lasting safeguards have yet been established against the future introduction of offensive weapons back into Cuba."

Meanwhile, the United States has demobilized its military forces which were assembled in the southeastern part of the United States, and the "quarantine" or blockade has been abandoned. It is not known exactly what else the United States has promised to do. There was an intimation that this country would not engage in any "invasion" of Cuba. Whether the non-invasion offer now is in effect or whether it can be regarded as having been negated by the failure to obtain verification by the U.N. of the dismantling of the missile sites in Cuba has not been clarified as yet. Certainly in the Nov. 20 statement Mr. Kennedy said flatly that the United States wouldn't "abandon the political, economic and other efforts of this hemisphere to halt subversion from Cuba," but he added that "these policies are very different from any intent to launch a military invasion of the island."

Mikoyan Visit

Anatoly Mikoyan, First Deputy Premier of the Soviet Union, recently went to Cuba presumably to argue for international inspection and verification, but he claims he was unsuccessful. So he turns the task over to the delegations from the United States and the Soviet Union who are stationed in New York City at the United Nations. The United Press International in a dispatch on Monday of this week said:

"United Nations—U.S. and Soviet diplomats discussed the Cuban situation for almost six hours today but there was no change in their positions."

But what is there to discuss and agree upon if the situation has already been settled by a "compromise"? Is Mr. Kennedy's pledge of "no invasion" in effect a promise of a compromise in the Cuba approve on-site inspection because it may have a bearing on the same principle now being debated with respect to future disarmament agreements? The Soviets, of course, don't like inspections.

Meanwhile, another UPI dispatch on Monday may be revealing it said:

"Warsaw — Polish Communist Leader Wladyslaw Gomulka tonight called on the United States to confirm its non-aggression pledge to Cuba before the United Nations. In a 65-minute speech, Gomulka said the Soviet Union had acted 'exclusively in the interests of peace both when installing rockets and in removing them from Cuba.' He said if the missile bases had not been set up, Cuba now would face a bloody intervention, 'but the withdrawal tries in this hemisphere to drop the idea of a Cuban in-

DISSEMBLING FROM BOATS IN THE HARBOR OF Kigali, Rwanda, ARE SWUNG TO THE ROCKY SHORE IN A HUGE CANVAS BAG

ROAD SIGN in Queen Elizabeth National Park, Uganda

THE REV. N.P. HACKE
(1880-1978)
AT THE AGE OF 19 BECAME THE PASTOR OF CONGREGATIONS IN 4 DIFFERENT COMMUNITIES IN PENNSYLVANIA
-AND SERVED ALL OF THEM CONTINUOUSLY FOR 59 YEARS-

Middle-Aged Men Warned Not to Rush Snow Shoveling

This is a renewal of the annual warning to men of middle age and beyond not to rush into shoveling away the snow.

The warning against overexertion in shoveling snow is aimed particularly at men past 40 and especially for those men who lead physically rather inactive lives those who are overweight and those who had had an illness that has left them weakened.

Snow shoveling actually can be good for you, if you approach it leisurely. Fresh air and the exercise are fine, but don't overdo it. Hard vigorous exercise, such as rapid plying of a snow shovel in a frantic effort to clear the driveway and get to the office on time could be dangerous. It could even kill you, by putting an undue strain on your heart.

If your heart is all right, you won't hurt it much by overexertion. But the problem is to be certain that your heart is all right. If you've had a recent physical check-up, say within six months, and have felt okay since, you very likely are all right.

But if you are not in good condition don't be ashamed to get a small snow blower or snow plow for clearing walks and drives. Or don't hesitate to hire the neighbor's son to do the clearing job for you. Trying to prove that you're still a he-man who can shovel snow like a youngster is foolish and unnecessary.

Police to 'Pin' This One Down

Mrs. Ivo Geurts, 1818 W. Commercial St., is still finding clothes pins in her front yard.

She reported to police Monday she found clothes pins in her front yard Saturday when she picked over 100 pins off the grass.

Police found an empty clothes pin bag nearby and took pins and bag to the police station to await the owner.

ANSWERS ON PAGE B11

Castro's Megalomania Hard to Figure Out

BY EDWIN A. LAHEY
Chicago Daily News Service
WASHINGTON — Fidel Castro is only secondarily a Cuban.

Castro still pictures himself primarily as another Simon Bolivar, the liberator of Latin America.

If this were not the tragic fact, OAS.

an "honest broker" could patch up the differences that have been permitted to become the "Cuban Crisis."

This conclusion has been reached by a number of Latin American diplomats representing the most influential nations in the hemisphere.

They have come to accept the belief that it is impossible ever to do business with Castro, because he is only secondarily a Cuban.

Castro's self-hypnotism, in which he sees himself as a hemispheric liberator, apparently has not been cracked by the Soviet withdrawal from the Cuban military adventure.

The maddening part of the Cuban crisis, to most Latin American diplomats, is the simplicity of the Cuban problem, if you don't take Castro's megalomania into account.

If Castro ever came out of orbit, Cuba could have its revolution and its land reform with the friendly guidance of the United States. This country was ready to discuss the matter in 1959, when the agrarian reform law was first passed in Cuba.

bit, Cuba could have its revolution and its land reform with the friendly guidance of the United States. This country was ready to discuss the matter in 1959, when the agrarian reform law was first passed in Cuba.

The United States even sent a note to Castro, asking for discussions on matters involving the expropriation of American property. But to this day the Castro government has not even acknowledged the note.

Castro's delusion of grandeur, persisting even after Soviet Premier Nikita Khrushchev left him sitting out on the end of the limb, has finally persuaded the "neutralists" in Latin America that they must go along with the United States and wait for the Castro regime to run its course before the Cuban question can be settled.

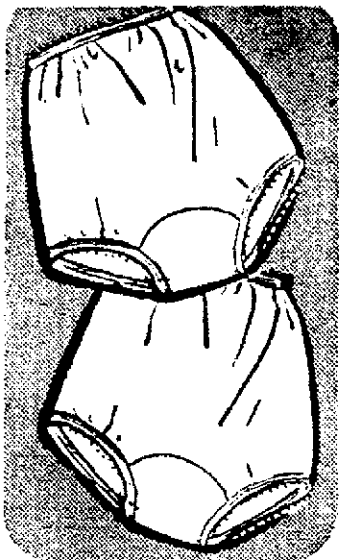

How and when will the Castro era in Cuba come to an end? You may as well read tea leaves to find an answer. It could come quickly, with a typical Latin

Astrosky Book Says Date Okay for Court
AKRON, Ohio (AP)—Patrolman William Koegle flagged a woman driver to the curb when she was clocked driving 47 miles an hour in a 35-mile zone. Writing the ticket, Koegle asked the woman when she'd, like to appear in court. "How about June 29 at 1 p.m.?" Koegle asked. The woman reached into the glove compartment for an astrology book, flipped through it briefly, then answered: "That will be fine."

Krebiozen Is 'Hot Potato' To National Cancer Institute

Chicago Daily News Service
WASHINGTON — You ask about krebiozen at the National Cancer Institute and the toneless response is: "see Dr. Endicott."
Some 40,000 drugs pass through the NCI's drug screening program each year but only one — krebiozen — has the exclusive attention of the director, Dr. Kenneth Endicott.
"It's a hot political potato," one of the scientists explained. "Only the boss handles this one."
When the boss is out of the country, as Endicott has been, nothing moves on the krebiozen story.

Krebiozen fell into Dr. Endicott's lap in a circuitous way typical of the odd twists and turns of the incredible story that has taken place since a Yugoslav refugee physician brought it to this country 13 years ago.
Five years ago Dr. Andrew C. Ivy, the scientific sponsor of krebiozen, sued his former superior, Dr. George Stoddard, one-time president of the University of Illinois and now chancellor of New York University, for libel. He objected to statements in Stoddard's book, "Krebiozen: Great Cancer Mystery."
At the opening of the trial in April, 1961, Judge Julius H. Miner in U.S. District Court in Chicago ruled the medical value of krebiozen was a central issue.
When Ivy argued he could not get a fair test from the medical profession, Miner asked the U.S. Department of Health, Education and Welfare to evaluate krebiozen, which the 3,000 physicians measured the drug's effect.
Endicott also criticized the meagerness of animal studies for

3-Contest Winning Streak Going for 49ers Against Bays

Lombardi Skips Films of Ram Game to Prepare for Sunday

BY ART DALEY
Post-Crescent News Service
PALG ALTO — Will the 49ers be growling and snorting at the Packers Sunday?
"That's how we play all our games and Sunday will be no exception," 49ers Coach Red Hickey said as he jetted out here Tuesday from the draft in Chicago with Vince Lombardi and Phil Bengtson.
The 49ers have the momentum of a 3-game winning streak going for them and, as Red put it:
"Yes, that will help us — those three in a row, but the fact that the Packers are in the championship race yet makes it more interesting for us."

Miami to Duel Nebraska in Gotham Bowl

Dec. 15 Game Will Match Claridge, Mira

NEW YORK (AP)—Rugged Nebraska will oppose Miami of Florida in the second Gotham Bowl football game Dec. 15, resuming the post-season contest with time running short.

The match was completed Tuesday night when the Board of Regents and the Big Eight Conference approved acceptance of the bid voted by the Nebraska players.

Bowl officials were pleased by the acquisition of both the Miami Hurricanes, 7-3, and the Cornhuskers, 8-2, who are among the nation's top ten teams in passing and rushing, respectively.

Less than 15,000 fans watched Baylor defeat previously unbeaten Utah State in the first Gotham Bowl game last year. The event had been scheduled to get off the ground in 1960 but failed to make it.

11th Hour Acceptance

Faylor saved the game in '61 by virtue of an 11th hour acceptance. Nebraska's decision left the National Trophy Bowl, Dec. 29, in Washington, D.C., as the only major post-season contest which has not completed its line-up. The game folded last year for lack of entries.

"This is the game we wanted—and Miami wanted—all along," Bob Curran, director of the Gotham Bowl, said.

"Regardless of what may have been reported, the only two invitations submitted were to Miami three weeks ago and again Saturday night and to Nebraska."

Behind option-running field general Dennis Claridge and oft-injured but now-healthy fullback Bill (Thunder) Thornton, the Cornhuskers were one of the surprise teams of the year.

Last Finale

Thornton said the Gotham date gave the team a chance to "get a bad taste out of our mouths." Nebraska lost its finale to Oklahoma 34-6. The other Cornhuskers defeat was to Missouri. Both of those clubs also are bowl-bound.

Miami's defeats were at the hands of nationally ranked Alabama and Louisiana State, plus Northwestern. Hurricane quarterback George Mira shattered a dozen school records, mostly by passing. He completed 122 for 1,571 yards and 10 touchdowns this year.

The Hurricanes, who lost to Syracuse 15-14 in last year's Liberty Bowl and are 2-3 in major post-season play, also feature backs Nick Spinelli and Nick Ryder and guard Jim O'Mahoney.

Nebraska has lost its two previous bowl tries to Stanford in the Rose Bowl and Duke in the Orange Bowl.

Steelers' Hayes Has Heart Attack While Hunting

PITTSBURGH (AP) — Rudy Hayes, 26, linebacker for the Pittsburgh Steelers of the National Football League, remained in fair condition today after suffering a heart attack while hunting deer.
However, a spokesman said the condition of the Pickens, S.C., player was improving.

Hayes, a four year NFL veteran, was stricken while hunting Tuesday near Uniontown, about 50 miles south of here. He was in a party that included teammates Buzz Nutter and Clendon Thomas.

Hayes, a former Clemson star, had been inactive most of the season because of a knee injury. He returned to the active list last weekend and played briefly against the St. Louis Cardinals.

Shaw Third to Sign 1963 Braves' Contract

MILWAUKEE (AP) — Second baseman Frank Bolling has become the third member of the Milwaukee Braves to sign a 1963 contract, the National League club announced Tuesday.
Pitcher Bob Shaw and outfielder Lee Maye came to terms previously.

Milt Bruhn, University of Wisconsin football coach, cuts the cake at the University of Wisconsin Club of Chicago dinner Tuesday night. He is shown with end Pat Richter, left, and William Nathenson, chairman of the alumni club. (AP Wire-photo)

Packers Dominate Rushing Statistics

Giants Have Gained Most Yards Passing in NFL

BY THE ASSOCIATED PRESS
Figures often are misleading but in the case of the National Football League they clearly tell why the Green Bay Packers and New York Giants almost certainly will meet in the championship game at Yankee Stadium Dec. 30.
The Giants already have clinched the Eastern Conference title and the Packers need only one victory in their remaining two games to assure their third straight participation in the pay-off game. The Packers lead the second place Detroit Lions by one game in the Western Conference.

While Dallas leads in over-all offense and the Lions in over-all defense, weekly figures, issued by Packers have dominated virtually all the rushing aspects while the Giants have monopolized the passing end.

Lead in Rushing
The Packers, who have won all but one of their 12 starts, lead both conferences in yards gained rushing with 2,115. They have piled up the most first downs, 243; and the most by rushing, 127. They have scored the most points, 364; the most touchdowns, 46; and the most TD's by rushing, 35. To complete the cycle, they have held their opponents to the fewest points, 110.

The Giants, who have won 10 of 12, including an unfinished string of seven consecutive victories, have gained the most yards passing, 2,890; and have thrown the most touchdown passes, 28. They've lost only 109 yards attempting to pass, the lowest figure in the league.

The Packers are no slouches in the aerial end of the game, either. They lead the league in pass completions with a 62 per cent average, have permitted only 11 interceptions and have limited their opponents to 1,381 yards via passes. The last two are league lows.

No team has been as deadly against enemy passers as have the Packers, who lead the league with 29 interceptions and 427 yards returned via interceptions.

Other team leaders are:
Most first downs by passing—Washington, 130.
Most field goals — Pittsburgh, 20.
Fewest fumbles—Detroit, 17.
Most opponents fumbles recovered—Dallas and Chicago, 29.

TEAM OFFENSE

Team	Yards	Rushing	Passing

Green Bay West Nips Premontre

Post-Crescent News Service
GREEN BAY — West nipped Premontre, 50-49, Tuesday night, with a free throw in the last 17 seconds by former Premontre star Paul Cibula a key factor.
Cibula, who transferred to West for his senior year after leading the Cadets to the State Catholic tourney last season, broke a 47-47 tie with his free throw, John Drew later scored two more free throws to clinch the decision.
West is now 3-1 and Premontre, 3-2 overall. Drew led West with 20 points. Jim Gerhard had 16 for Premontre.

'One of Those Nights' Erickson Shrugs Off UW Loss to Arizona

MADISON —(AP)— Wisconsin basketball coach John Erickson says that opponents are "all pointing for us pretty hard" and his Badgers won't "sneak up on anybody this year."
Erickson admitted his charges were downhearted after a 51-46 upset by Arizona Monday night. However, he personally shrugged off the loss after his return to Madison Tuesday.
"If you're going to get bumped off, it's better to have it happen early so you know how hard you have to work to stay up there," he said.
"It was one of those nights when we couldn't hit the basket no matter what," Erickson added. "They weren't guarding us at the free throw line and we lost it as

Baseball to be Emphasized

Chisox Plan \$200,000 'Winnebago' Camp

A 50-acre summer sports camp — with emphasis on teenage baseball player development — may be set up by the Chicago White Sox along Lake Winnebago.
The cost of the property, reportedly located near Kaukauna, would be about \$200,000.
When the report was circulated Tuesday afternoon that the property would cost \$200,000, White Sox President Arthur Allyn said, "Two million dollars! The decimal is in the wrong place. The Kaukauna land would cost less than one-tenth of that sum."
Allyn credited Glen Miller, former Kaukauna resident and the Chisox farm director, with originating the camp idea.
According to the Chicago Tribune, Allyn is awaiting a commitment on a second piece of property on Lake Winnebago before going ahead with plans to construct the camp.

The White Sox president indicated that the camp won't be exclusively for baseball. It will be for boys 10 to 18 years of age, some of whom will come from Illinois. He said many states prohibit youths from going to camps specializing in one sport — and that they would then be ineligible to compete in high school athletics.
"This," said Allyn, "will be more or less a regular summer camp, extending for eight weeks and managed by top-notch instructors and coaches. There will be football and soccer fields, tennis courts and facilities for horseback riding, boating and the crafts. But you may be certain baseball will not be slighted."
The operation will give the White Sox a "book" on promising teen-aged athletes.

First-Week M-E Winners Face Losers

MID-EASTERN CONFERENCE

	W	L	TP	OP
Clintonville	1	0	57	56
Kimberly	1	0	74	46
Shawano	1	0	48	44
Two Rivers	1	0	80	45
Kaukauna	0	1	56	57
Menasha	0	1	44	48
Neenah	0	1	45	80
New London	0	1	46	74

Friday Night's Games:
Menasha at Clintonville.
Kimberly at Neenah.
Kaukauna at Shawano.
Two Rivers at New London.

BY RALPH MUELLER
Post-Crescent Staff Writer

All four of last week's winners in the Mid-Eastern Conference will be trying to win for a second straight week when action resumes Friday night.

The slate calls for Menasha at Clintonville, Kimberly at Neenah, Kaukauna at Shawano and Two Rivers at New London.

Clintonville which had the tightest squeak the initial week with a 57-56 victory over Kaukauna in overtime, will face Menasha, a team that came within four points of catching Shawano. The Indians finally won out, 48-44, with Tom Wagner getting a good start in defense of his loop scoring title by caging 17 points.

Tough Hurdle
After running smack into a top contender like Two Rivers, and losing, 80-65, the Neenah Rockets face another tough hurdle Friday in Kimberly. The Papermakers sank New London, 74-46, last week.

Kaukauna will be trying to recover from its heart-breaking loss at Shawano. The Indians could, however, make a serious bid for contention by scaring away the Ghosts.

Jim Schroeder, who came up with the best offensive performance in the circuit last week, will lead his Two Rivers mates into New London. Schroeder connected for 28 points against the Rockets, making 11 from the floor and a half-dozen from the line.

All four of the top teams and Neenah were given good chances to capture the M-E title prior to the firing of the first shot. Two Rivers and Neenah are defending co-champions.

Kimberly, with Lee Levknecht showing exceptional improvement over his sophomore season last year, can gain top consideration with a victory at Neenah. The Rockets rely on a balanced attack featuring Dick Rogness, Dick Kuehl and Dave Neubauer.

NEW YORK — Bobby Barfels, 151, New York, outpointed Danny Garcia, 150½, Dominican Republic, 8.

Justice White Speaks Out Against the Critics of Football

Calls for More Participation on Intramural Level

BY JACK CLARY
NEW YORK (AP)—Touch Football, often called the sport of the New Frontier, was thrust suddenly into the fore of the National Football Foundation's annual Hall of Fame festivities by no less a personality than Byron Whizzer

Stockbridge '5' Rallies to Tip FVL, 55 to 49

WHITE, associate Justice of the Supreme Court.
Justice White, a former All-America at the University of Colorado and later a professional star halfback with Pittsburgh and Detroit, received the foundation's Gold Medal Award for outstanding contribution to football Tuesday night.

While tracing the history of football from ancient times until the present, Justice White suddenly changed his theme.
"Then came a major development—the game of touch football was popularized by a family in Massachusetts," he said.

The crowd of more than 1,500, including President Kennedy's two brothers, Attorney-General Robert F. Kennedy and Massachusetts senator-elect Edward (Ted) Kennedy, broke into laughter.

"The rules of the game are vague," continued Justice White, and again the crowd laughed. "This little group has the right to change the rules in the midst of a game."

More laughter.
"The season begins in September on the banks of the Potomac and continues till May Training is done on the sandy beaches of New England with the stipulation that the sand cannot be more than six inches in depth."

"I have never seen it because spectators are barred," he added, as the crowd roared again. "But they say that even women are allowed to play."

"However, we will continue to watch developments of this game for some time to come."

Justice White, who was President Kennedy's first appointee to the Supreme Court, spoke out against the critics of football for demeaning the sport because of injuries.

"No game can carry on without

Union Agrees To Kaukauna Wage Increase

3 Per Cent Hike Is Acceptable, Councilmen Told

Kaukauna — The City Employee Union has informed the common council a 3 per cent wage increase for 1963 is acceptable.

Earlier the union had been negotiating with the board of public works for a 10 per cent increase without success. The letter indicated the union membership voted to accept the increase to keep harmonious relations with the city.

Other details on the union contract regarding grievance procedure, length of probationary period and terms of contract will be worked out between union representatives and the city attorney with the approval of the board of public works.

Plans and specifications for installation of culvert pipe in ravine area in Ward 5 prior to fill work and the making of a roadway were approved. The pipe is being installed jointly by the city and the Thilmany Pulp and Paper Company.

Public Hearing

Thilmany plans to use industrial solids to fill the ravine and cover the culvert, thus providing the city with access to useable city owned land. A public hearing on rezoning the ravine area owned by the city, from residential to heavy industrial was set for Dec. 18.

Aldermen voted to drop the contract with Van Daalwyk Construction to provide emergency snow removal equipment for the city in event of serious storms. The proposed street would connect Main Avenue and Island Street.

A request for sanitary sewer to service low lots on Seventeenth Street was received and aldermen instructed a letter be sent owners indicating the city would consider installation if the owners would assume cost of a pumping station, sewer laterals and sewer main.

Accident Victim Is In Good Condition

NEW LONDON — The condition of Russell Jones, 19, has been termed good by his doctor. Jones was injured in a one-car accident early Saturday morning on U. S. 45 at Sugar Bush Corners. A companion, James Dahms, 15, was killed.

Jones had been unconscious, but now is improving, his doctor said Tuesday. He is expected to leave the hospital within a few days.

secure equipment when most urgently needed.

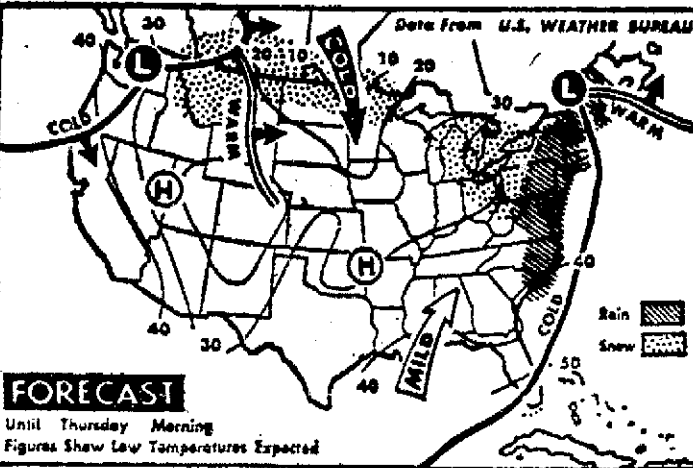

Aldermen voted to accept E. Twentieth Street pursuant to satisfactory report from the city engineer.

Richard and Joseph Lehrer, operators of the dumping area used by the city, asked the council whether the city would be willing to accept a \$300 monthly additional charge for dumping rights if an incinerator were erected at the dump. The owners suggested aldermen consider the proposal and give them an answer by Dec. 18.

The city engineer was authorized to meet with the Electric and Water Utility to work out a right-of-way for a proposed roadway south of the new high school. The engineer was also to investigate cutting of trees and providing a rough grade for the roadway.

The proposed street would connect Main Avenue and Island Street.

A request for sanitary sewer to service low lots on Seventeenth Street was received and aldermen instructed a letter be sent owners indicating the city would consider installation if the owners would assume cost of a pumping station, sewer laterals and sewer main.

Snow Flurries Are forecast for the Lakes area and more general snow is in prospect for North Dakota and Minnesota. It will be cooler in the Lakes area and Mississippi Valley. (AP Wirephoto Map)

Appleton, Twin Cities Men Among Heart Fund Sponsors

W. E. Buchanan, Appleton, and A. Randall, attorney; William F. Rasche, retired director, Vocational and Adult Schools, and Joseph W. Simpson, Jr., executive vice president of the State Heart Association's 1963 Heart Fund Campaign.

Dr. William B. Hildebrand, Menasha, state campaign chairman, reported that the goal for the state has been set at \$616,000.

The 1963 sponsors include (from Milwaukee) Walter Harnischfeger, board chairman, Harnischfeger Corp.; William C. Heller, Jr., investor; Charles F. Ilsley, Rev. William F. Kelley, S. J., president, Marquette University; J. Martin Kloische, profost, University of Wisconsin-Milwaukee; Clif-

Also included are: (from Green Bay) Vince Lombardi, Green Bay Packer coach; George Kress, president, Green Bay Packaging, Inc.; and John M. Rose, president, Kellogg-Citizens National Bank. Sheboygan sponsors include W. A. Reiss, Jr., president of the C. Reiss Coal Co. and Robert E. Kohler, board chairman and president, Vinyl Plastics, Inc.

Ziegler and Co., president; Wilbur N. Renk, Sun Prairie, vice president, William F. Renk and Sons, and James T. Wilson, Kenosha, chairman of the board, First National Bank.

Man, 65, Found Dead at Home

Walter C. Wenzlaff, 65, 1724 N. Ulman St., was found dead in his workshop at the rear of his home shortly before 3 p.m. Tuesday by his sister, Mrs. Melinda Steiner.

Wenzlaff was a retired city sanitation department employee. He was born July 7, 1887 in the Town of Osborn.

The Appleton Fire Department was called to administer oxygen. Wenzlaff was pronounced dead by a family doctor. Outagamie County Coroner Bernard H. Kemps ruled death was due to natural causes.

Kaukauna Man Pays For Being Disorderly

KAUKAUNA — Joseph Porto, 41, 110 Doty St., Kaukauna, was fined \$15 and costs when he pleaded guilty of disorderly conduct before Oscar T. Jahns, municipal justice of the peace Monday.

Porto was arrested by Kaukauna police for fighting in a local tavern.

Unionization Attempt Fails In Chilton Plant

United Steel Workers Withdraw Petition For NLRB Election

CHILTON — Another attempt to organize labor at the Aluminum Specialty Co. plant here has ended in at least temporary failure.

The United Steel Workers of America, the initial organizers in the recent labor movement at the Chilton plant, withdrew its petition for a National Labor Relations Board election thereby cancelling the vote by the workers scheduled for Friday.

Company officials at the firm's main office in Manitowoc were

notified of the developments in a wire from Ross M. Maddes, regional director of the NLRB in Chicago. The Chicago NLRB approved the Steel Workers request to withdraw its petition and acted "with prejudice" on the union's right to refile for an election for the same employees within six months.

Both Unions Fail

Also playing a role in the NLRB's decision to cancel the election was the lack of an adequate showing by an intervening union, Allied Industrial Workers of America. The latter group attempted unsuccessfully to organize the plant several years ago but apparently was unable to secure enough pledged support to swing an NLRB election. When the steel workers obtained a sufficient number of pledged workers, Allied Industrial Workers of America intervened for a place on the ballot.

Both unions failed in an attempt to organize the firm's Manitowoc plant when a majority of workers

Cold Front Brings Rain, Light Snow

BY THE ASSOCIATED PRESS

The cold front passing through Wisconsin brought rain to all sections of the state early this morning while the northern and western sections reported snow flurries. Even though temperatures

there voted for "no union" at a Nov. 13 NLRB election.

The plant at Chilton formerly employed about 200 persons but this was boosted to almost 300 during the last year when the firm considered an expansion project at Chilton. The expansion was slated for the past summer but never materialized.

dipped throughout the state they were still above normal.

At mid-morning cloudy skies prevailed over the state.

La Crosse hit a state high of 51 Tuesday. Racine followed with 50 while Milwaukee and Wausau both reported 48. The low during the night was 19 at Superior.

The snowfall in northern and western Wisconsin was negligible but at mid-morning Marquette, Mich., reported that 2 inches had fallen in the past 6 hours.

Brownsville, Tex., reported 85 Tuesday, the nation's high temperature. A 5 degree reading at Douglas, Wyo., was the low.

Squadron to Mark 26th Anniversary

Mayor Proclaims Civil Air Patrol Week; Urge Greater Participation

The Fox Cities Composite Squadron of the Civil Air Patrol is celebrating its 26th anniversary. The program is designed to increase pilot proficiency and techniques of a volunteer civilian auxiliary of the United States Air Force.

Appleton Mayor Clarence Mitchell has proclaimed Dec. 1 through 7 Civil Air Patrol Week in Appleton. He urged that Appletonians visit the CAP meetings and learn more of its activities for youth and the community.

The Fox Cities Squadron picked the CAP birthday week to kick-off a newly instituted program of courses for pilots and others interested in aviation. The program is designed to increase pilot proficiency and techniques of a volunteer civilian auxiliary of the United States Air Force.

Consolidation Asked by Two In Fur Theft

Chicago Women Seek Trial in Columbia County Courtroom

An application to consolidate Outagamie County charges against two Chicago women who are charged with theft in four Wisconsin counties is being considered today by Outagamie County Dist. Atty. Nick F. Schaefer.

Schaefer today received the application from Miss Geraldine Gay, 29, and Miss Angela Jones, 23, asking that consolidated charges be tried in Columbia County, presumably before Judge James Daley.

According to the application, the parties agree to "plead guilty and be sentenced for said offenses in Columbia County, and to waive any right to be tried in Outagamie County." The applications were signed by Miss Gay and Miss Jones.

The charges in Outagamie County came from a reported theft of \$1,300 in fur pieces from the Geenen Department Store in April. The two women and two men companions were arrested at Mauston, April 17. A preliminary hearing was held in Outagamie County Court, Branch 2 July 25 and Miss Gay and Miss Jones and the two men were bound over for trial.

The two women along with Willie Williams, 23, and Eddie King, 29, are scheduled to appear Friday in Outagamie County Court, Branch 1, for a court decision on a motion to dismiss evidence in the trial. The motion is based on grounds of illegal search and seizure.

Schaefer said no consolidation proceedings have been started for Williams and King. Charges against the two men have been dismissed in Winnebago County. The two men remained in the car while Miss Gay and Miss Jones entered the store, according to police reports.

King has been confined in the Outagamie County jail since July. The other three have been free on payment of \$5,000 bonds.

UW Sorority Will Be Allowed to Stay on Campus

MADISON (AP)—Delta Gamma Sorority, threatened with ouster from the University of Wisconsin because of discrimination practices, has been allowed to remain.

A investigation of the sorority's membership practices was begun by the Human Rights Committee of the Wisconsin faculty after the chapter at Beloit College was suspended by the Delta Gamma national council after it pledged a Negro in March.

The decision allowing the sorority to remain at Wisconsin was made by the faculty Monday night after Clarence W. Olmstead of the Human Rights Committee said a review had shown a change of policy by the national organization.

60-Day Jail Term for Theft of Cigarettes

OSHKOSH — County Branch 3 Judge James V. Sitter Tuesday afternoon imposed a 60-day county jail sentence on Frank Van

Former Businessman Dies at Clintonville

CLINTONVILLE — Frank Bucholtz, 64, 78 Brent St., died Tuesday afternoon at his residence from a heart attack. He had been in ill health for several years. Survivors include his widow, a

daughter three brothers, one sister and five grand children. Bucholtz owned and operated a tavern from 1937, when he purchased it from his father, until 1952 when he sold it because of ill health. He continued to operate a liquor and beer store, which he had opened in 1943, until Feb., 1961.

The Bucholtz name was well-known in Clintonville business enterprises for more than 100 years. Funeral services will be at 10 a. m. Friday at St. Rose Catholic Church with burial in the parish cemetery. Friends may call at Heuer and Sievers Funeral Home.

2 Fox Cities Educators at Science Talks

Meeting Designed To Show Changes New, Complex Field

Appleton Assistant Superintendent of Schools William H. Spears and Dr. Donald Scott, Neenah superintendent of schools, were among eight Wisconsin educators who attended a regional conference of school administrators on new science curricula in Chicago Sunday through Tuesday.

The conference was sponsored by the American Association for the Advancement of Science, with the cooperation of the U.S. Office of Education, under a grant from the National Science Foundation. The purpose of the meeting was to acquaint school administrators with the rapid changes going on in the field of science and the effect this is having on the science curriculum in the schools. The conference was held for administrators rather than science teachers, Spears said, because the administrator is a key person in revising the curriculum, and must be aware of the changes.

Earth Science
The conference included sessions on earth science, physics, chemistry and biology curricula. A researcher, a university professor and a high school teacher

spoke at each session. The opening address was given by George W. Beadle, president of the University of Chicago.

The emphasis for each of the subjects was on reasoning and problem solving, Spears said. Conference speakers pointed out that "physics is moving from the doorbell stage, chemistry from the cook book stage, and biology from the pickle-barrel stage" to programs of experimental problem solving, he said.

Study Program
The new Biological Sciences Curriculum Study program now is being used by about half of the Appleton High School sophomores studying biology. The Appleton school system experimented with an earth science course for fifth through ninth graders last summer, and tentative plans are being made to add it as a full-year course in the eighth grade next year, Spears said.

The new physics and chemistry curricula are not yet being used in the Appleton system. Additional physical facilities will be needed for expansion of the science curriculum, particularly at the junior high level, Spears noted. Most junior high science now is presented in demonstrations by the teacher because of limited facilities.

South Korean Junta Lifts Martial Law

SEOUL, South Korea (AP)—The South Korean military junta today lifted martial law, in effect since the May 1961 coup that brought the military rulers to power. The action came 12 days before a new constitution proposed by the junta will be put to a referendum.

Menasha Citizen Jailed at Chilton

CHILTON — A Menasha man arrested the second time for driv- ing after revocation of his driver's license has been fined \$105 and given the mandatory 4-day jail sentence by Calumet County Judge D. H. Sebra. Kenneth R. Schumann, 21, 352 1/2 water St., Menasha, pleaded guilty of the offense when he appeared Monday in County Court. He was arrested Nov. 3 by State Police in the town of Harrison. Schumann's license was revoked in April. If the fine imposed remains un- paid, Judge Sebra ordered an additional 25-day jail term with Hu- ber Law privileges.

Directors of Junior Choirs that will sing in the annual junior choir festival at 3 p.m. Sunday in the Lawrence College Chapel speculate on where they will find room on the stage for the 480 young singers. Choirs from eight Appleton churches will take part in the festival. In the back row, from left, are Mrs. William Spetch and Mrs. Gene Brinkman. In front are Mrs. John Marshall and Mrs. Leonard Warner. (Post-Crescent Photo)

F. Wade Combined Chords Echo by St. James Junior Choir Benediction Rev. James L. Vahey Postlude: The Heavens Declare the Glory of God Marcello

Tuesday night in Pittsburgh, Salinger said. "Information has never been more accessible in Washington than it is today." He took newspapers to task for what he called their failure to deal effectively with irresponsibility within their own ranks. But there is also within the Kennedy administration the kind of story that is fed or leaked to reporters and damages key people around Kennedy. Two ex- amples: The cases of Chester Bowles and Adlai E. Stevenson. Back in 1961 Charles L. Bartlett, close personal friend of Ken- nedy and The Chattanooga Times, wrote that Bowles, then under- secretary of state but not for long, had created a sense of disorder in the State Department and would continue to do so while he kept his job. Bowles wasn't dropped immedi- ately. But from then until he was removed, and given a job as special adviser to Kennedy, rumors persisted he was on his way out. Now in this week's Saturday Evening Post, Bartlett, but this time along with Stewart Alsop, who is said to have fine contacts within the administration, reported on the "harried, secret" Oc- tober days when Kennedy and his advisers decided on a showdown with Russia over its missiles in Cuba. Secret though all this was sup- posed to be, Bartlett and Alsop report on who said what to Ken- nedy. But when they get to the part played by Stevenson, U.S. ambassador to the United Na- tions, they quote a "nonadmiring" official as saying Stevenson "wanted a Munich" by making concessions to Russia. A new storm broke: Was the administration getting ready to bounce Stevenson, as it bounced Bowles? Unless Kennedy now pub- licly backs Stevenson his value at the United Nations seems badly damaged. Disliked Men Nothing here is intended to sug- gest Kennedy himself did the feeding or leaking about Bowles

Kaukauna Adopts Budget Calling for Tax Rate of \$46

Total Figure Is \$3,253,119 of Which \$1,181,456 Must be Raised

KAUKAUNA — The common council Tuesday night adopted a 1963 budget of \$3,253,119 of which \$1,181,456 is to be raised through the tax levy based on a rate of \$46 per \$1,000 assessed valuation. The budget, including county, state and school charges, is \$183,256 higher than 1962 when \$1,065,647 was raised through tax levy on a \$41 per \$1,000 assessed rate. Largest single item in the budget is high and grade school opera-

Little Chute Passes Budget Of \$410,624

Levy Requires Rate Of \$47 Per \$1,000 Within District 1

LITTLE CHUTE — With no one appearing in defense or opposition, the Little Chute Village Board approved a 1963 budget of \$410,624 following a budget hearing at Village Hall Tuesday night. The total tax levy is \$296,851. The levy requires a tax rate of \$47 per \$1,000 assessment to residents in School District No. 1 and a \$47.79 per \$1,000 assessment to residents in School District No. 2. The budget was approved without change as published Thursday.

Trustees discussed work on Charter Ordinance 2, which would make the village assessor's job appointive rather than elective. Village Attorney Urban VanSusteren said the board would have to pass the ordinance and publish it.

Filing Petition
Sixty days after publication, the ordinance would take effect, he said. However, if a petition for referendum is signed by 130 voters and filed before the deadline, an election would have to be conducted, said VanSusteren.

VanSusteren suggested that the board hold action until after the spring election. The board tabled the ordinance for further action.

Joseph Mollen, route 1, Kaukauna, appeared to complain about curb and gutter work done on the frontage of his land.

Mollen said the level of the sidewalk was so high above the road that he could not drive his car from the driveway without scraping the rear bumper.

Trees Damaged
He also said several trees were damaged when new curb and gutter was put in. Mollen said Village President Paul Koska saw the damage and agreed to have tree surgery performed, but nothing was done. He said he finally paid to have the work done.

He asked the board to have the curb and gutter situation taken care of and to repay his tree surgery costs of \$55. The board refused to take action on the curb and gutter, but agreed to pay half the surgery costs.

The board was informed by the State Highway Commission that it received the responsibility of establishing speed limits on County Highway 00, old U. S. 41, when new U. S. 41 opened.

Police Chief Robert Nechodem said because no houses are closer than 500 feet from the road, the speed limit cannot be set at less than 35 mph. He suggested a limit of 35 to 40 mph, because of children in the area. The matter was referred to the ordinance committee.

Five Members of the Kaukauna Golden Age Club gather daily in clubrooms at city hall for an afternoon of cards. Ages of the five total 424 years. From left foreground are Nic Kolf, 87; Herman Paschen, 89; Joseph Mathis, the youngster at 77; Charles Paschen, 90, and Ted Weber, 81. (Post-Crescent Photo)

'Outside Chance'

Parking Ramp May be Opened This Weekend

City officials were told Tuesday there is "an outside chance" the new bi-level parking structure at Washington and Division Streets will be opened to the public this weekend.

At a meeting of the board of public works, William Collings, Milwaukee, the consulting engineer for the project, said that "for sure the lower ramp will be open for parking cars on Monday."

Originally, the time schedule called for the completion and opening of the ramp in early November.

Collings said only the lower portion of the ramp could be occupied next week, and predicted that parking could be permitted on the upper ramp by Dec. 17.

Bad Weather
"It would take some very bad weather to upset the upper ramp

opening date," Collings told the board.

Because the parking structure is being completed and opened later than anticipated, city officials have decided to postpone a dedication program they had planned for Dec. 18. They have indicated such a program will be held later.

Mayor Clarence Mitchell repeated again Tuesday that "the first thing we should do is get the cars in there and then think about a dedication."

Between now and the time the lower parking area is opened, crews will be carrying out clean-up operations.

Approve Plans

In another development, the board approved the preliminary plans and specifications for a \$600,000 parking structure to be constructed in the downtown area sometime next spring. It will be located in the area bounded by Washington, Morrison and Franklin Streets.

Collings will bring final working plans to the board for approval within the next two weeks.

Disappearance of Rhinelander Girl Linked to Skeleton

RHINELANDER (AP) — The discovery of a human skeleton and torn clothing in a forest area Tuesday has been linked to the disappearance of a 23-year-old Rhinelander woman six months ago.

A pair of high heeled shoes, a torn blue dress and a human skull were found by Mr. and Mrs. James R. Roessler of rural Rhinelander as they searched for fishing worms about 50 feet from a town road some seven miles west of Rhinelander.

The search was expanded by Oneida County Deputy Sheriff John Vanney, and turned up other parts of the skeleton, the remainder of the dress and a light-colored coat similar to one worn by Miss Edna Mae Mount who was last seen June 2 when she left her home to keep a date with an unidentified man.

Authorities said the position of the shoes indicated the victim had been fleeing into the woods when she lost them. Parts of the skeleton were found over a wide area.

Authorities said there was no identification, and Coroner Bernard Bozile said the State Crime Laboratory would be contacted.

Relatives told police that on the night of the disappearance Miss Mount had taken her 6-year-old son downtown, returned in a car, put the boy to bed and went out again. The companion was not seen by relatives.

2 Persons Suffer Minor Injuries

NEENAH — Two persons received minor injuries in separate accidents Tuesday with one of them being taken to Theda Clark Hospital in the Neenah ambulance for treatment, police reported.

Taken to the hospital was Mory Stuebs, 6, son of Mr. and Mrs. Orlie Stuebs, 961 Higgins Ave., who collided with a car driven by Mrs. Carla J. Kieper, 218 Jane Court, on Higgins Avenue at 2:37 p.m. Tuesday. Mrs. Kieper said the boy darted into the right side of her car and then fell back to the pavement. He received bruises to the left arm, left leg and face.

Mary J. Wainwright, 18, 454 Emerson St., Neenah, received a cut upper lip when her car and one driven by Mrs. Eloise A. King, 526 Plummers Harbor, collided at the Kessler Drive and Congress Street intersection at 5:28 p.m. Tuesday.

Sentencing Set for Man Who Left Jail

OSHKOSH — Sentencing was set for next Monday for Karl Klinger, 3, route 2, Omro, who pleaded guilty this morning of walking away from Winnebago County jail Nov. 26 while serving under the Huber Act.

He was returned to the jail the next morning by his sister. He had been serving a 90 day sentence for disorderly conduct.

Charge Laxity in Handling Billings

Suggest Field Be Named for Doty Bayorgeon

Recreation Area In Kaukauna Studied By Common Council

KAUKAUNA — The common council Tuesday night heard a resolution prepared by the Electric and Water Utility Commission urging aldermen to name the new athletic field area the "Doty Bayorgeon Recreation Area."

The resolution was signed by the utility manager and all commission members, with the exception of Mayor Joseph Bayorgeon. It pointed out the athletic area would never have been a reality if Mayor Bayorgeon, through long-range planning, had not secured the land and earmarked the area for such a purpose many years ago.

The resolution indicated the mayor was responsible for improvements being made at the field by the utility commission. The resolution was referred to the health and recreation committee for study and recommendation.

Make Recommendation

The council authorized the finance committee to study recommendations of the public and protection and safety committee calling for a 3 per cent pay increase for members of the police and fire departments, setting aside funds for two additional men in the fire department, raising the fire inspector's salary from \$60 to \$360 per year and granting a \$200 per year car allowance to the fire chief.

Also to be studied by the finance unit are creation of the offices of captain within the fire department with a \$15 per month salary adjustment above regular firemen, raising the police clothing allowance from \$60 to \$75 per year and reduction of police working hours from 42½ to 40 hours per week with the understanding no additional policemen would be needed.

Increases Proposed for Study

The city engineer was authorized to meet with the county highway commissioner to ascertain responsibility for maintaining County Trunk Z within the city limits. City officials have been receiving complaints about the condition of the road at the eastern limits of the community.

Bond Set for Two On Bad Conduct

OSHKOSH — Bond of \$200 for trial Jan. 8 was set for Leo Ruth, 59, 630 W. Tenth Ave., Oshkosh, who this morning denied charges of resisting arrest and disorderly conduct.

Ruth allegedly made threatening telephone calls to a man who formerly was his boss and then resisted officers when brought to the Oshkosh police station for questioning Tuesday night.

Bond of \$200 also was set for a 12-man jury trial March 21 for George Harper, 42, 318 Fifth St., Winneconne, who pleaded innocent of disorderly conduct.

He was arrested at his home Tuesday night by Winneconne police.

Works Department, Ex-Director Blamed for Loss of Revenue Which May Total Thousands of Dollars

BY WILLIAM CAREY
Post-Crescent Staff Writer

The department of public works and its former director, Edwin J. Duszynski, were blamed Tuesday for being lax in handling special assessments over a period of several years, resulting in the city's failure to collect thousands of dollars.

During a hectic meeting of the board of public works, which at times saw aldermen reach the shouting stage, Ald. Harold E. Hannemann (10th) threatened to take the entire matter up before the common council tonight.

In recent weeks there has been strong feeling among some aldermen that an investigation should be conducted to determine how many special assessment projects have been carried out by the city without property owners being billed.

"There are hundreds of incidents," said Acting Public Works Director Henry Crowe, who in recent months has been checking some of the records and having bills sent to property owners for work done as long as six years ago.

Apparent By-Pass

Members of the board are also discovering that Duszynski apparently by-passed them in dealing with contractors and taking some change orders on the new sewage disposal plant addition now under construction. This was indicated by the consultant and contractor for the project, who attended the meeting on another matter.

Crowe, who at one time served as city engineer, said when it came to some special assessment billings, errors were made in not sending out bills to property owners or "they were just forgotten about."

Sparkling the outburst Tuesday by board members was the appearance of a city resident who said he recently received a special assessment billings for improvements done to property about six years ago. The resident told the board he did not own the property at the time and when he purchased it city officials told him there were no assessments or other charges pending.

The man who sold him the property was also present and said he had been aware of some hospital where treatment and rest-street and sewer improvements

being made and had paid a bill of \$690 to the city in special assessments a few months after he sold the land. The resident said he had no idea that the city had an assessment charge pending.

Reynolds Tours State Hospital

Governor-Elect Begins Inspection Of Institution

WAUPUN (AP)—An inspection of Central State Hospital, the maximum security institution for Wisconsin's mentally ill, opened a two-day tour by Governor-Elect John W. Reynolds today.

On the bus ride from Madison to Waupun, Department of Public Welfare officials outlined a 1963-65 budget request of \$47.7 million for its programs for the mentally ill. The figure is a \$7.9 million increase over appropriations for 1961-63.

Department Director Wilbur Schmidt said the increase is in keeping with Wisconsin's extensive program of treatment and rehabilitation. He said a large share of the added funds would be used to pay staff costs at hospitals, clinics and treatment centers.

340 Capacity

Central State has an average capacity of 340 male inmates. Those housed here come from other penal institutions that found them unmanageable, and from courts where they were judged incapable of standing trial for serious crimes.

Schmidt pointed up the change in emphasis Wisconsin has made in dealing with the mentally ill by reminding newsmen traveling with Reynolds that Central State Hospital formerly was known as the institution for the criminally insane.

"This has been changed," Schmidt said, "this institution is not simply a place where psychotic and chaotic prisoners are kept, but a place where treatment and rehabilitation is the purpose."

Second Low Insurance Bid Okayed by Board

Public Works Unit Suggests Keeping Hardware Mutuals

The Appleton Board of Public Works failed Tuesday to award the contract for workmen's compensation insurance for all municipal employees to the company submitting the low bid.

It recommended that the contract for the coming year go to Hardware Mutuals of Wausau, which presently provides the coverage. The firm, represented by W. R. Kupfer, submitted a bid calling for an estimated net annual premium of \$21,245.59 to be paid by the city.

The low bid—by \$4.07—was submitted by Employers Mutual Casualty Co., Milwaukee, which was represented by Allen Bubolz of

Appleton. His firm's bid was in the amount of \$21,241.55.

Bubolz told the board this was the first year his firm had bid on the city's insurance program and urged favorable consideration.

Identical Bid

Employers Mutual of Wausau, represented by K. J. Benson, submitted a bid of \$21,245.59, identical with that of the other Wausau company.

A fourth bid was received from Morrissey and Lang Co., Appleton, but was based on a retrospective type of coverage plan which the board did not want to consider. Today, City Clerk Elden Broehm said Bubolz had "made a mistake in his computation" and indicated Employers Mutual Casualty Co. as a result was not the low bidder. Broehm said that based on the formula used for computing the insurance coverage

figures, the bid submitted by Bubolz should have come out \$21,245.59 as did the other two. However, Bubolz said he had been contacted by Broehm and told of the "apparent error of \$4.07" and decided to recheck his figures.

Same Figure

"I came up with the same quotation which puts my bid \$4.07 lower than the others," Bubolz said.

"I intend to talk to him (Broehm) about this because I rechecked my figures and I found no error," Bubolz admitted.

Ald. Alvin Tews (5th) made the motion to approve the bid of Hardware Mutual, commenting, "It's only a difference of \$4 and I feel this firm has done a good job for us and we should continue with them."

City Atty. Frederick Froehlich volunteered his opinion that "you don't have to necessarily take the low bid."

In other action, the board opened bids for gasoline for the city in 1963 and accepted the 12.009 cents per gallon quotation of Texaco, Inc., 2119 N. Quincy St., Green Bay. It was the lowest of eight bids received.

Women Work at the First Congregational Church mending clothing and making sewing bags for the Church World Service clothing drive now being sponsored by the Appleton Council of Churches. From left are Mrs. K. W. Harkins and Mrs. Delmar Stark of the First Congregational Church, and Mrs. Walter Schneider of the Emmanuel Evangelical United Brethren Church. Churches in Appleton or other communities which have blankets, quilts or good used clothing to donate to the drive may deliver it to the First Methodist Church, 325 E. Franklin St., Appleton, from 10 to 11 a.m. on Dec. 12 or 17, preferably the latter date. (Post-Crescent Photo)

Pupils at Foster School work in front of a teepee with articles in their Indian exhibit. From left are Fred Pappe, Rolf Peterson, Martin Hinty and Lori Kling. (Post-Crescent Photo)

'Social Ramble' Has Delegates Scrambling

UNITED NATIONS, N.Y. (AP) — "It's grim enough dealing with the average delegate usually winds up his day being the diplomat, staring glumly at the smoke-filled the milling throng of drinkers, room. To fight your way through this Stand in Line With 110 member nations deter-line up to half an hour to pay mines to wine and dine each other his respects to the host amba-

Then he is free to battle rics that most U.N. parties fea- his way through the packed room- ture, he has the final problem of finding a place to sit. After a three-week round of U.N. receptions and banquets dur- taches himself to another long his 1960 visit to the assembly. Soviet Premier Khrushchev told a newsmen: "This life would beef or one of the volcanic cur-make a stone sick."

Ten years ago the United Na- tions had fewer than 60 members. A delegate averaged a couple of small parties a week during the session. Now he often attends two or three affairs in one evening. Diplomatic Etiquette By the time the assembly is over he has gone to more than 80 such functions and consumed enough spiced food and strong drink to turn the ordinary stom- ach to sude. He faithfully makes the rounds because diplomatic etiquette re-

quires it, and he hopes to pick up useful information chatting with fellow delegates. The late Dag Hammarskjold avoided social functions, but he once described the U.N. recep- tion as a fruitful field for quiet his busy work schedule. With the rapid growth of the United Nations, receptions have become so jammed that it is dif- ficult for a jostled delegate to in- dulse in any quiet lobbying.

AVS to Offer Class for CD Instructors

Individual, Family Survival Courses Will be Organized

A course for instructors of Civil Defense survival classes will be offered at the Appleton Vocational and Adult School, starting Dec. 11.

The course was announced by Carl Bertram, AVS director, and Lee Penney, Appleton - Outagamie County Civil Defense director.

Classes in "Individual and Family Survival," a course of instruction for personal and family protection in case of a natural or man-made disaster, will be organized as soon as possible after instructors are qualified, probably starting in February.

The state-wide Civil Defense adult education program is being administered by the State Board of Vocational and Adult Education and the United States Office of Education. It is financed by a federal grant which Congress approved as part of the Office of Civil and Defense Mobilization budget for educational purposes.

Persons enrolling in the course for instructors must have a license to teach in Wisconsin. A science background is considered advantageous but not essential.

Enrollment Sought
An enrollment of 15 persons from Outagamie County is being sought, and several instructors from Neenah and Menasha also will take the course. Superintendent of Schools Royce E. Kurtz is trying to enroll teachers for the course from the public school system.

The course for instructors will be taught by Donald Heimlich, supervisor of Civil Defense and adult education with the State Board of Vocational and Adult Education, Madison.

The course is tentatively planned to meet in six 2½-hour sessions, from 7 to 9:30 p.m. on Dec. 11 and 18 and Jan. 8, 15, 22 and 29. If the group prefers, the course will be conducted in five three-hour sessions.

Those completing the course will receive a certificate issued their community. Penney said his office does not intend to teach survival courses. They will be reimbursed for the general public. However, a teaching these courses by the Appleton Vocational School at the covered in his classes in radiology for evening school teachers, local monitoring and police services, he said.

Penney will attend one session of each survival class and briefly explain local Civil Defense plans for the emergencies.

The 12-hour survival courses for adults will be offered by the Appleton Vocational School in cooperation with the city - county Civil Defense Office. They can be conducted in any community, Penney said. Many people do not realize there is a master plan, he noted.

Bruce F. Beilfuss For High Court Group Named

A Bruce F. Beilfuss for Supreme Court Committee is being formed on a state wide basis, Judge Beilfuss announced today.

Judge Beilfuss has appointed Atty. Philip B. Morrissey of Elkhorn to coordinate his state campaign for Supreme Court.

Judge Beilfuss is well known throughout the state and nation for his stand on allowing news media to have live courtroom coverage.

The circuit judge is also well known throughout the state for having concluded the Sauk County (Jantz) murder trial in Madison, one of the longest in the state's legal history.

Judge Beilfuss, 47, is a University of Wisconsin graduate, veteran of World War II, veteran circuit court jurist, former district attorney of Clark County, chairman of the board of circuit judges, member of the Wisconsin Bar Association, Clark County Bar Association, and county board supervisor of Clark County.

Prize Photos on Public Display

A selection of prize-winning photographs from the annual Kodak High School Photo Awards will be displayed at Appleton High School through Dec. 9.

Winning prints of teen-agers across the country, including both black-and-white and color photographs, are featured in the exhibit. The display is open to the public from 8 a.m. to 4 p.m. in the library and the main lobby of the school.

The colorful display ranges from humorous pictures of animals and school activities to serious portrayals of people and places.

The purpose of the Awards is to encourage creative competition among young people. The competition is open only to high school students regularly attending any public, parochial or private school (grades 9 through 12) in the United States or its possessions.

Following a tour of the nation's schools, the exhibit will be shown overseas.

Persons interested in the course should contact the Civil Defense director in their community.

Penney said his office does not intend to teach survival courses. They will be reimbursed for the general public. However, a teaching these courses by the Appleton Vocational School at the covered in his classes in radiology for evening school teachers, local monitoring and police services, he said.

Penney will attend one session of each survival class and briefly explain local Civil Defense plans for the emergencies.

The 12-hour survival courses for adults will be offered by the Appleton Vocational School in cooperation with the city - county Civil Defense Office. They can be conducted in any community, Penney said. Many people do not realize there is a master plan, he noted.

Students and Instructors Met at an inter-center workshop on music at the University of Wisconsin Fox Valley Center Saturday. From left are student representatives Sheldon Niquette, Manitowoc County Center; Dianne Driver, Racine Center, and Peter Tilly,

3 Fined for Topsy Driving

Motorists Lose Cash, Operator License in Two County Courts

Two men have been fined \$150 each for drunken driving by Judge James V. Sitter, Oshkosh. They are August A. Weber, 45, 312 Lisbon Ave., Menasha, and David L. Norton, 25, 14 W. Bent Ave., Oshkosh. Each man lost his driver's license for one year.

Weber was arrested by state police Saturday at U. S. 10 and Winnebago County Trunk O after he was seen driving erratically. Weber pleaded guilty.

Norton was arrested Nov. 4 after an accident at Bowen Street and E. New York Ave., Oshkosh. He changed his innocent plea to no contest.

John Heenan, 623 E. Locust St., Appleton, changed his plea from innocent of drunken driving to no contest and was found guilty, fined \$200 and costs and had his driver's license revoked for one year in Outagamie County Court, Branch 2, Tuesday afternoon.

Heenan was arrested Aug. 10 by Appleton Police who were investigating a minor accident on College Avenue. He refused to take a drunkometer test. He appeared in court Aug. 11, pleaded innocent and was freed on bond.

His trial was scheduled for Dec. 8 but later changed to Dec. 4.

Traffic Officer Gets Embarrassing Ticket

BALTIMORE (AP)—In the lineup at Municipal Court, Traffic Division, waiting to pay for parking violations, one man stood out. He was wearing the uniform of a Baltimore policeman, Traffic Division.

Penney will attend one session of each survival class and briefly explain local Civil Defense plans for the emergencies.

The 12-hour survival courses for adults will be offered by the Appleton Vocational School in cooperation with the city - county Civil Defense Office. They can be conducted in any community, Penney said. Many people do not realize there is a master plan, he noted.

Charge Laxity in Handling Billings

CONTINUED FROM PAGE 1

and that it would bill the property years later for another \$600.

It was disclosed that Crowe has been making a review of some of the special assessment projects completed in recent years and noted that the \$600 had never been billed by the city. He called the matter to the attention of the board of public works, which authorized the city clerk to send out the special assessment bill belatedly.

Crowe told the board other special assessments, including some for snow removal, were never billed to the property owners. He cited one Appleton church as an example.

The board blamed the situation on the city engineering department, which is a division of the department of public works.

At one point, Crowe said the city installed a \$14,000 sewer on Mathias Street sometime ago and died for 20 years," Stumpf declared.

Hannemann brought the discussion to a head when he made a motion that the \$600 special assessment project which had not been billed to the property owners. The bills eventually were sent out.

Didn't Talk To Me
The acting works director, who was appointed to his present position by Mayor Clarence Mitchell after Duszynski went to Madison Oct. 1 to be DPW director there.

said because he started checking special assessment records, "one official didn't talk to me for four years," Crowe did not identify the official.

"A lot of mistakes were also made before 1954," Crowe told the board. Duszynski had been DPW director here for eight years prior to going to Madison.

Board members said they had no idea of how many special assessment projects had been carried out with no billings being made to the property owners.

ried out with no billings being made to the property owners.

City Clerk-Comptroller Elden Broehm got out his assessment records and disclaimed any blame for the late billings, or no billings being made at all.

Broehm emphasized that he obtained his figures for billing purposes from the city engineering department. He said if certain properties were not included on the engineering sheets, he had no way of billing those owners for special assessments.

Ald. Robert J. Stumpf (9th) common council president, said he was "amazed at the way these special assessments have been handled."

Been Mishandled

"It's been the responsibility of this board to get someone that is capable and reliable of handling these special assessment records; they have been mishandled for 20 years," Stumpf declared.

Hannemann brought the discussion to a head when he made a motion that the \$600 special assessment project which had not been billed to the property owners. The bills eventually were sent out.

Didn't Talk To Me
The acting works director, who was appointed to his present position by Mayor Clarence Mitchell after Duszynski went to Madison Oct. 1 to be DPW director there.

said because he started checking special assessment records, "one official didn't talk to me for four years," Crowe did not identify the official.

"A lot of mistakes were also made before 1954," Crowe told the board. Duszynski had been DPW director here for eight years prior to going to Madison.

Board members said they had no idea of how many special assessment projects had been carried out with no billings being made to the property owners.

when this board or any other city officials decide that some people should be excused from paying assessments. They should be treated no different than the others who have received billings and paid them," Hannemann asserted.

"If we start canceling these special assessment bills now, although they were sent out late, all those who receive assessments would be entitled to cancellations," Hannemann said.

"Nobody can sit here and in good conscience cancel special assessment bills," Hannemann told the board.

"If this motion goes through here today I am going to blast this thing on the council floor," he added.

Tews said he thought it would be wise to check the city's records back for several years and "bring them all out", referring to any billings which had not been made as they should have been.

Stumpf agreed to withdraw his motion, and the board then asked Crowe to bring in any other overdue special assessment billings that he knew of.

The board also spent considerable time on a matter concerning equipment to be installed at the sewage plant addition.

The board of public works was concerned that one of the change orders on the project had never been officially called to its attention until just recently.

Charles D. Thomsen, representing Greeley and Hansen Engineering, Chicago, the city's consultant, and John Wilson of Brookfield, Ill., a partner in Wilson and Taurides, general contractor, said they thought some of the instructions that Duszynski gave them had been approved by the board of public works.

Split With Dissension
Wilson and Thomsen said the ordering and installation of certain small pieces of diffusing equipment were "held in abeyance at Mr. Duszynski's request." They said Duszynski had sent them a letter to this effect.

Also brought to light at recent budget hearings and board meetings is the alleged situation which has existed in some of the de-

UW Studying Egg Buyer in Appleton

Interviewers questioning housewives on their egg-buying preferences for a University of Wisconsin survey began calling at homes in Appleton, Green Bay, Kenosha, Racine and Madison.

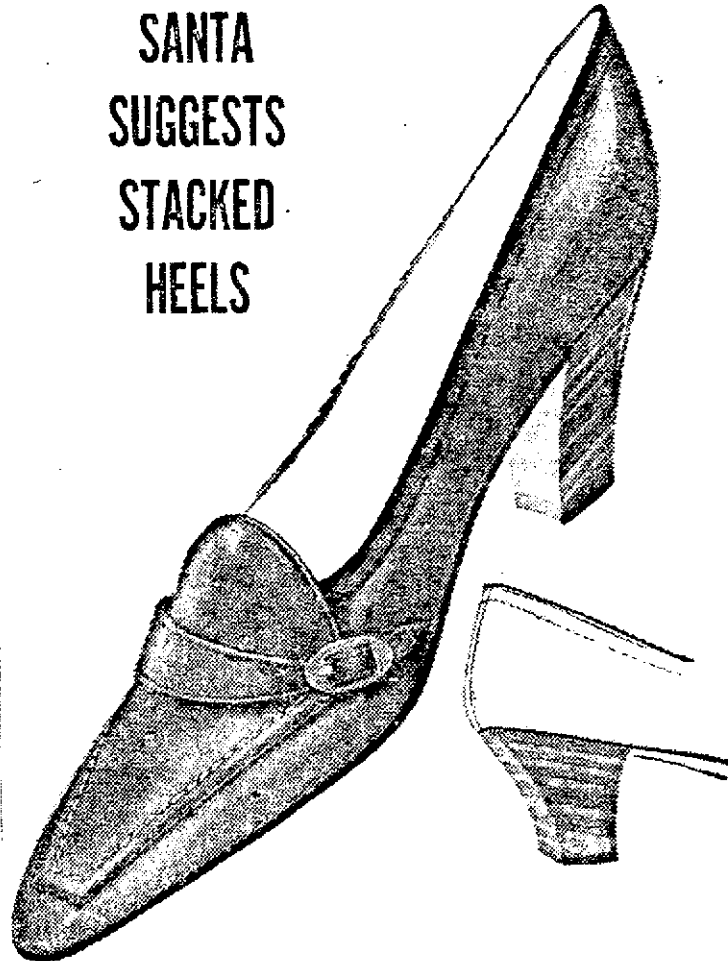

Interviewers from the UW Survey Research Laboratory are visiting 600 residences in nine cities to ask housewives whether they place eggs of higher, more uniform quality, free from off-odors of public works. Aldermen say and flavors. In spite of this, he said, some consumers are unwilling to pay the price asked for top quality eggs.

Until recently, no records have been kept on city equipment at the garage, according to statements made by aldermen and the chairman of the street - sanitation committee at budget hearings. Ald. Kenneth Loos (3rd) predicted that "some changes for the with subsequent comparison with better are going to be made."

Prof. James H. Skala, of the department, said advances in poultry science and processing technology have brought to the market place eggs of higher, more uniform quality, free from off-odors and flavors. In spite of this, he said, some consumers are unwilling to pay the price asked for top quality eggs.

Additionally, in recent years there appear to have been changes in food habits which may affect preferences for eggs, Skala explained, adding that the survey was planned to determine consumer preferences for quality, with subsequent comparison with grading standards.

Look and Learn

BY A. C. GORDON

1. What is the oldest city in North America?
2. What is a sphynxometer?
3. Who was the vice president of the Confederate States during the American Civil War?
4. What is the largest indoor theater in the world?

Answers

1. This is generally conceded to be Mexico City, which was already the teeming capital of the Aztec world when Hernando Cortez conquered it in 1519.
2. A blood pressure recording instrument.
3. Alexander Hamilton Stephens.
4. Radio City Music Hall, in New York City.

Lesson in English

BY W. L. GORDON

Words Often Misused: Do not say, "He only ate half of the loaf."

fred" Omit "of" Also, "only," should be placed next to the word "half," which it modifies. Say, GOLD. 2. FAIR, fail, fall, mail, "He ate only half the loaf" — mill, MILD, 3. LONG, bong, bang, Often Mispronounced: Steve-bans, bays, DAYS, 4. WARM, dore Pronounce steel-veh-dore, ac-harm, hard, herd, heed, weed, cent first syllable; and three syl WEEK 5 HEAT, peat, pent, pant, labors, not "steev-dore" pane, pave, WAVE 6 FIRE to-e, Often Misspelled: Crypt (a fort, foot, boot, boat, beat, HEAT.

Brain Twisters

Word Study: "Use a word three times and it is yours." Let us increase our vocabulary by mastering one word each day.

Today's Word: Mal de mer; (sea-sickness) (Pronounce maal-deh-mar, accent last syllable). "Her voyage was spoiled by recurrent spells of mal de mer."

Changeings

Change one word into another word, one letter at a time, each time forming a good word, until the desired word is reached. For example, LOVE can be changed instrument.

LOVE, love, HATE, HATE, Now (1812-43).

1. HEAT to COLD in four steps.

2. FAIR to MILD in five steps.

3. LONG to DAYS in five steps.

4. WARM to WEEK in six steps.

5. HEAT to WAVE in six steps.

6. FIRE to HEAT in seven steps.

Answers

1. HEAT, head, held, hold

2. FAIR, fail, fall, mail

3. LONG, bong, bang

4. WARM, dore

5. HEAT, peat, pent, pant

6. FIRE to-e, Often Misspelled: Crypt (a fort, foot, boot, boat, beat, HEAT.

American Socialist Captures Audience at Oshkosh College

Norman Thomas Hits Attempt to Equate Collectivism, Communism

BY DON CASTONIA
Post-Crescent Staff Writer

OSHKOSH — Norman Thomas, 78-year old leader of American Socialism, invaded this citadel of Conservatism Tuesday night and captured his audience's enthusiasm if not its political support.

Speaking before mainly Oshkosh State College students in the

Norman Thomas

second of the College Lecture Series at the Grand Theater, the six-time candidate for president on the Socialist ticket condemned efforts to equate what he called Democratic Socialism with Communism.

Thomas also called for extension of public ownership for the common good, for birth control, for reducing inequities in income, and then issued a three-point challenge to the college youth of today.

"Nothing is more stupid," he said, "than to think that socialism is a step down the road toward Communism or that the welfare state is a step toward Communism."

"It is not the countries that have extensive social programs

that are going Communist," said Thomas, "but it is the underdeveloped country where Communism makes headway."

Public Ownership

He called for public ownership of natural resources and of industry that he said was not competitive, such as steel. He said those industries could be run by special authorities such as TVA is now run.

On resources, Thomas said the individual man did not put the oil under the ground so the individual should not own it.

There are three challenges facing the college youth, he said. The first is in the field of race relations. The second is an economic challenge and the third is the challenge of war and peace.

"You young people will not live to my age unless you solve the problem of war," he warned. "Man has acquired the power of God over natural forces but not over himself," Thomas said.

He called for strengthening the instruments of peace, including the United Nations. "We cannot always keep peace by standing firm. We may be standing on quicksand."

In a question and answer period, Thomas told his audience the cost of campaigning is reducing the role of small parties. He said none of his campaigns ever had enough money to buy one hour of television time at today's costs.

He said the only way for a third party to succeed would be to win big in its first effort.

In commenting on the last election, Thomas said "it could have been worse". He said he was glad Nixon is not President or governor of California.

He admitted socialism did not have a pat answer for everything—especially the farm problem—but that Democratic Socialism was a step toward solving the world's problems.

Board Must Check Costs Says Martin

NEENAH — Sharing an opposite view of the principal speaker at the League of Women Voters' program on "Public School Financing" Assemblyman David Martin, Neenah, warned, "careful scrutiny must be made of the expense of public education. This is one area being explored in keeping with the legislature's purpose for providing property tax relief."

He said "The 1961 session of the legislature gave \$55 million in real property tax relief. In the biennium period of 1963-65, the goal is \$84 million for increasing and liberalizing aids."

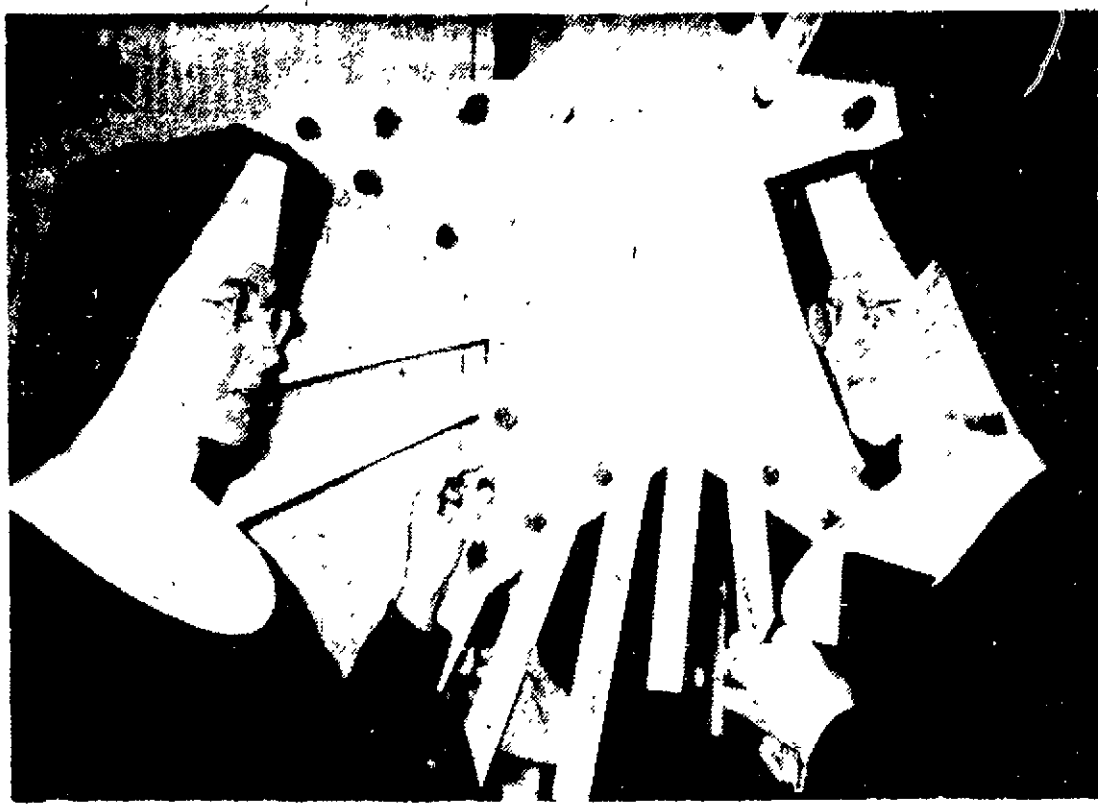

"Schools should be a local responsibility. Money should be raised at the local level and spent at the local level. The property tax load can be relieved at the state level, as recommended in the governor's 'blue ribbon' committee report last year."

"I feel the school men in their local situation know the amount they need to operate their institutions. They know the quality of education the citizens require for their children and are willing to go out and raise the money."

Twin City Students Help on Yearbook

WAUKESHA — The 1962 Hinakaga, Carroll College yearbook, which has two staff members from Neenah and Menasha, has received an A-minus rating from the National School Yearbook Association.

Judith Zimmerman, daughter of Mr. and Mrs. Arnold Zimmerman, Menasha, and Kim Martiny, son of Mr. and Mrs. Keith Martiny, Neenah, are members from the Twin City.

Sister St. Michael, principal of Sacred Heart School, Sherwood, explained a star made by pupils for a book fair. The star has colored lights which will be lighted as books are purchased to increase the school library. Supervising Sisters, at right, Sister Olympia and Sister Mary Jude look on. (Thiel Photo)

Lights Broken, Stolen As Wave of Vandalism Continues in Menasha

MENASHA — A recent series of vandalism acts which has plagued Menasha continued Tuesday night with damage reported to street lights and an uptown laundry.

Police said vandals damaged one light early Tuesday morning. Another was found smashed in the 300 block of Water Street.

Gunderson Laundry reported to police this morning that 12 lights were stolen from the establishment. Personnel said they saw youngsters running away but could not identify them.

Color Movie to be Seen At Clintonville Church

CLINTONVILLE — A color movie will be shown at 8 p.m. today at the Clintonville Bible Church, entitled, "A Beginning for Davey."

The movie was filmed at near-by Camp Wild Rose, according to the Rev Theodore Smetters, pastor.

Educator Tells Council

Menasha School Board Will Need Supplement to Budget

MENASHA — The City of Menasha Council was served notice during Tuesday night's budget hearing that the Board of Education will need a budget supplement to carry them through 1963.

At a recent Council session, city aldermen agreed to allow the Board of Education \$25,000 to meet unresolved 1962 budget expenditures.

"The City Council of Menasha is hereby notified that the Board of Education will need about \$30,000 to supplement the 1963 school who are living on pension out of budget," said Mrs. Fern L. Gaertner, school board member, said way with the ever increasing cost of taxes in Menasha.

To which Richard O. Hansen, chairman of the Council's finance committee, erupted. "I don't wish to argue this thing out, but I will say in no uncertain terms tax increases are necessary. Remember, your salaries have been the most unyielding, uncompromising group in the city. That's it!"

Retaliated Mrs. Gaertner: "We (the Board of Education) have been after the Council all year concerned, where would you be trying to arrange meetings to move to? Almost all the cities in the state have increased taxes. Moving isn't the answer."

Menasha Council Approves Record \$3.9 Million Budget, \$39.79 Rate

\$1,760,736 to Be Raised by Property Taxes

MENASHA — A record budget of \$3,925,951.80, with an accompanying tax rate of \$39.79 per \$1,000 of valuation, was unanimously approved by Menasha aldermen at a regular Council session Tuesday night.

Of the total 1963 budget, \$1,760,736.35 is to be raised via city property taxes and will be distributed accordingly: \$340,632.60 for city purposes, \$779,241.10 for school operations, \$273,460.89 for the city's share of county and state taxes, \$283,061.25 for debt service, and \$84,320.51 for vocational and adult education. Revenues from sources other than city property taxes are expected to total \$2,165,215.45.

In related action, the City Council also approved an ordinance providing for a general 3 percent pay hike for city employees and officials.

The \$39.79 tax rate officially set by the Council Tuesday night represents an increase of \$3.79 over the 1962 rate of \$36 per \$1,000 of assessed valuation. City taxpayers, however, will only pay an increased rate of \$1.51 in 1963 because of a \$2.28 per \$1,000 state sales tax rebate. The net rate will be \$37.51.

The \$39.79 tax rate is an increase of nearly double in the last 20 years. The 1953 tax rate levy, for example, was \$25.

The proportionate distribution of the \$39.79 tax rate, which is predicated upon a total assessed valuation of \$44,250,725, will be as follows: \$7.70 for city purposes, \$17.61 for school purposes, \$6.18 for the city's share of county and state taxes, \$6.40 for debt service, and \$1.90 for vocational and adult education.

The Menasha budget ordinance also specifies that the 1963 Board of Education budget shall be \$876,828 for operating expenses, \$128,173 for debt service and \$25,000 to cover a 1962 budget deficit. The city's share of the total school budget will be \$779,241, the Town of Menasha's share, \$250,769.

The total 1963 budget includes a total increase of \$13,524.25 for municipal salaries, as well as an additional \$12,864.72 increase in city office expenses.

Other major increases reflected in the 63 budget are as follows: \$28,638 for protection of person and property over the 1962 figure, \$27,446 for health and sanitation, \$445 additional for charity, \$68,515 in additional indebtedness plus interest, \$4,073 additional as the city's share of employee benefit plans, \$135 more for cemetery purposes, and a \$19,787 increase for street and other transportation facilities.

Menasha OKs \$1 Million In Insurance

MENASHA — City Council last night approved a \$1 million insurance plan for the City of Menasha, which will replace the present coverage of \$512,690, termed by agents as deficient by \$112,476.

The coverage will be shared by four companies, each of which will have one-fourth share of the coverage and of commissions.

A summary presented to aldermen prior to the council meeting Tuesday night showed replacement cost in the city at \$918,897. Appraised sound value was put at \$781,438.

1 Dead, 3 Injured In Missile Blast

EL PASO, Tex. (AP)—A Nike Hercules missile exploded 500 feet above the launching pad at McGregor Range Tuesday, killing a French lieutenant and injuring three other French soldiers and one American soldier.

The French troops were from the 520th Guided Missile Brigade attached to NATO forces. No names were available.

Over 4 Million Babies Born in U. S. Last Year

WASHINGTON (AP)—There were 4,268,326 babies born in the United States during 1961, the Public Health Service said Tuesday in reporting final figures for last year.

The birth rate for 1961 was 23.3 per thousand population, down from 23.7 in 1960.

The record rate for any year was 25.8 in postwar 1947. A rate of 25 was listed in 1915, the year federal reporting of births was instituted, and again in 1950. Since 1950 there has been a slight downward trend.

Wisconsin Man Dies In Truck Accident

CLE ELUM, Wash. (AP)—A five-ton Army truck traveling in a convoy skidded into the barrel of a 155 howitzer on U.S. 10 Tuesday killing the assistant driver, Pfc. Norman H. Calkins, 20, of Mellen, Wis.

The driver, Pfc. Willie J. Lyles, 28, of Bethune, S. C., was slightly injured in the crash, Army officials said. Both were attached to the 42nd Artillery at Ft. Lewis, Wash.

Levy Challenged By Taxpayers Unit at Hearing

MENASHA — The Neenah-Menasha Taxpayers Association challenged the Menasha budget and called for a restriction in city operations at the budget hearing Tuesday night.

Lee Rather, former alderman and spokesman for the tax group, pointed out that Menasha's real value has not grown proportionately with the increase in budgets. In addition, the increased budget for 1963 not only wiped out the promised sales tax relief but added to the tax rate, he indicated. Rather's statement included:

"In the past two years, operational expenditures for the City of Menasha (all functions, including schools) have risen by nearly \$623,000, or more than 25 percent. The increase between 1961 and 1962, and 1962 and 1963 is about the same percentage-wise. During the same period the assessed valuation of taxable property in the city rose by slightly more than two percent. Based on the total tax rate in effect in 1961 (\$36 per \$1,000), the increase in assessed valuation over the two-year period would produce about \$32,500 in tax money. The cause of the substantial increase in the tax rate during the period becomes apparent from a review of such statistics."

Tax Relief Gone

Continuing, Rather pointed out that "Menasha taxpayers have been paying during 1962 increased income taxes and selective sales taxes for the purpose of providing themselves with long overdue property tax relief. Such relief is expected to lower taxes in Menasha by about \$2.28. Thus, the promised tax relief has been wiped out and an additional tax of \$1.51 per \$1,000 has been substituted for it."

Comic Contest Outline No. 11

Comic Outline No. 11

B.C.

Cut out on dotted lines

Cut out on dotted lines
Watch for final outline Sunday, Dec. 9!

CONTEST RULES

Cut out each outline on dotted lines. Using crayon only, fill in all the distinguishing, outstanding features . . . eyes, nose, mouth, hair, clothes, etc.—whatever the character calls for.

After you have completed your drawing, mount it on 8 1/2"x11" cardboard or heavy paper. Print your name, address, phone number and age in upper right hand corner. Do this on all drawings.

Do not send in any entries until you have completed all twelve (12) outlines. Two or three will be printed each week for five weeks and each will be identified and numbered as the one above. YOU MUST COMPLETE ALL TWELVE. IN ORDER TO BE ELIGIBLE FOR AN AWARD!

After you have finished drawing in the features on all 12 outlines, and mounted each one on 8 1/2"x11" cardboard or heavy paper, mail or bring all 12 entries to: COMIC CONTEST EDITOR, SUNDAY POST-CRESCENT, POST-CRESCENT BUILDING, APPLETON, WISCONSIN. Remember, complete all 12 drawings before mailing or entering.

All children 12 years old or under are eligible except children of Post-Crescent families.

All entries must be received at the Post-Crescent by 7:00 p.m., Friday, December 14. Members of the art staff of the Post-Crescent will be the judges and their decisions will be final. No entries will be returned. Judges will base their decisions on originality, imagination and neatness.

Become familiar with your favorites!

Interment will be in the Bovina Cemetery, Shiocton.

Mrs. John Niesen
(Marie Schubert)
Milwaukee, Wis.
Age 71, formerly of Kaukauna, passed away Tuesday morning after a long illness. She was born April 20, 1891 in Kaukauna and has lived here until 8 years ago when she moved to Milwaukee. She was the wife of the former Mayor John H. Niesen. She was a member of the Altar Society, Holy Cross Church. Mrs. Niesen is survived by five sons, Herbert, Robert and Joseph all of Kaukauna, Clarence, South Milwaukee, Michael, Appleton, one sister, Mrs. Burton Phillips, Royalton, 32 grandchildren and 2 great-grandchildren. Funeral services will be held at 9:30 a.m. Thursday at Holy Cross Catholic Church, Kaukauna. Burial will be in the parish cemetery. Friends may call at the Fargo Funeral Home, Kaukauna after 2 p.m. Wednesday. Rosary will be prayed at 8 p.m. Wednesday at the funeral home.

Walter C. Wenzlaff
1724 N. Ullman St.
Age 65, passed away unexpectedly at 2:30 p.m. Tuesday. He was born July 15, 1897 in Seymour and had lived in Appleton for the past 40 years. Mr. Wenzlaff is survived by one brother, Arnold Little Chute, four sisters, Mrs. Melinda Steiner, and Mrs. Arlyn Craven, both of Appleton, Mrs. Ray Seigel, Miami, Ohio. Mrs. Frank Ortiz, Chicago. Funeral services will be held at 2 p.m. Friday at the Wichmann Funeral Home, where friends may call from 3 p.m. Thursday. Interment will be in Riverside Cemetery.

Spectacular Fire And Explosions Rip New York Building
NEW YORK (AP)—Explosions and fire ripped through a 42-story garment manufacturing center building at Broadway and 39th street Tuesday night. The lit-up sky in the Times Square area attracted thousands to the scene. No one was hurt.

The fire broke out shortly before 6 p.m. after some of the building's occupants had joined the rush-hour crowd heading home. About 1,000 persons were evacuated from the 20th to 25th floors.

The blasts occurred in a huge air conditioning unit housed in a plywood-and-concrete tower that rises six stories from a setback on the 23rd floor. Flames shot to the 40th floor.

Kaukauna Masons Name Officers
KAUKAUNA — Election of officers was held at a meeting of the Masonic Lodge Monday with Ralph C. Bastian named worshipful master, Clarence Theis was named senior warden and Raymond Nagel, junior warden.

Stanley Beguhn and Olin Dryer were re-elected treasurer and secretary respectively and Edward Geske was named to another 3-year term as trustee. Appointive officers and a date for officer installation will be announced later.

Official business for the year will be closed at a Dec. 17 meeting. During the past year under Robert H. Lare, retiring worshipful master, the lodge celebrated its seventy-fifth anniversary. The event attracted nearly half of grand lodge officers of Masons in Wisconsin and many members from outside the area.

In conjunction with the observance, the lodge burned the mortgage on the Temple property following the final payment on the lodge debt.

Coalition Effort Begun in Bonn to Unseat Adenauer

Free Democrats Schedule Meeting With Socialists

BONN, Germany (AP) — The conservative Free Democrats scheduled a meeting with leaders of the opposition Socialists today in a surprise bid to form a right-left coalition to unseat Chancellor Konrad Adenauer.

West Germany's serious political crisis showed no sign of solution, Adenauer and his Christian Democrats discussed coalition with Socialist leaders Tuesday but reached no decision.

A communique said that they discussed "future political cooperation." Half the Socialist members of Parliament were reported to be in a coalition with the Christian Democrats unless Adenauer retired.

The unresolved crisis, touched off originally by the walkout of Free Democrats from the government as a result of the Spiegel affair, has put Adenauer in one of the toughest spots of his political career.

A union of Free Democrats and Socialists would mean an end to the 86-year-old Adenauer's rule. The Free Democrats, with 67 seats, hold the balance of power in the present Bundestag (lower house). Adenauer's Christian Democrats hold 241 seats and the Socialists 190.

A new arrest in the Spiegel case was announced while political leaders struggled to heal the breach caused by the crackdown on the weekly news magazine.

Lawyer Josef Augstein, a brother of Der Spiegel's publisher, was taken into custody Tuesday on suspicion of complicity in high treason.

The previous arrests of publisher Rudolf Augstein and members of his staff touched off the turmoil that caused the exit of the Free Democrats from the government and brought on the resignation of Defense Minister Franz Josef Strauss.

The first arrests followed an article in the magazine charging that the 400,000-man armed force Strauss built up during his six years in office was incapable of stopping any Soviet aggression. Critics charged that Strauss had sought revenge against the magazine, which had constantly opposed him. Strauss subsequently resigned, but efforts to patch up the coalition have so far been unsuccessful.

Economic Chief In Argentina Resigns Office

20 Senior Officials Join Alsogaray in Leaving Positions

BY ISAAC A. LEVI
BUENOS AIRES, Argentina (AP) — Economic Minister Alvaro Alsogaray gave in to week-long pressure Tuesday night and tendered his resignation, charging that divisions in the government balked his campaign to hold the line against inflation.

The threatened departure from the government of the controversial 49-year-old economist — along with his entire economic team of 20 senior officials — promised yet another political crisis.

Unconfirmed reports said Rear Adm. Carlos A. Kurlungia also had resigned as Navy secretary.

Alsogaray

President Jose Maria Guido neither accepted nor rejected the mass resignations immediately. He told Alsogaray he would start a round of consultations — beginning with the military leaders of the government — today.

The war secretary, Lt. Gen. Benjamin Rattenbach, apparently precipitated Alsogaray's decision to quit by stating at a news conference that the economic minister's policies were not adequate to pull Argentina out of its slump.

Alsogaray said the head of the army told him on Monday "other Cabinet ministers are feeling the same way." Alsogaray's austerity policy was always opposed by

Claim Capture of Katangan Town

LEOPOLDVILLE, the Congo (AP) — The central Congolese government today claimed capture of the north Katanga town of Kongo, where about 1,500 gendarmes loyal to Katanga President Moïse Tshombe had been holding out since February.

Gen. Joseph Mobutu announced his central army troops penetrated the town last Friday and that it is now under his control. But diplomatic circles here thought it likely the Katangans still held the section on the east bank of the Lualaba River.

Two spans of a 500-yard road and rail bridge linking the two parts of the town have been blown into the river and it was believed the Leopoldville troops controlled only the main part of Kongo and the airfield on the west bank.

Kongo, scene of the massacre of 19 Roman Catholic priests and two other Europeans by drunken central army soldiers in January, was recaptured a month later by Katangan armed forces.

Capture of Kongo could help to bolster Premier Cyrille Adoula's Leopoldville regime in the face of strong parliamentary opposition attacks.

The 53.5-million ship was to have started Tuesday on an 8-day training cruise — to train new engineers.

According to one story — by the Baltimore Sun's maritime editor, Helen Deitch — 29 nuclear reactor engineers aboard the Savannah have quit, but are staying aboard for safety reasons until other engineers can be found to mind the potent reactor deep in the Savannah's engine room.

The engineers are members of the AFL-CIO affiliated Marine Engineers Beneficial Association, and sources here said the issue is being negotiated in New York headquarters.

Governors Defer Their Comment

WASHINGTON (AP) — Governors held their fire for the most part as the Pentagon unveiled its program designed to get more ready-to-go combat punch into fewer National Guard and Army Reserve units.

An outcry had been predicted by some. It still may come. But Tuesday's announcement by the Defense Department drew only a request by Gov. Albert D. Rosellini of Washington that his colleagues withhold approval of the National Guard proposals until after a Pentagon meeting with state adjutants general next Monday.

Rosellini, chairman of the National Governor's Conference, said he personally opposes abolition of National Guard units in his state. He urged other governors to wait until after a special committee of the conference looks into the matter after Monday's meeting.

New Reserve Strength
The shakeup, in the works for eight months or more, will build reserve strength "far greater than anything we have known in the past," Secretary of Defense Robert S. McNamara said in announcing it.

The order goes into effect automatically for Army Reserve units. Approval by governors is needed for any changes in the National Guard during peacetime.

Dispute Delays Nuclear Ship Engineers' Pay Prevents Start Of Training Cruise

LONG BEACH, Calif. (AP) — The nuclear ship Savannah, whose reactors can carry it whole circuits of the globe without refueling, is tied up here today by a labor dispute.

The gleaming white freighter has been idled by a controversy over wages paid its engineers. They are specially trained nuclear experts, and can't be replaced in a union hiring hall like most crewmen.

The 53.5-million ship was to have started Tuesday on an 8-day training cruise — to train new engineers.

According to one story — by the Baltimore Sun's maritime editor, Helen Deitch — 29 nuclear reactor engineers aboard the Savannah have quit, but are staying aboard for safety reasons until other engineers can be found to mind the potent reactor deep in the Savannah's engine room.

The engineers are members of the AFL-CIO affiliated Marine Engineers Beneficial Association, and sources here said the issue is being negotiated in New York headquarters.

Should anonymous but apparently authoritative criticism of a high official be interpreted as evidence that his resignation would be welcomed by the president?

Stevenson's troubles began Sunday with the disclosure in New York of an article in this week's edition of the Saturday Evening Post. The article was written by Charles Bartlett, a reporter for the Chattanooga Times and a very close friend of Kennedy.

In a statement Monday the White House denied the report and declared that Stevenson had in fact "strongly supported" Kennedy's decision for the blockade.

Reserve, Guard May be Cut By 3,849 Men in Wisconsin

U. N. Secretary-General U Thant, left, is pictured with his host, Soviet Deputy Foreign Minister Vasily Kuznetsov, during luncheon today at New York headquarters of the Soviet mission to the U.N. Center is U. N. Undersecretary-General C. V. Narasimhan. (AP Wirephoto)

32nd Division Not Greatly Affected by Changes but Others Face Sharp Changes

MADISON (AP) — Army National Guard and Reserve reorganization announced Tuesday could result in a reduction of such forces in Wisconsin by 3,849 men.

Under the plans of Defense Secretary Robert S. McNamara, National Guard units in Wisconsin face cuts of 2,766 men to a strength of 3,564.

The XIV Army Corps headquarters in Minneapolis announced that 18 Wisconsin units of the 103rd Division of the Army Reserve are to be inactivated, reducing the unit's strength in Wisconsin by 1,083 men to 8,873.

The state's 32nd National Guard Division, which returned in August from 10 months of active duty, apparently will be little affected by the reductions.

No Fox Cities reserve or National Guard units will be directly affected by the moves. Nearby units to be deactivated are the 34th Artillery, Green Bay, part of the 103rd Division, and the 1080th transportation battalion, Green Bay.

Army Reserve changes can be ordered by McNamara's office, but any alterations in National Guard ranks must be approved by state governors.

Questions Timing
Gov. Gaylord Nelson, commander-in-chief of the 32nd Division, was not available for comment.

Maj. Gen. Ralph Olson, state adjutant general, questioned the timing of the changes. "We believe," he said, "if any units are to be eliminated it should be done at the time we are reorganizing under a new Reorganized Objective Army Division (ROAD) concept." He said changes under the ROAD plan are expected soon.

Olson said any losses by the 32nd would not "be too serious at this time" because the division has been under going considerable change since its return from Ft. Lewis, Wash., and is currently below its authorized strength of 10,000 men. The proposed re-alignment would probably reduce that figure to about 8,000 men.

Olson would not comment on other National Guard units in the state.

13 Castro Foes Jailed by U. S.

Accused of Making Plans for Attack Against Dictator

KEY WEST, Fla. (AP) — Thirteen anti-Castro sympathizers sat in jail today 90 miles from Cuba, charged with violating the Neutrality Act.

The 13 including two Cubans and a Canadian — were picked up early Tuesday on a tiny island in the Florida Keys and accused of preparing an expedition against Cuba.

U. S. Commissioner William V. Albury called the 13, 10 of whom are American citizens, "just an adventure group that could get our country into trouble."

Albury ordered the 13 turned over to U. S. District Court in Miami. Fla., and held them on \$1,000 bond each.

In reply to the charges, one of the group, James A. Lewis, 29, of San Francisco, Calif. asked, "Does it matter who violates neutrality, the government or us?"

"We have no name and belong to no other anti-Castro faction," said the apparent leader of the group, Gerald Patrick Henning, 25, of Los Angeles, Calif. Henning indicated, however, he knew of other anti-Castro groups training in the Keys.

The Cubans identified themselves as Eleno O. Alvarez, 26, and Remigio Arce, 43, both of Miami. The Canadian was William J. Dempsey, 21, Stratford, Ont.

The others, all identified as U. S. citizens, were Ronald P. Ponce De Leon, 22, Lawrence J. Howard Jr., 27, Pico Rivera, Calif. Edwin A. Collins, 27, Justin J. Wilson, 26, William Seymour, 25, Edmund Colby, 31, and Joseph C. Gorman, 32, all of a single Miami address, and Roy E. Hargraves, 22, also of Miami.

Reds in Italy Lash at Peking

ROME (AP) — Italy's Communist party, the biggest in Western Europe, bluntly condemned Peking today and pledged solidarity with Moscow.

Giancarlo Pajetta, one of Italy's top Reds, turned to a Chinese delegation at the Italian Communist congress here and said his party unanimously "condemns your unjust position."

The 900 delegates rose to their feet in a cheering ovation that left no doubt where Italy's Communist party stands in the Moscow-Peking ideological dispute. The men from Peking remained seated, silently scribbling on a pad.

Pajetta's speech was the sharpest and most open denunciation of the Chinese since the congress opened Sunday.

Clouds, Cold, Snow Set for Thursday
Wisconsin — Cloudy and colder with snow flurries this afternoon and tonight. Partial clearing Thursday with some snow flurries in the morning. Low tonight, 20. High Thursday, 36.

Appleton — Temperatures over the 24-hour period ending at 9 a.m. today: High, 45; low, 29. Wind is from the west-northwest at 12 miles an hour. Barometer reading: 29.43 and rising. Temperature at 9 a.m.: 28. A trace of snow and 35 inch of rain have been recorded since 9 a.m. Tuesday.

Sun sets at 4:15 p.m., rises Thursday at 7:14 a.m. Moon sets tomorrow at 1:10 a.m.

Kennedy Expected To Support Adlai

Ambassador's Effectiveness Threatened by Uncertainty

BY JOHN M. HIGHTOWER
WASHINGTON (AP) — The future of Adlai E. Stevenson as President Kennedy's ambassador to the United Nations rested today under a cloud of uncertainty today — a cloud which only Kennedy himself can dispel.

Unless the uncertainty is cleared up soon Stevenson's effectiveness in dealing with other diplomats in New York may be impaired.

His prestige and persuasiveness depend upon the faith foreign envoys place in the President's confidence in Stevenson. That seems, for the moment, to be the central issue the President must now deal with.

Some well-placed officials expect that Kennedy will speak out publicly in support of Stevenson. Associates of the ambassador say privately that the President already has assured him of his full support and that Stevenson is planning to carry on as usual.

Unless Stevenson was convinced of Kennedy's complete backing, one informant said, "he would have resigned already."

In official quarters two other questions are coming into focus. How much tolerance is there at the White House for disagreement in policy making?

Magazine Article
Should anonymous but apparently authoritative criticism of a high official be interpreted as evidence that his resignation would be welcomed by the president?

Stevenson's troubles began Sunday with the disclosure in New York of an article in this week's edition of the Saturday Evening Post. The article was written by Charles Bartlett, a reporter for the Chattanooga Times and a very close friend of Kennedy.

In a statement Monday the White House denied the report and declared that Stevenson had in fact "strongly supported" Kennedy's decision for the blockade.

Petrillo Gains Lead in Poll By Musicians

CHICAGO (AP) — James Caesar Petrillo pulled into the lead today in his bid to continue as president of the Chicago Federation of Musicians.

A union estimate of the vote results early today indicated that Petrillo had been defeated by an insurgent candidate, by 188 votes, but the official tally by mid-morning had Petrillo leading by more than 100 votes.

John Kryszynski, chief judge of the election, said that with 1,987 votes counted, Petrillo had 1,048 to 939 for Barney Richards, a dance band leader. Kryszynski said more than 3,000 votes were cast.

Petrillo, 70, who served 18 years as president of the American Federation of Musicians, has led the Chicago Federation, a local of the American Federation of Musicians, for 40 years.

The election, with only about one-third of the union's reported eligible members voting, marked the first time since 1933 that Petrillo was opposed for the presidency.

Petrillo's son, James Jr., seeking re-election as financial secretary-treasurer of the Chicago union, trailed Ervin H. Trisko 737 to 1,196 on the basis of an incomplete vote count for that position.

Richards, 57, headed a group called the "Chicago Musicians for Union Democracy." Richards and his group had claimed Petrillo and his slate had failed to give the local the right kind of representation.

Are Officials Different?

Should Wives at Business Dinner Eat on Firm's Expense Account?

WASHINGTON (AP) — Should a new self-assessment tax system predicted dire results if a new tax law is interpreted as prohibiting expense deductions for the cost of having wives attend business dinners honoring foreign dignitaries?

"I do not think it was the intention of our lawmakers to create a situation whereby they encouraged a sales representative to go out for the evening with his customers without their wives. This would be an aiding factor to the Revenue Service to implement a new law designed to curb expense account abuses."

Special Funds Provided
Testifying at public hearings on the suggested rules, Henry G. Fousard, president of the St. Paul area Chamber of Commerce, argued that wives attending business dinners have as much right to eat on the expense account as does the First Lady and wives of American ambassadors.

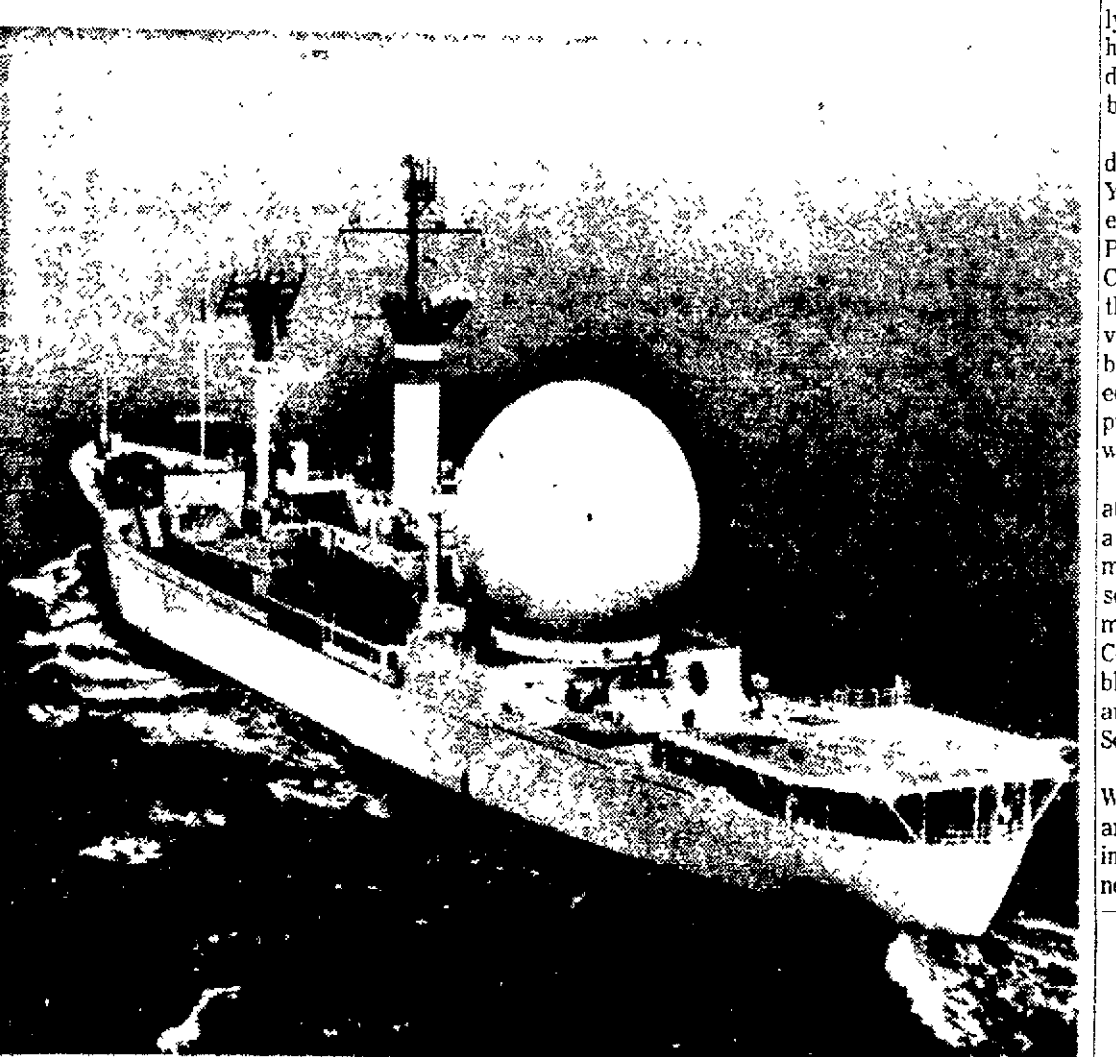

This theme was repeated today by a spokesman for the National Association of Manufacturers.

The NAM's general counsel, Lambert H. Miller, argued the proposed tax reporting provisions would "encourage a breakdown of

other witnesses challenged the detailed record-keeping that would be required by the regulations. They claimed the proposals would impose an impossible burden and discourage business patronage of hotels, restaurants and taverns, with adverse effects on the national economy and federal revenues.

This theme was repeated today by a spokesman for the National Association of Manufacturers.

The NAM's general counsel, Lambert H. Miller, argued the proposed tax reporting provisions would "encourage a breakdown of

The USNS Kingsport, the Navy's first seaborne terminal for satellite communication heads for Philadelphia Naval Base where it will be turned over to the Military Sea Transportation Service by the Bureau of Ships. The Kingsport has an array of antenna including a 30-foot parabolic tracking dish covered with a 54-foot diameter radome sphere almost at midships. A helicopter landing platform covers the stern section. (AP Wirephoto)

Site Offered for New High School

Brokers Offer Land Near Park To New London School Board

NEW LONDON — The question of a site for the proposed New London high school building took a new twist Tuesday night as board members received an offer of a third site.

Real estate brokers Don Radtke and Wayne Dobberstein, New London, offered to sell the district a 30-acre site adjoining Hatten Park, between Pershing Road and Jennings Street.

The board eliminated the Abrahams Heights site, which it had earlier approved, when it rescinded its action. The motion to abandon Abraham Heights as a possible site was passed unanimously.

Monday night, the New London Planning Commission voted unanimously to recommend vacating Washington Street in the property now owned by the school known as the Allen site. This property is located between Pine and Washington streets and is favored by many city council members and members of the planning commission. It also adjoins Hatten Park.

Additional Land

In their offer, Radtke and Dobberstein offered to trade their property for the Allen property on an acre-for-acre basis with the school district paying for additional land at \$1,300 an acre.

The Allen property is roughly 26 acres in three parcels with two parcels of land separated by Washington Street while a third parcel is a block and a half away from the two other parcels.

There would be no need to vacate any streets on the Radtke-Dobberstein tract.

The board took no action on either site, but named a site negotiation committee of Vernon Tuesdale, Dean Kronwall and Robert Woods to investigate the sites, secure options and check on engineering aspects.

The New London Methodist Church owns an approximate four-acre site immediately adjacent to the Allen property. The committee is to contact the church and see if this property could be obtained.

Engineering Survey Asked For Waupaca

Middleton Firm Makes Offer To City Council

WAUPACA — The advantage of having an engineering survey of Waupaca and the surrounding area for future city expansion was discussed Tuesday night by the city council.

Mayor Lloyd Matheson, Ald. Vernon Johnson and Hiram Krebs, city engineer, outlined the proposal of Green Engineering, Middleton, as presented by Richard Green, engineer, and Donald Gerhard, planner.

They reported the federal government will pay two-thirds of the cost and give the city credit for the work now being done by Krebs in preparing engineering maps.

\$3,000 Cost

Krebs said the city would receive about \$20,000 worth of engineering service for \$3,000.

The new service would include contour mapping, information as to the best locations for residential expansion, industrial development and plans for future expansion.

Krebs said the new service would supplement the engineering maps he is preparing.

Mayor Matheson indicated the service also would provide a subdivision development program control. He said money would be set aside for the installation of sewers, streets, sidewalk and water mains by the owners of the subdivision.

New Subdivisions

The mayor indicated the owners of new subdivisions are planning the new areas to make money. He said the other city taxpayers should not be made to pay for development of residential areas.

Ald. Johnson said a meeting may be held with a representative of the engineering firm and a state representative during the Dec. 18 meeting of the council.

Ald. Alfred Jarnick urged the council to progress slowly before contracting an engineering firm. He said the plan is primarily for cities where expansion is a problem.

1963 Ordinance Sets Tax Rate at \$52 Per \$1,000 Assessment

WAUPACA — The City Council Tuesday night adopted the 1963 budget ordinance and set a \$52 per \$1,000 assessed valuation tax rate.

The budget will provide \$251,456 for city spending during 1963 of which \$168,464 will be raised by taxes and the remaining \$182,992 will come from other sources.

The total tax levy for all purposes is \$424.897, which includes \$168,464 for city spending, \$146,365 for schools, \$106,324 for county and \$3,215 for state.

Mrs. Dell Ward, city clerk, told the council the levy breakdown includes 26 per cent for state and county, 36 per cent for schools and 38 per cent for city.

Mayor Lloyd Matheson said the state is planning to return about 10 per cent of the personal property tax. This money will come in the form of a rebate. Merchants also will have 50 per cent rebate on their personal property tax.

Name 7 Cheerleaders

CLINTONVILLE — Seven girls have been named cheerleaders at the St. Rose Catholic School. They are Dawn Christopherson, captain, Sue Ann Lauer, Antonette Werner, Elizabeth Samz, Mary Lee Spittgeberger, Jo Ann Platte and Kathleen Harbath.

County Director To Take Training

WAUPACA — John Lubbers, county welfare department director, and three case workers are planning to attend the inservice training meeting of the Wisconsin Rapids district today and Thursday.

The subject, "Separation," will center on the meaning of separating a child from its parents and separating a husband and wife when one or the other must enter a nursing home.

Attending with Lubbers will be case workers, Mrs. Eunice Rice, Mrs. William Spiegel Sr., and Miss Marlyn Sternhagen.

Welfare department workers from eight counties will attend the Wisconsin Rapids institute. They will attend from Waupaca, Portage, Wood, Juneau, Adams, Marquette, Green Lake and Waushara counties.

Lubbers and members of his staff also recently attended the 16-county conference at Appleton on rehabilitation.

Youths Admit Going On Vandalism Spree

WEYAUWEGA — Five juvenile boys have admitted causing damages estimated at more than \$500, mostly in broken windows, in a rash of vandalism which began Halloween night, Chief of Police Kenneth Thompson said this morning.

One of the five, a 14-year-old Weyauwega boy, has been involved in breaking several small windows at the vacant service station on W. Main Street.

Two 15-year-old Weyauwega boys and two boys from the Fremont area, one 16 and the other 17, caused about \$46 in damages Halloween night to a fishing shanty and fishing equipment owned by Thomas Dean.

Weyauwega's 'Missing' Mail Truck Really Wasn't

WEYAUWEGA — The case of the "missing mail truck" was solved about three hours after it was reported missing late Saturday afternoon.

The truck, owned by Everett Erickson who drives the mail from Oshkosh to Weyauwega and also operates the garbage pick-up service here, was found at the home of Erickson's assistant garbage collector.

Lowell Grambsch, the substitute mail truck driver, was scheduled to take the mail route Saturday. When he went to the Erickson home for the truck, it was missing. In the meantime, Erickson had left town, so Grambsch went to Chief of Police Kenneth Thompson.

After a search of the city failed to produce the truck, Chief Thompson put out a county-wide alarm.

Chief Thompson said when the state-wide alarm was ready to go out on the radio network, he checked at the home of the assistant garbage collector and found the mail truck parked in his yard.

Chief Thompson said when the garbage collector finished his run, he left the garbage truck at a service station and started walking home. Enroute to his home, he walked past Erickson's house and decided to drive the rest of the way so he took the mail truck.

Registration of Guests at the open house of Dickson Rest Home, Fremont, included a welcome by Mrs. Alfred Carstensen, superintendent, second from right, and Mrs. Franklin Neuschafer, one of the Gray Ladies directing the tour, far right. Registering from left, are Mrs. Donald Schuelke, Neenah, and her two sons, and Mrs. Robert Krenke, Fremont, with her daughter Cinda Lee Krenke.

Mrs. Augusta Fraedrich, center, who will observe her 100th birthday May 31, 1963, is visiting with guests who attended the open house in Fremont. They are, from left, Mr. and Mrs. Carl Dittman, Weyauwega, Mrs. Hilda Abraham, Fremont Gray Lady, and Mrs. Meta Ebert, Weyauwega, a former neighbor to the centenarian. (Schmidt Photos)

New London To Get \$7,565 In State Tax

NEW LONDON — The city of New London will receive \$7,565 from state tax payments from the Milwaukee Gas Light Co. and its Wisconsin Gas Co. division. The taxes are assessed by the state on the company's utility plant in place of local assessments on real estate and personal property tax.

New London received \$1,050 for the area located in Outagamie County and \$6,515 for the Waupaca County share.

The Town of Mukwa received \$452, Town of Royalton \$221, the Town of Bear Creek \$207 and the Town of Hortonia \$526.

Weyauwega received \$2,872 while the Town of Weyauwega got \$84.

Damages in Weyauwega

WEYAUWEGA — Five juvenile boys have admitted causing damages estimated at more than \$500, mostly in broken windows, in a rash of vandalism which began Halloween night, Chief of Police Kenneth Thompson said this morning.

One of the five, a 14-year-old Weyauwega boy, has been involved in breaking several small windows at the vacant service station on W. Main Street.

Two 15-year-old Weyauwega boys and two boys from the Fremont area, one 16 and the other 17, caused about \$46 in damages Halloween night to a fishing shanty and fishing equipment owned by Thomas Dean.

The boys, according to Chief Thompson, took Dean's boat, rowed it to the north shore of Lake Weyauwega where they tipped over his fishing shanty, broke the windows and shoved it into the lake. They returned to the south shore where they threw the oars and fishing equipment into the lake.

During the Thanksgiving week, Chief Thompson received a complaint concerning broken windows in a deserted barn on W. Alfred Street. The damage was estimated at over \$36. Fourteen windows were broken.

The bulk of the damage was done Saturday morning when the boys broke about 20 windows in the Weyauwega area, including a big picture window. Rocks were thrown through windows and combination screens. Damage was estimated at \$241.

The boys also broke 15 small windows and a plate glass window at the service station valued at \$110.

Colored Lights

On the way home, the boys took 36 colored light bulbs from the home of Mrs. Celia Hayward, Mill Street, and broke them on the sidewalks and roads.

One of the boys also admitted shooting a cat with a bow and arrow.

The two boys from the Fremont area were involved only in the Halloween night activities with the fishing shanty.

Chief Thompson said Power Gear, the assistant policeman, assisted with the investigation.

The juveniles were referred to the county welfare department.

Board Gives Okay on Proposed Grade School

New London Educators Give Approval To Work Out Final Plans at Sugar Bush

NEW LONDON — Architects' use of exposed laminated wooden beams and taking out a proposed out final plans and specifications for the proposed elementary school at Sugar Bush. The New London school district board of education gave approval at a special meeting Tuesday night.

The board plans to draw up bonding procedure and work out final details at its regular meeting next Tuesday. The school, estimated to cost about \$360,000, must be approved in a referendum by district voters.

No date has been set for the referendum. However, it appears that there will be a separate vote on the question, and not a joint referendum on both the elementary school and proposed high school.

The board Tuesday night spent several hours working out construction details. The school will contain 13 rooms and house about 300 students in kindergarten through sixth grade.

The proposed building contains about 22,800 square feet.

Moving of Stage

Board members approved moving the stage in the multi-purpose room to the north side of the room. A storage room and dressing room were combined to make an academic room which can be used for art, science and music. It will adjoin the multi-purpose room.

Construction specifications approved include use of asphalt tile in classrooms with vinyl asbestos tile in other areas, hot water heating system, a 20 by 10 foot stage for the multipurpose room.

Yule Party Set By Chilton C of C

CHILTON — The Christmas party for Chilton area children sponsored by the Chamber of Commerce has been scheduled for Dec. 15, according to F. J. Flanagan, C. of C. secretary.

There will be two free showings of children's movies at 1 and 3 p.m. at the Chilton Theater.

Santa will visit the theater after his Christmas tree and the Na- each movie and he and his chamber member assistants will distribute gifts of candy to all children attending.

Erect Christmas Tree

SUGAR BUSH—The Community Christmas tree and the Na- each movie and he and his chamber member assistants will distribute gifts of candy to all children attending.

Wauapaca Police Force To Accept Applications

WAUPACA — The city police department is accepting applications for an additional policeman who will start with the department Jan. 1. Chief of Police Fred Rasmussen said this morning.

Applicants must be 21 to 45 years old. Application blanks can be obtained at the police department or the office of Mrs. Dell Ward, city clerk. Deadline for returning the applications is 5 p.m. Dec. 11.

Plan Breakfast

CLINTONVILLE — The American Legion auxiliary will have a breakfast meeting at 9:30 a.m. Thursday at the Veterans Memorial building. The committee for December includes Mrs. Merin Mitchell, Mrs. Ed Mervyn, Mrs. Henry Gipp and Mrs. R. E. Knisler.

Moderate Boost in Stockbridge Taxes

Village Road Cost May Vary

Stockbridge Board Given Two Prices, Depending on Type

STOCKBRIDGE — A representative of Badger Highways, Menasha, told the Village Board Monday night that paving the one mile stretch of Old Road now under improvement would cost between \$8,000 and \$14,500, depending on the surfacing selected.

He said a cold mix blacktop mat, 2½ to 3 inches thick, laid with a blade would cost from \$8,000 to \$8,500. An improved cold mix laid with an asphalt paving machine would cost about \$10,500 while the hot mix would cost \$14,000 to \$14,500.

The board took no action.

Earl Ecker, who holds the snow removal contract with the village for the 1962-63 winter, appeared before the board and discussed the program for the approaching winter. He asked about nearby areas on which to dump the snow once it is taken from the curb and loaded on trucks. Several areas were suggested.

Jessie Poppy questioned the board about its role in the recent municipal sewerage and water system hassle that was defeated by a referendum vote in November. He asked if the board authorized Oscar Egger, Fond du Lac district sanitary engineer for the State Board of Health, to write a letter urging a "yes" vote on the referendum. The letter was widely distributed among village residents.

Board members denied any connection with the letter.

In other action the board authorized "cattle crossing" and "intersection ahead" signs to be placed on East Road.

Bloodmobile Will be in Clintonville

CLINTONVILLE — The Red Cross bloodmobile will be at Veterans Memorial Building from 1 to 6 p.m. Dec. 13.

The quota is 101 pints of blood, according to Mrs. Walter Sievers, chairman of the blood program for the Clintonville chapter. Clintonville was far short of its quota at the last visit of the bloodmobile. Marion also did not make its quota at the last visit.

It is very important that the quota for this visit of the bloodmobile be reached, according to the Red Cross officials.

Committee chairmen for the visit include Miss Sylvia Runge and Mrs. Lowell Syverson, nurses; Mrs. Milford Etheridge, motor corps; Mrs. Marlowe Peters, typists; Mrs. George Spiegel, dining room; Mrs. Esther Schmidt, canteen; Mrs. Victor Anderson, hostesses; Mrs. Rick Everson, registration, and Rodney J. Platte, doctors.

New London Property

NEW LONDON — The question of two houses formerly owned by the New London school district can finally be closed. School board members Tuesday night approved deeds selling the two houses.

Erect Christmas Tree

SUGAR BUSH—The Community Christmas tree and the Na- each movie and he and his chamber member assistants will distribute gifts of candy to all children attending.

Fund for Construction of New Village Hall and Firehouse Result in Small Rate Increase

STOCKBRIDGE — A newly-created fund to provide for eventual construction of a new village hall and firehouse has resulted in a moderate tax rate increase for village property owners.

The village board Monday night adopted a record \$40,616 budget calling for a \$19.33 rate per \$1,000 of assessed valuation in 1963. The current year's tax rate was \$18.10.

A last-minute revision boosted the rate. The original budget draft totaled \$38,382 and could have been financed by an \$18 per \$1,000 rate, a decrease of 10 cents.

John Karls and Don Parsons, however, urges some long range planning for a new village hall and sponsored a motion to boost the original rate by \$1.33 and provide a \$2,000 village hall construction fund appropriation.

Village President George Hostettler also favored the measure under the condition that the money could be earmarked specifically for that purpose and not used for other spending by a future board.

Motion Passes

The motion passed without a dissenting vote.

In addition to the village hall building fund, the new rate will produce \$234 for a general fund appropriation. Civil Defense spending was considered for the additional tax revenue.

The total budget is \$5,065 higher than the \$35,551 estimated and actual for the current year. The difference is accounted for by three expenditure factors. The \$2,000 village hall appropriation, an increase of some \$1,700 in the village's share of county and state taxes, and a \$1,950 hike in road and street costs.

Even the moderate rate increase will not be felt this year by the village taxpayers. The \$1.22 hike will be largely offset by the state sales tax rebate which will amount to a fraction less than a dollar per \$1,000 of assessed valuation for real estate and specified personal property. This will be credited to the tax bills.

The village's total rebate amounts to \$1,413.

Financing

Financing the record budget will be against real estate and personal

property and \$10,638.50 in revenues from sources other than taxes. The latter is almost constant with the current year's outside revenues.

The levy is up \$2,798 from a year ago when the \$18.10 rate levied against a \$1,501,602 tax base cost \$27,179 in property taxes.

Stockbridge's share of the school district's budget is the major expense item totaling \$18,373. This is a slight drop. County and state taxes will take \$8,252 compared with \$6,595 for the current year. For vocational schools the village will pay \$101.20, compared with \$64.05 in the 1962 budget.

The three items total \$27,728 and, when subtracted from the total budget, leave \$12,890 for village purposes. The major factor is a \$6,000 road and street appropriation.

Other Expenses

Others include village board officers salaries, \$650; clerk-treasurer salary, \$425; office supplies, \$150; assessor salary, \$200; board of review, \$80; miscellaneous, \$150; elections, \$75; fire department, \$800; rubbish dump rental, \$150; street lights, \$1,200; park care, \$250, and fees, engineer and legal, \$350.

Revenues from sources other than direct taxes include income tax from the state, \$3,500; road and street aids, \$4,000; telephone tax, \$166.90; liquor and malt tax, \$685; liquor licenses and permits, \$590; miscellaneous fees and permits, \$35; trailer fees, \$90; utility tax, \$640, and auto tax, \$930.

The \$10,638 total almost matches the \$10,695 estimated and actual for the current year.

A breakdown of the rate shows \$11.64 for school purposes, \$5.32 for county purposes, and \$2.37 for village purposes.

Calumet Veterans Plan 1963 Spring Conference

CHILTON — Plans for the annual spring conference to be staged at Chilton will be discussed by members of the Calumet County Veterans of World War I Barracks 2205, when they meet at 8 p.m. Dec. 17 at the city hall.

Chilton Council Okays 2 Recommendations of Utilities Commission

Approve Premature Retirement of Sewage Bond, Utility Change

CHILTON — The City Council Tuesday night approved two Utilities Commission recommendations altering financial procedures of the water and sewage departments.

One called for premature retirement of the sewerage department's mortgage bond account. On Dec. 15, the entire \$1,000 in outstanding bonds will be retired instead of just the \$300 due.

In the water department, there will be no further transfers from the department's general fund to bond account. This was recommended by a State Department of Audit representative at the last council meeting.

The council also reviewed a list of Industrial Commission demands involving the new Street Department garage. The commission or-

dered several modifications in heating units at the new structure, asked for plans on an exhaust system for fumes and set up support specifications for a storage balcony.

Meet Demands

George Winkler, street committee chairman, said most of the demands have been met. The city has until Feb. 1 to report on progress.

Installation of a private line telephone at the garage was also approved.

Four new street lights have been installed, Emil Schaff, lighting committee chairman, reported. They were located at the intersection of Reed and Breed Streets, the intersection of Evergreen Lane and Grand Street, and on Spring and Water streets.

Mayor Elmer Daun assigned the finance committee to review salaries and fringe benefits of city employees and report with recommendations for salary revisions at the council's first meeting in February.

Build Wall

A request by the Cooperative Service Oil Co. to build a low concrete wall 1½ feet behind the curb at its feed mill on Grand Street will be granted if approved by the city attorney. The proposed structure would be on street right of way. Its purpose is to support a structure enclosing the feed dumping area at the mill.

Arthur Schnell and Del Cain represented the Chilton Kiwanis Club in its successful bid to have Kiwanis signs placed on three major traffic approaches to the city. The signs will tell that a club is active in the city and list its meeting schedule.

The aldermen also reviewed complaints about alleged overcharges on special assessments for sidewalk and curb but took no action. They will be referred to the city engineer.

A Den Chief Conference was staged at St. Rose Catholic School hall, Clintonville. Seventeen attended from Clintonville, New London and Bonduel. Making paper hats are, from left, David Rankin, Bonduel, Troop 24, Bob Muskevitch, New London, Troop 13, and Steven Hertz, Clintonville, Troop 23. Observing the boys was Charles Wolflin, Clintonville, district scout executive. (Laib Photo)

Squadron to Mark 26th Anniversary

Mayor Proclaims Civil Air Patrol Week; Urge Greater Participation

The Fox Cities Composite Squadron of the Civil Air Patrol this week is celebrating the 21st anniversary of the organization, a volunteer civilian auxiliary of the United States Air Force.

Appleton Mayor Clarence Mitchell has proclaimed Dec. 1 through 7 Civil Air Patrol Week in Appleton. He urged that Appletonians visit the CAP meetings and learn more of its activities for youth and the community.

The Fox Cities Squadron picked the CAP birthday week to kick-off a newly instituted program of courses for pilots and others interested in aviation. The program is designed to increase pilot proficiency and techniques and flying safety, and is open to both members and non-members.

Started in 1941, the Civil Air Patrol was started in 1941, and "came of age" on Dec. 1, its 21st anniversary. During World War II CAP civilian pilots flew anti-submarine patrols and border patrols, served

as special carriers and handled other volunteer missions.

The CAP corporation became a civilian auxiliary of the Air Force by law in 1948 — the only civilian auxiliary of the armed forces — and receives the benefit of Air Force and Department of Defense surpluses to assist it in its emergency missions. The Fox Cities Squadron was formed in 1949. The CAP now has more than 850 corporation-owned aircraft, donated as surplus, and about 3,300 member-owned planes, and more than 14,000 transceiver radio stations in the CAP network.

The major phases of CAP work now are training for youth through the cadet program, volunteer service in emergencies, and education for aviation in the community. The CAP handles 60 percent of search and rescue missions in the country for the Air Force, Civil Defense and local communities.

The Fox Cities Squadron has 49 senior members and 28 cadets (13 through 21 years old). The squadron will participate in a nationwide Civil Defense exercise in aerial radiological monitoring on Dec. 15.

Squadron officials hope to interest more young people in the cadet program, which provides basic information in aviation and space flight to the young people. The Fox Cities cadets have planned and conducted their own encampments and "SARCAP" (a practice search and rescue mission).

Other cadet programs include summer encampments at Air Force bases, orientation flights in USAF aircraft, jet orientation courses at Air Force bases for both boys and girls, a new space age orientation course, an international air cadet exchange, and the National Drill Competition.

The Air Force shows its regard for the CAP's youth aviation training by permitting any cadet who has earned a Certificate of Proficiency to enlist in the Air Force as Airman Third Class instead of Airman Basic.

Advise Auxiliary

National headquarters of the CAP are at Ellington Air Force Base near Houston, Texas. Air Force officers administer and advise the auxiliary at national and regional levels. The Civil Air Patrol reached its 21st birthday with 72,000 members, both cadets and seniors, and has set a goal of 100,000 cadets and 60,000 senior members by 1966.

The Fox Cities Squadron meets from 7 to 9:30 p.m. Tuesdays at Franklin School. Wilbur Hack is the commander, and Erwin Roberts is executive officer.

UW Sorority Will Be Allowed to Stay on Campus

MADISON (AP)—Delta Gamma Sorority, threatened with ouster from the University of Wisconsin because of discrimination practices, has been allowed to remain.

A investigation of the sorority's membership practices was begun by the Human Rights Committee of the Wisconsin faculty after the chapter at Beloit College was suspended by the Delta Gamma national council after it pledged a Negro in March.

The decision allowing the sorority to remain at Wisconsin was made by the faculty Monday night after Clarence W. Olmstead, of the Human Rights Committee said a review had shown a change of policy by the national organization.

French Women Leave Traditional Home Jobs

Chicago Daily News Service

PARIS — An increasing number of French housewives are taking jobs in offices, either full or part time.

This is unusual in a country where women traditionally have stayed at home.

In 1954, there were 4,200,000 working women in France. Today there are 4,800,000.

French authorities welcome the trend. It indicates, they say, a praiseworthy tendency among women to take part in the industrial and commercial activities of their country.

They also point out that with the housewife away the laundering and pressing businesses get more work.

French women definitely prefer working in factories or in offices to working as household servants. The pay for the latter jobs is 50 cents an hour in the larger cities.

Windows Blown Out

CLINTONVILLE — An explosion of undetermined origin knocked out 10 windows in the heat-

Vital Statistics

Today's Deaths

Mrs. Anna Gau, 80, Hilbert.

Mrs. Otto Schellien, 66, 137 N. 12th St., Clintonville.

Frank Bucholtz, 64, 78 Brent St., Clintonville.

Harold E. Shepard, 26, 121 N. Franklin St., Wauapaca.

Duane Nord, 11, son of Mr. and Mrs. Robert Nord, Menominee, Mich.

Mrs. John Niesen, 71, Milwaukee, wife of former mayor John Niesen, Kaukauna.

Walter C. Wenzlaff, 65, 1724 N. Ullman St.

Mrs. William (Ruby) Locke, Sr., 74, Golden Age Home.

Zeno H. Junk, Oconto, formerly of Neenah.

Son to Mr. and Mrs. Clemens Mayer, New Holstein.

New London Community:

Sons to: Mr. and Mrs. Walmer Hoe-wisch, Milwaukee.

Mr. and Mrs. Robert Van Etts, route 2, Weyauwega.

Mr. and Mrs. Theodore Doebling, route 1, Bear Creek.

Daughters to: Mr. and Mrs. Lawrence Fox, route 2, Fremont.

Mr. and Mrs. Lawrence Lutz, Shiocton.

Births Elsewhere

Daughter to Mr. and Mrs. Robert Challoner, Oshkosh. Grand-

parents are Mr. and Mrs. Fred Nixon, 337 Lauden Blvd., Neenah,

and Mrs. Ira Challoner, Omro.

President Paul Kostka saw the damage and agreed to have tree surgery performed, but nothing was done. He said he finally paid to have the work done.

He asked the board to have the curb and gutter situation taken care of and to repay his tree surgery costs of \$55. The board refused to take action on the curb and gutter, but agreed to pay half the surgery costs.

The board was informed by the State Highway Commission that it received the responsibility of establishing speed limits on County Highway 60, old U. S. 41, when new U. S. 41 opened.

Police Chief Robert Nechodem said because no houses are closer than 500 feet from the road, the known in Clintonville business en-speed limit cannot be set at less than 35 mph. He suggested a limit of 35 to 40 mph, because of children in the area. The matter was referred to the ordinance committee.

Former Businessman Dies at Clintonville

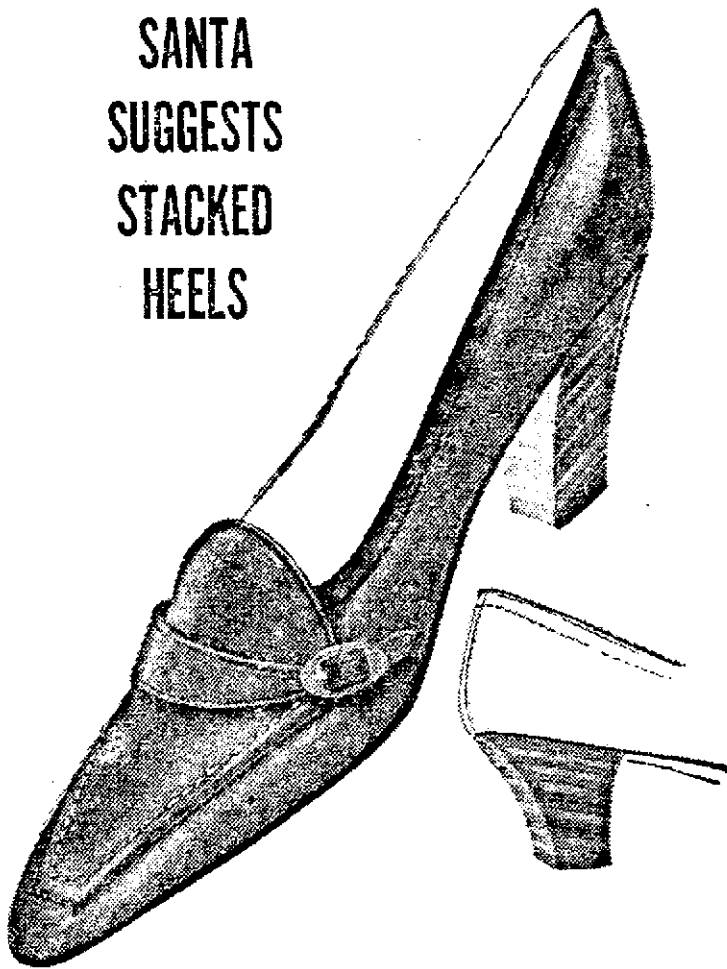

CLINTONVILLE — Frank Bucholtz, 64, 78 Brent St., died Tuesday afternoon at his residence from a heart attack. He had been in ill health for several years.

Survivors include his widow, a daughter three brothers, one sister and five grand children.

Bucholtz owned and operated a tavern from 1937, when he purchased it from his father, until 1952 when he sold it because of ill health. He continued to operate a liquor and beer store, which he had opened in 1943, until Feb., 1961.

The Bucholtz name was well-known in Clintonville business enterprises for more than 100 years. Funeral services will be at 10 a. m. Friday at St. Rose Catholic Church with burial in the parish cemetery. Friends may call at Heuer and Sievers Funeral Home.
